TUMULTY'S NAME IS DRAWN INTO "LEAK" PROBE

WOOD SPRINGS A SENSATION

Letter from New York Basis of Lafayette Man's Testimony.

HE DECLARES HE IS MAKING NO CHARGES

Rumor Involves President's Secretary and Brother of Mrs. Wilson.

Washington, Jan. 5.—Smouldering rumors that somebody made money in the stock market with "leak" information about the sending of President Wilson's peace note blazed up at a sensational session of the house rules committee today at its first hearing on Representative Wood's resolution for investigation.

Specifically declaring he made charges against no one and was presenting only information that had come to him, Wood brought in the names of J. P. Tumulty, "a Mr. Bolling," a brother of President Wilson's wife, whom he did not further identfy; Bernard Baruch, a New York stock operator; Otto H. Kahn of Kuhn, Loeb & Co.; Thompson & McKinnon and Lamson Brothers & Co., Chicago brokers, with a branch office in Lafayette; E. F. Hutton & Co., New York brokers, and F. A. Connelly & Co., a local brokerage house, in which Wood said the "Mr. Bolling" he referred to, was a partner.

Much of his information, Wood said, came in a letter from A. Curtis, an independent New York stock operator.

Wood disclaimed intending to give the impression that he believed that Mr. Tumulty or any one else for that matter, profited by the so-called leak; that he was merely stating what had come to him; that he realized danger of making such statements in public and for that reason he had preferred to make his statement in secret session which the committe denied.

Will Appear Without Subpoena.

At the conclusion of today's session, Chairman Henry announced that Secretary Tumulty would appear without subpoena and that subpoenas had been ordered for Curtis and Baruch. Representative Gardner of Massachusetts, who joined in Wood's agitation for investigation will be heard tomorrow and Thomas W. Lawson will be heard Monday.

"I am informed," Representative Wood testified, "that Barney Baruch had information about the note to the European belligerents two or three days before it was sent and that on two or three occasions at about that time he was in consultation with Mr. Tumulty at the Baltimore hotel in New York.

He also mentioned the name of the Lamson Brothers, branch brokerage office in Lafayette, as having received advance information. Representative Bennett, of New York, a member of the committee, said on the house floor Wednesday, that Baruch was reported in New York to have sold short 15,000 shares of steel, on a rising market shortly before the note was made public.

Objects to Public Hearing.

At the outset of the hearing Representative Campbell, of Kansas, moved to subpoena Secretary Lansing, Secretary Tumulty, Baruch and Thomas W. Lawson. He was prevailed upon by other members to withdraw his motion, but he said he would make it again later.

Representative Wood objected strenuously to testifying in public. What information he had regarding the so-called leak, Representative Wood said, was only heresay and he feared that a public statement would interfere with the work of a committee in obtaining witnesses. Representatives Chiperfield of Illinois, Ford of Illinois and Harrison of Mississippi

SEES REMEDY NEEDED IN PAPER SITUATION

Fruits of Recent Inquiry Now Before Attorney General.

Washington, Jan. 5.—Attorney General Gregory had in his hands today the fruit of the federal trade commission's inquiry into the news print paper industry, with the intention of instituting civil and criminal actions if it is found a paper trust has been formed.

"I know, of course, from what has already been brought out," wrote the attorney general to the trade commission, referring to the commission's investigation, "that a serious condition exists in this trade and that any remedy which the law may afford should be applied at once."

President Wilson is said to be interested in the paper situation. The committee expected to report to congress within a few days the result of its inquiry.

SESSION IS A BRIEF ONE

After Less Than One Hour Legislature Adjourns Until Monday.

TRIBUTE TO LATE SENATOR RINEAR

Both Indiana Houses Will Attend Goodrich Inauguration Monday.

Indianapolis, Ind., Jan. 5.—With the adoption of a tribute to the memory of the late Senator Elias M. Rinear, who represented Blackford and Wells counties in the upper house at the last session and the transaction of routine business in the house the general assembly adjourned today after being in session less than one hour and both houses will resume Monday morning.

Senator Abram Simmons, of Bluffton, presented the memorial to former Senator Rinear, and Senators Gemmell, Reser and Humphreys gave brief eulogies. Although of opposite political faith Senator Gemmell paid high compliment to ex-Senator Rinear as a public servant. Senator Reser referred feelingly to Mr. Rinear's concern for the soldiers and Senator Humphreys dwelt upon his worth as a citizen.

Upon motion the senate adjourned to 9:30 o'clock Monday morning, when

HER DIVORCE CASE BRINGS BACK VOICE

Topeka, Kas., Jan. 5.—After being totally deaf and dumb for sixty-eight years, Mrs. Cordelia Kirkpatrick, 72 years old, became so excited at the trial of her suit for divorce that her voice was restored almost completely and she is able to hear.

Her attorney had worried along several minutes trying to get Mrs. Kirkpatrick's testimony through the sign method. Suddenly the woman leaned forward in the witness chair and in a low voice she began to speak.

"I believe I can talk," she said.

Then her attorney shouted a few questions in her ear and it was demonstrated that she had recovered her hearing. The husband is fourteen years younger and also deaf and dumb, but when he took the stand the excitement did not restore his voice or hearing.

CHILDREN VICTIMS OF TORNADO'S FURY

Eleven Dead After Storm Wrecks Schoolhouse in Oklahoma.

Muskogee, Okla., Jan. 5.—A total of eleven dead and the injury of a number who are expected to die was the report today from the district which was swept by a tornado yesterday. All the dead were school children ranging in age from 6 to 18. The loss of life and the bulk of the property damage occurred in the valley town of Vireton, Okla., thirteen miles northwest of McAlester.

Preparations were being made for the noon dismissal of the country school here when the tornado entered the valley and swooped down upon the village. The school house was carried off its foundation and screaming children and timbers were hurled through the air by the fury of the wind.

Bodies Hurled Far.

Bodies were picked up a hundred yards from where the school house stood, they being blown across a ravine and well up on the opposite hill side.

Of the twenty-nine persons within the building only two escaped injury. Four are believed to be so badly injured that they cannot recover. The teacher, Miss Vera Carter, at first believed to have been killed, sustained a double fracture of the jaw besides other painful injuries. She is expected to recover. The Choctaw Indian mission at Vireton was destroyed and virtually all the residences suffered from the storm.

Other Regions Suffer.

Before reaching Vireton the tornado struck at Richsville, Okla., seven miles southwest, wrecking a boiler room and a tipple at a coal mine there. It then lifted and did no further damage until Vireton was reached.

Quinton, Okla., twenty miles north of Vireton, also suffered from the Tornado. Seven persons were injured and five houses were destroyed by its activities there.

What is believed to be the same tornado, caused damage estimated at $50,000 at Success, forty miles north of Little Rock, Ark., and caused severe losses of property at both Dardanelle and Danville, Ark.

The tornado by its peculiarity of jumping from town to town resembled greatly the one which two weeks ago struck central Arkansas, causing the loss of seventeen lives.

WANTS TO BE CERTAIN HE'S NOT AN ANARCHIST

Chicago, Jan. 5.—The clerk of the United States court in Chicago is waiting today for John Burrows Collings-Woods, formerly of Hartlepool, Eng., to determine whether or not he is an anarchist. Mr. Collings-Woods expressed a desire to declarer his intention to become an American citizen, but handed back the blank form after reading it.

"I don't know whether I'm an anarchist or not," he said. "I'll go home and think over the matter and if I decide I am an anarchist I'll not come back."

The form supplied in such cases asks: "Are you an anarchist, a bigamist or a polygamist?"

DISCOVERER OF X-RAY TO SPEAK AT BANQUET

Dr. A. L. Foley to Attend Annual Meeting of I. U. Alumni Association.

Dr. A. L. Foley, head of the physics department at Indiana university, a man of world-wide reputation, will be the principal speaker at the annual banquet of the Allen County I. U. Alumni association, which will be held at the Wayne hotel, Friday evening, January 12.

Dr. Foley is a very interesting speaker. He worked on the invention of the X-ray for several years and when he applied at the patent offices of the United States he found that the French inventors had secured a patent ahead of him on the same machine.

Arrangements are being made by the committee in charge of the banquet to accommodate one hundred and fifty guests. Several other local men will give brief addresses, including Prof. Louis Ward, who is president of the association. Old college songs and yells in honor of their alma mater will also be on the program.

It was the plan of the committee to hold this annual event at the Y. W. C. A. Building, but this plan has been changed and the Wayne hotel was secured. Officers will be elected for the coming year.

Today's War News Given in Summary

The Rumanian Danube port of Braila, important as a granary and oil storage depot, apparently is in imminent danger from the converging attacks of Field Marshal von Mackensen's forces on both sides of the Danube. On the westerly side of the stream, where Braila lies, the bridge-head position protecting it has been pierced by the Austro-German forces, according to today's German army headquarter's statement.

To the east across the river in Dobrudja the German and Bulgarian forces which captured the Matchin bridgehead, are continuing their advance towards the town. This forward movement, moreover, threatens not only Braila, but the town of Galata, twelve miles to the north, the capture of which would deprive the Russians of virtually their last hold on the shores of the Danube west of the Bessarabian boundary.

Von Mackensen's attacks on the frontal line of the Sereth, running northward from Braila, to which line the Russo-Rumanian forces have retired, are progressing successfully, according to Berlin, which reports the capture of two additional towns in the Rimnik Sarat sector.

FEARS OF FLOOD ARE ALLAYED BY FORECAST

River Will Not Rise Any Higher Than Ten Feet Says Weatherman.

People residing in the lowland districts of the city whose fear of a flood have begun to rise with the slowly rising river need not be alarmed as the weather man states that there is absolutely no danger and that the waters will not rise any higher than ten feet.

Thursday afternoon the reading was 3 feet, while during tthe night it rose to 4.6. An inch of rainfall would send the river up to 8.6 feet and counting in the latent waters it is possible that the highest point that the water would reach is 10 feet.

The forecast for this district is encouraging in that respect as it is to stop raining by Friday evening. The forecast reads fair tonight and Saturday. However, in the same message comes the statement that a cold wave is on its way which may send the temperature down as low as 10 degrees by Saturday morning. Strong northwest winds are to be encountered.

A report was circulated late Friday morning that an ice jam had formed near the Columbia street bridge. Investigation proved such not to be the case.

BASS BUILDING WILL BE BEGUN NEXT SPRING

When the reign of Jack Frost comes to a close next spring ground will be broken for the four-story Bass building which will be erected on East Berry street just east of the entrance to the Majestic theater. Architect J. F. Wing states that plans are complete for two stories of the new commercial building and that the plans for the other two stories will be finished before spring. The new building will be a modern one in every respect, and will be 75 feet wide and 100 feet long. This is one of many large buildings which will be erected next summer.

BERLIN TO RESPECT SWISS NEUTRALITY

Berne, Switzerland, Jan. 5.—The Bund prints a note from the German legation with the object of dispelling fears aroused in Switzerland by rumors that Germany intended to strike at France and Italy through this country.

The note says: "We may once more declare that, as all Swiss know, Germany is firmly resolved to strictly respect Switzerland's neutrality."

PIONEER PHYSICIAN DIES.

Terre Haute, Ind., Jan. 5.—Dr. E. T. Spottiswood, one of the oldest physicians in the state and who as a member of the legislature in 1858, introduced the resolution which resulted in the building of the Indiana state normal school here, died here today of old age. He was a surgeon in the union army during the civil war.

THINKS $25,000,000 SPENT ON ELECTIONS

Owen Cites One Instance of $300,000 Given to Influence Result.

Washington, D. C., Jan. 5.—The corrupt practices bill, pending in the senate was the general subject of discussion at a conference of the National Popular Government league which opened here today. Senator Owen, of Oklahoma, author of the bill and president of the league in an address characterized the present federal law requiring publicity for campaign contributions as "quite worthless," and estimated $25,000,000 had been spent in 1916 for influencing elections.

"I have been advised of an instance in the last election," he said, "at which one citizen gave $300,000 to another citizen holding high public office and to which no publicity was given or intended to be given.

CALL LEWIS GIRL SLAYER

Police Believe His Suicide Clears Up Mystery of Model's Murder.

MOTIVE ALONE YET TO BE DISCOVERED

Second Tragedy Apparently Solves Philadelphia Sensation.

Philadelphia, Pa., Jan. 5.—Detectives at police headquarters here announced today that the suicide of Bernard W. Lewis, of Pittsburg, in Atlantic City last night, when he was trapped by the authorities of that city, solved the mystery surrounding the murder of Maizie Colbert, whose body, clad in violet silk pajamas, was found in her apartment here late last Saturday night.

The only thing that remains to be done, they said, was to find the motive for the crime. The police discard the theory that a third person was present in the Colbert apartment when the murder occurred. A theory was that one man was in the Colbert apartment when another man came in unannounced; that one of the men immediately left and that the one who remained quarreled with Miss Colbert and the killing followed.

While the police say they are convinced that Lewis was the man responsible for the death of the girl, they are not ready to believe that the crime was premeditated. It is their belief, they say, the tragedy was the result of a quarrel either over jewelry, money or jealousy aroused by the attention of other men.

Miss Ethel and Mabel Kyle, the public school teachers, who had known Lewis for a year and who furnished his name to the police when they learned that he had become connected with the case, were still suffering from shock today over the murder revelations and the suicide of their friend.

Philadelphia, Pa., Jan. 5.—Circumstantial evidence which the police say convinces them that Bernard W. Lewis, son of a wealthy retired Pittsburg coal operator, who ended his life in the Atlantic City hotel last night, was the slayer of Maizie Colbert, the artist's model, was revealed here today by an examination of the young man's body.

Lewis was positively identified by Elwood Powell, the chauffeur who drove him and the Misses Ethel and

STATE TREASURY IS BULGING WITH MONEY

Indianapolis, Jan. 5. — More money was in the state treasury December 30, 1916, than at any previous time in the history of Indiana, according to figures announced by George A. Bittler, state treasurer. There is no state debt, and the state debt sinking fund on that date amounted to $322,622.69, to which will be added revenues for sinking fund collected this year.

The total balances in the treasury on December 30 was $5,705,349, of which $1,825,907 was in the general fund and $1,744,480 in the school revenue and tuition funds. From unclaimed estates there is a balance of $107,231.65 in the treasury.

TYPHOID GERM CAUSES ALARM

Many of Them Are Found in City Water by State Chemist.

FEVER PLAGUE IS GREATEST FEAR

Several More Samples Are Taken Back to Indianapolis for Analysis.

Many typhoid fever germs were found in the last samples of city water analyzed by the state chemistry department, says J. C. Diggs, state chemist, who was in Fort Wayne, Friday, to make personal investigation of water conditions here.

Colon bacilli, the typhoid organism, was present in the water samples to a degree that a fever plague is sure to sweep the city unless utmost precaution has been taken since pollution first appeared, Diggs says.

Change in condition of the city water came suddenly, the chemist tells. Samples submitted to the state department for the past two years have been found to be in excellent state, from a health standpoint, until examination was made of the last two shipments, Diggs says.

Unhealthy water had not been coming gradually, it fairly sprang into existence, Diggs gives out.

"This makes the situation the more critical," the state chemist says. "There is more danger from a water supply that changes from good to bad than from one which is always bad. The first condition is the more treacherous. It finds people unguarded. They think the warning of bad water is only a scare. They do not take all the precautions that would be followed if the water supply was known to be constantly unhealthy."

"Boil the water," Diggs emphasizes. "There is no danger of disease plague if the water is cooked thoroughly to kill organisms. Other foreign substances, which might be in the fluid, are not injurious to health."

"Boil water used in washing of fruit, potatoes or other vegetables. Boil the water used to cleanse salads. Boil all water which will be taken into the body," Diggs orders.

Visited Pumping Stations.

The state chemist, accompanied by Deputy Sanitary Officer William Brown, visited the three pumping stations, which drive the city water into the mains. Diggs took samples of the water at each of the plants. He carried the samples, sealed in air tight bottles, to Indianapolis when he returned to the state capital at 12 o'clock Friday.

Diggs will ascertain whether all city water is contaminated or only the liquid which comes from the No. 2 station.

Diggs also took samples of river water and a bottle of water from the city reservoir. There is no apparent danger of contamination from the reservoir, Diggs says. There is no chance for the kind of sewage, which would menace health, getting into the big basin unless that sort of refuse is deliberately carted to the top of the concrete container, Diggs says. None of that kind of refuse has been found in the basin.

RUSSIAN BRIDGEHEAD POSITION IS PIERCED

Teutonic Armies Win New Point in Progress Toward Braila.

Berlin, Jan. 5.—The Russian bridgehead position before Braila was pierced yesterday by Teutonic troops, the war office announced.

Four Rumanian towns were captured and 1,400 prisoners were brought in.

ARTILLERY FIRE ACTIVE.

Paris, Jan. 5.—There was active artillery fighting last night on the Verdun front in the vicinity of Douaumont and Vaux, the war office announces. Elsewhere the night passed quietly.

Official reports from the Macedonian front issued here today say that engagements occurred on Wednesday morning among advanced posts in the sector held by the Serbians.

The torpedoing by a submarine of the Greek steamship Siripiros is reported in a Havas dispatch from Corunna, Spain. Twelve men of the crew were saved by the fishing boat San Jose.

A Havas dispatch from El Ferrol, Spain, says the captain and twelve members of the crew of the Siripiros have been landed on the beach at Cobas

MAN'S BODY IS LEFT-HANDED BOTH INSIDE AND OUT, ANATOMISTS FIND

St. Louis, Mo., Jan. 5.—The body of William King, which has been preserved for twenty months is described by anatomists as "left-handed both inside and out," according to a statement made public today at the city hospital. On May 8, 1915, King, who was 35 years old, applied at the hospital for treatment. He said he was a laborer and had lived most of his life in Wisconsin. He was suffering from typhoid fever.

When asked who should be notified in case of his death, King said: "Don't worry about that. Just cut me up and examine my body. There's something wrong with me besides the fever." He died a few days later.

When surgeons made an examination of the body they found one of the most abnormal cases in tu the history of surgery. The heart was on the right side, the liver on the left; the appendix was on the left side and the spleen on the right. The stomach was turned around completely. On the left lung was three lobes, the right lung had but two. The left kidney was larger and lower than the right one.

NO MORE FREE ADVICE OVER THE TELEPHONE

High Cost of Auto Fuel is Occasion for Boost in Doctor's Fees.

New York, Jan. 5.—A new schedule of physicians' fees showing consistent advances was recommended today by the Bronx County Medical society. Hereafter no free medical advice will be given over the telephone. Conversation with a physician over the wire on non-medical topics is permitted, but if the question, for instance, of the baby's latest ailment is injected a bill for $1 will be forthcoming.

If the physician called to attend one member of a family and some one casually inquires about the symptoms of another member an extra charge will be made. Under the new schedule night calls, or emergency calls by day, will be charged for at the rate of $4 each. If the physician is asked to leave the office before his accustomed time the charge will be $3.

Ordinary calls in day visiting hours will be $2 each and visits to the physician's office will cost the patient $1 each. The high price of automobile fuel is given as the main reason for the advance in fees.

CHANCES FOR LIFE ARE NOT THE BEST

Vern Scott, Residing on Nuttman Avenue, Painfully Burned.

With but a fighting chance for life, Vern Scott, a carpenter, residing at 1226 Nuttman avenue, is a patient at the Lutheran hospital suffering from severe burns over his entire body. The burns were suffered Wednesday morning when he poured kerosene on the kitchen stove fire.

According to reports from the hospital, since he has survived the first crisis he has a chance for recovery unless complications develop. Nearly one-third of his body is covered with large blisters and in some places the flesh is literally cooked. Even the soles of his feet were burned.

It appears that Scott after arising wished to start a fire quickly. He poured kerosene on the smouldering fire and the result was that the flames burst out, igniting his clothing. He fought to extinguish the flames himself but was not successful until his wife and neighbors assisted.

ACTOR'S CONDITION SLIGHTLY IMPROVED

Chicago, Ill., Jan. 5.—The condition of E. H. Sothern, the actor who is seriously ill at a local hotel, with stones in the kidney, was slightly improved today, according to attending physicians. While it is believed that an operation may be necessary, local physicians made no decision pending the arrival of Mrs. Sothern (Julia Marlowe) and Dr. Joseph Bissell, the Sothern family physician, who are expected from New York during the day.

Dr. Bissell performed an operation on the actor more than twenty years ago for the same complaint. Mr. Sothern collapsed then during a performance in Washington, which was attended by the late President Grover Cleveland and Mrs. Cleveland.

JUDGE HOLDS COURT ON SPEEDING TRAIN

Attorneys Make Arguments During Jurist's Trip to New York.

San Francisco, Jan. 5.—United States district court, Judge B. F. Bledsoe of the southern district of California, presiding, is in session today on a Southern Pacific train which left here for the east yesterday. No witnesses are to be examined, it was announced, but attorneys will argue before Judge Bledsoe the advisability of certain evidence in the suits by which the government is seeking to cancel patents on California oil lands acquired by the Southern Pacific company.

For the convenience of witnesses for the defense Judge Bledsoe consented to hold court in New York January 19, and also to hear argument en route to that city. This is the second transcontinental trip taken by the court and its attaches in this case. Sessions of the court have been held in San Francisco, Los Angeles, San Diego, Fresno, Cal., Washington, D. C., and in New York for the purpose of hearing evidence in the case.

TYPHOID GERM CAUSES ALARM

(Continued From Page One.)

from a point near the No. 2 pumping station. The river water will be carefully analyzed. It will be found whether the river water holds the same bacterial properties as the liquid taken from the city mains. By that method it can be reasonably ascertained whether the river water is seeping into the No. 2 wells.

Will Return Tuesday.

Diggs will return to Fort Wayne next Tuesday, he says. He will bring apparatus for setting up an analysing laboratory. He may stay in the city a week. He will try to locate the definite point at one of the stations or in the big line where the contamination of the water enters. He will advise a remedy for the situation. If the deep wells themselves are polluted he will order that new wells be drilled or some other source of supply located. If the fault is in the casings the disorder can be removed by installing new suction pipes, Diggs says.

Blames No. 2 Station.

Diggs thinks, from information which he has received, that the fault lies at the No. 2 station, located near the St. Mary's river on Van Buren street.

He hopes the troubles is from defective casings. He has been told that casings in the wells is of mallable iron. That metal rusts rapidly under certain conditions, he says. Since the contamination of the city water comes suddenly he thinks it very likely that the suction pipes have been rotted out and have allowed surface water to enter near the top of the wells.

It is very probable that the river is finding its way into the wells, Diggs says. This belief is strengthened from the fact that river water would be most likely to contain the quantity of colon bacilli found in latest samples of the city water. Bottom of the river is not frozen as is the surface of the ground and would let the water seep into the underground streams, Diggs shows.

Diggs will return to Fort Wayne the first of next week whether he finds the samples taken on Friday to be either good or bad. If the water is now pure he wants to know why it was polluted last week. The state department will demand a remedy for such a condition, he says.

Diggs advises that drinking faucets be kept closed in all schools of the city and that vigilance be kept over business places where city water might be dispensed. It is the only way to safeguard the city health, he says.

Visits Many Cities.

State Chemist Diggs visits many Indiana cities every year in the interest of the state department. He was called to Noblesville last winter when an ice jam knocked off the top of the city wells and allowed the river water to flow directly into the wells. New caps on the wells proved the remedy there.

Diggs has been in the state chemistry department three years. He aids in testing water supply of 2,000 Indiana cities. He graduated from DePauw university five years ago.

Diggs will take water samples from private wells, especially in the west end, next week if the health board advises such action, he says. Health officials expect to ask for such a test.

Water will not be shut off in any part of the city system unless the condition becomes most acute. There will be no cause for bringing about such a discomforting state if citizens will obey the health order of "boil water," it is given out.

No case of typhoid fever has shown up in the city since the state of polluted water was discovered.

CALL LEWIS GIRL SLAYER

(Continued From Page One.)

Mabel Kyle to their home in Germantown last Thursday night, as the man he later took to Miss Colbert's apartment. Philadelphia detectives, who went to Atlantic City last night, say that Lewis' hair matches that found clutched in the dead girl's hand and that Lewis was found to be wearing a woman's undershirt which corresponds exactly to garments worn by Miss Colbert. A blood stained handkerchief was found in his pocketbook. Lewis left no written statement, however, as far as could be learned.

Regard Mystery as Solved.

In view of these developments, the authorities say they feel that the mystery virtually has been solved. At the same time it was declared, several men who were friends of Miss Colbert and were suspected of having knowledge of the crime will be kept under surveillance until there is absolutely no doubt regarding their connection with the case.

In their efforts to solve the mystery the police had questioned many young men prominent in the social and business life of Philadelphia. Several of them admitted that they had known the girl and some said they had been among her admirers. The explanation of all except two or three was satisfactory to the detectives and their names were not made public.

Maintain Lewis' Innocence.

The Misses Kyle, through whom the police learned of Lewis' identity, maintain that he is innocent of the murder and that he committed suicide because he believed his reputation had been ruined. "Mr. Lewis was the victim of a ghastly blunder," said one of the school teachers.

"I still believe he was innocent. I know that he was an honorable man. He read that he had been drawn into the mystery and ended his life because he had lost hope of extricating himself and because he thought his reputation had been ruined. He had telephoned us every day since the murder occurred, but it was not until late yesterday that he showed any signs of being worried about the affair. He called up three times yesterday and at 4 o'clock, the hour of his last call, he seemed excited, but protested his innocence. 'Isn't this horrible,' he said. 'I don't know what to do to stop this notoriety.' He said that he had placed the matter in the hands of a lawyer and that everything would be all right."

His Arrest Was Near.

Less than five hours after this conversation Lewis had shot himself as he was about to be arrested. That he had anticipated arrest and he had made preparations to end his life was indicated by the fact that the 22-caliber rifle that he used for the deed was new. He had pinned a towel over the transom of his bed room door and on the bureau was a box of cartridges and an extra cartridge lay on the window ledge within his reach in the bath room.

Several newspapers containing accounts of the Colbert murder were found in his room. He had little luggage and only about $6 in cash was found in his pockets. According to the owners of the hotel he arrived there at 10 o'clock at night and had appeared rather morose and uncommunicative.

protested so vigorously against any "star chamber proceedings" that Representative Garrett of Tennessee, who had moved that the sessions be made executive, withdrew his motion.

Insists on Complete Story.

Chiperfield insisted that as a witness sworn to tell the truth Wood should give the committee the advantage of all the information in his possession. Wood testified he had been informed that on Wednesday, Dec. 20, which was prior to publication of the note, a confidential telegram had been sent by R. W. McKinnon, of Thompson & McKinnin, brokers, of Chicago, to Ralph H. Hartley, manager of their branch at Oshkosh, Wis., advising him that the president would have a message of importance soon and that he should advise friends and patrons of his office to sell short on stocks. S. B. Friday, of Oshkosh, was named by Wood as his informant.

Lafayette Had a Tip.

Early in the morning of the same day Wood said he was informed Lamson Brothers' branch brokerage office in Lafayette, Ind., also received information from Chicago that the president was about to send a "peace note."

Representative Wood requested that Otto Kahn, of Kuehn, Loeb & Co., of New York, be subpoenaed and interrogated regarding what advance information he had, if any, about the note. "I have information also," Representative Wood told the committee, "that an exchange firm here known as F. A. Connelly & Co., of which a Mr. Bolling, a brother of the president's wife, is a member, engaged in profitable transactions during the recent flurry. Their dealings on the stock exchange were made through Hutton & Co., of New York, reputed to be one of the largest speculative concerns in Wall street."

Much Came From Mr. Curtis.

Asked by Representative Henry for the source of his information Mr. Wood said that most of it came from "Mr. A. Curtis, a broker and stock dealer in Wall street."

"Who gave you the information about Barney Baruch and Mr. Tumulty," Representative Henry asked.

"That came from Curtis."

"Did you see him, and where?"

"No, I never saw him," Wood replied. "It came to be in a letter."

Asked for the letter, the congressman said he did not have it with him, but would get it later.

"Where did you get your information about the Connelly firm and the Mr. Bolling you spoke of?"

A Common Rumor.

"That has been a common rumor prevalent for several days," said Representative Wood. "I heard it from several sources, but don't remember just where."

"You certainly must have received it from some one."

"Yes, but I don't think I can recall just who told me that. I heard it many times. I haven't taken the names of all persons who gave me information."

Here Representative Wood interrupted the questioning to say "I have said and I wish to say again this time, that I have made and am making no charge against any one. I am merely giving you information I have received."

"What public position has Bernard Baruch?" asked Representative Campbell, ranking republican of the committee.

"I understand he is a member of the council of national defense."

Stated in the Letter.

"Do you have memorandum as to the date of the alleged conference between Mr. Baruch and Secretary Tumulty at the Baltimore hotel?" Mr. Campbell asked.

"I don't remember, but it is stated in this letter from Curtis."

"In these conferences between Tumulty and Baruch, what is meant to be implied by the word 'conference,'" asked Representative Garrett, a democratic member of the committee.

"Only that they were seen talking together and registered together," said Mr. Wood.

"Of course you have no information as to what they talked about."

"No I have not."

Referring to the inclusion in his resolution of reference to Thomas W. Lawson's telegram hinting that members of congress sought to dodge an inquiry Representative Garrett asked if Wood had any information in any way indicating that members of the house were involved in the "leak" transactions.

No House Member Involved.

"I have no information whatever involving the name of any member of the house," Wood replied. "I know of no member of the house being mixed up in this stock crash."

Replying to Representative Cantrell, Representative Wood said he had not consulted Secretary Lansing regarding a reportd leak of the president's note either before or after he introduced his resolution. Mr. Wood also said he had other information and had sent a number of letters and telegrams to various persons inquiring about it.

"It is not sufficiently developed to give at this time," he said, "but I may hear from it later. I can give the committee in private what I have heard if it is desired.

Mr. Wood was not pressed further on that point but will be asked concerning it later.

Representative Harrison, of Mississippi, suggested that the witness should give dates of publication of the note and other details. Mr. Wood replied that the crash in the stock market came, or rather culminated on Thursday, Dec. 21 and that the peace message had been released for publication by the Associated Press at 12:05 o'clock that morning for morning papers of that day.

Representative Harrison tried to bring out that in the 48 hours beween the time the peace note was forwarded and published information regarding it could have come back from the foreign powers to some of the embassies here. Mr. Wood said he had heard some intimation to that effect but could not say who told him. He also said he had heard an intimation that the German embassy in this country had gotten back here.

"Don't you think," asked Mr. Harrison, "that the news leaked out from foreign powers and came out in that way?" "I would have to know more about the condition in that respect at the foreign capitals," replied Mr. Wood.

NEVER GOT IT, HE SAYS.

Lafayette Man Denies Having Advance Tip on Peace Note.

Lafayette, Ind., Jan. 5.—James F. Hamell, manager of the Lafayette branch office of Lamson Brothers, Chicago commission house, denied emphatically today that any advance information concerning President Wilson's peace message to Europe had been received at the office here. He said Representative Wood's charge in congress were without foundation. The first he knew of any "leak" in connection with the president's message and the stock market, he said, was when he read about it in the newspapers.

CANNOT REACH BARUCH.

Georgetown, S. C., Jan. 5.—Efforts to reach Bernard Baruch at his hunting lodge, Habicaw Manor, several miles from here, were fruitless today. There is no telephone at the lodge, according to officials of the local telephone company and no way to reach it by telegraph.

PARTIALLY CORRECT.

Oshkosh, Wis., Jan. 5.—Ralph R. Hartley, olcal manager of the office of Thomson & McKinnon, said today that testimony of Representative Wood concerning his firm is correct in some respects and incorrect in others.

"It is true that I received a message," said Mr. Hartley. "However it did not come from Mr. McKinnon nor from any one connected with the firm of Thomson & McKinnon. I received a copy of a general bulletin sent through from New York to the effect that "we would not be surprised to see developments later in the day which may affect this market unfavorably." Upon that suggestion I notified some of our customers, including Mr. Friday, advising them to sell. I do not know anything about it, but suppose he may have notified Mr. Wood."

Mr. Hartley declined to give the name of the author of the telegram.

LEE WATERMAN IS DEAD.

Indiana Newspaper Man Succumbs to Injuries in Auto Mishap.

Indianapolis, Ind., Jan. 5.—Lee Waterman, 62, formerly in the newspaper business in Anderson, Terre Haute and other cities, died early today at a local hospital where he was taken after being struck by an automobile the night of December 26. Mr. Waterman was born in Alexandria, Ind. He at one time was connected with the Anderson Bulletin and was manager of the Terre Haute Star for some time. He also had been connected with papers in Illinois and Iowa. He came to Indianapolis in 1902.

TAKES OVER MAIZE TRADE.

London, Jan. 5.—Announcement was made on the Baltic exchange today that the government had taken complete control of the maize trade, beginning today, on lines similar to its control of wheat.

A piece of steel was embedded in the flesh of R. Forest, while he was at work in the Pennsylvania shops yesterday. He was compelled to quit work and seek the aid of the company's surgeon and will be unable to work for a few days.

INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. SELLERS, Acting Director of the Sunday School Course in the Moody Bible Institute of Chicago.)

(Copyright, 1917, Western Newspaper Union.)

LESSON FOR JANUARY 7

JESUS THE LIGHT AND LIFE OF MEN.

The studies for the first six months of this year are devoted to the gospel of John; the remaining portion of the year to II Kings, Ezra and Nehemiah, being a study with the prophets. One year from now we begin the new "graded uniform lessons" recently adopted by the reorganized International Lesson committee.

John was younger than his brother, James, and lived to be the oldest of the apostles, dying somewhere between A. D. 95 and 98. His name means "Peace," though he is surnamed the "son of thunder" (Mark 3:17). Five of the New Testament books bear his name. He blended the gentleness of a dove with the force and vision of an eagle." The purpose of his gospel is clearly stated (ch. 20:31). Only about 8 per cent of it is found in the other three gospels. Seventy-six times the word "witness" is used. The word "father" occurs 140 times and the name "Jesus" 240 times.

I. **The Word** (vv. 1-5). Words utter thoughts; a word is an expression of an inaudible and invisible thing. As the Word, Christ is Creator (ch. 14:9; 8:19), he is the source of light. "The word is God heard; the life is God felt, and the light is God seen"—Moody. This eternally existing person is called the Word because in him God fully expresses or reveals himself. The Bible is the written word because in it God speaks and reveals himself through this person who is the eternal Word (Heb. 1:3). The first verse brings out the fact that there are at least two persons in the Godhead, the one divine person in company with whom the word was, and the word, himself, was God; that is, was also a divine person. He who by his incarnation became our brother and our savior was first our creator and the creator of all things, and apart from him not anything came into existence. The Word did not become the light of men by his incarnation in Jesus of Nazareth. He was ever the Light of Men. The light that shone in the Old Testament time shone from him. When sin came, night came.

II. **The Witness** (vv. 6-10). John the Baptizer came for a witness. He was not the light. Some might have thought him to be the promised Messiah. This he denied. He was a lamp which held forth light to men concerning the true light "which lighteth every man that cometh into the world." He reflected light (v. 8). John told all that he knew. Testimony will expand as experience enlarges. The spoken word of man must confirm the experience of the word in our lives. John was a wonderful man, a man whom God delighted to honor, but he was a man. Men are not asked to believe blindly, but always upon an abundance of testimony.

III. **The World** (vv. 11-14). This world was created by Jesus, and throughout its existence he has been in the world, though the world knew him not. This living light had been coming into the world, and was not fully come until he was manifest to Israel at the baptismal act of John. In order to be made manifest the "Word was made flesh" in the person of Jesus. The world did not apprehend the light (v. 5) nor did the world which he was in and which was made by him (v. 10). Even his own people, literally his own household servants, i. e. Israel, received him not to themselves, but whoever receives him, even the vilest sinner of earth, and takes him into his heart to be all Jesus desired to be, savior, lord, teacher, friend, that instant he becomes a child of God. We cannot attempt to explain this mystery. The union of spirit and body was in one person, a sample fact; though unexplained, still true. The union of God with a human body, forming one person, Christ Jesus, sometimes spoken of separately, sometimes as a whole, sometimes as divine, sometimes as human. We cannot divide his activities into two sections and say this is divine and this is human; they are inexplicably blended into one. This Christ really dwelt among us. He did not merely appear to some persons, or come in a vision, and yet his abode among us was only temporary, only a few years, and we beheld his glory, the glory of the only begotten Son. The world expected a Messiah and his own creation, his own inheritance received him not, rejected him, opposed him, crucified him, their lord, savior, king and messiah. Those who received him and believed on his name became sons.

To be a child of God we must be born into the nature and character of God, into his spiritual life. We are members of his family.

We are heirs of all things through him, his joy, his love, his character and his blessing and the privileges of working for him and with him. We become heirs by being born of God, not of blood, physical descent nor inheritance, for the best of parents cannot bestow this gift upon their children.

Not by our own efforts or exertions nor the will of the flesh, not by the will of men, through wisdom and man's highest powers of intellect, but of God.

JAPANESE EMIGRANTS FOR SOUTH AMERICA

Twenty Thousand Destined to Go There Within Next Four Years.

Tokio, Dec. 10.—(Correspondence of the Associated Press.)—The Nippon Yusen Kaisha, Japan's largest steamship company, has concluded an agreement with the South American Emigration union for the transportation of 20,000 Japanese emigrants to South America within four years from 1917. The company has also decided to open regular quarterly service between Japan and South America with ships of about 6,000 tons each. They will proceed by way of South Africa, but the homeward bound route has not yet been selected.

Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anaemic-looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists, we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds, and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb the impurities to contaminate the blood while the pores in the thirty feet of bowels do.—Advertisement.

Baron Kondo, president of the company, which has just declared a dividend of 28 per cent., issues a warning that the current shipping boom will be greatly changed after the war, when all the ships now used as military transports return to the carrying trade. In the meantime he declared the great increase in the cost of coal and other necessities would cut heavily into shipping profits.

During the last six months the company, which owns 99 steamers and has ten others under charter, has transported a cargo approximating 2,470,000 tons and more than 137,000 passengers.

Speaking of the American service the president said the shipments from China showed a falling off, but that Japan's export trade with the United States, and the shipments of steel and cotton to far eastern countries, were remarkably large.

Bad Habits.

Those who breakfast at eight o'clock or later, lunch at twelve and have dinner at six are almost certain to be troubled with indigestion. They do not allow time for one meal to digest before taking another. Not less than five hours should elapse between meals. If you are troubled with indigestion correct your habits and take Chamberlain's Tablets, and you may reasonably hope for a quick recovery. These tablets strengthen the stomach and enable it to perform its functions naturally. Obtainable everywhere.—Advertisement.

Mark 10:17-24.

17 And when he was gone forth into the way, there came one running, and kneeled to him, and asked him, Good Master, what shall I do that I may inherit eternal life?

18 And Jesus said unto him, Why callest thou me good? there is none good but one, that is, God.

19 Thou knowest the commandments, Do not commit adultery, Do not kill, Do not steal, Do not bear false witness, Defraud not, Honour thy father and mother.

20 And he answered and said unto him, Master, all these have I observed from my youth.

21 Then Jesus beholding him loved him, and said unto him, One thing thou lackest: go thy way, sell whatsoever thou hast, and give to the poor, and thou shalt have treasure in heaven: and come, take up the cross, and follow me.

22 And he was said at that saying, and went away grieved: for he had great possessions.

23 And Jesus looked round about, and saith unto his disciples, How hardly shall they that have riches enter into the kingdom of God!

24 And the disciples were astonished at his words. But Jesus answereth again, and saith unto them, Children, how hard is it for them that trust in riches to enter into the kingdom of God!

Ralston's Final Message.

Before the joint session of the Indiana assembly on Thursday Governor Samuel M. Ralston, who will in a few days retire by reason of the expiration of his term of office, delivered his final utterance of this character as the chief executive of Indiana. Speaking with the experience of four years in the governor's chair behind him, and with no possible temptation to be actuated, consciously or unconsciously, by temporary expediency, what he had to say should be of especial value to the state at this time. Unfortunately, however, it is human nature to pay rather more heed to the probable course of the incoming official than to the advice of the one who is retiring. There is, we think, danger of appraising too lightly the value of the conclusions and the recommendations of Governor Ralston.

Some items in his message are of especial importance. He declares his belief that the state's affairs are now in condition so that, without militating against the efficiency of any department, there might well be a reduction of three cents on the state tax levy, constituting a saving of $600,000 each year to the taxpayers of Indiana. He advises the divorcing of the state banking department from the state auditor's department and its administration on a non-partisan basis. He would have additional industries provided for the inmates of the state penal farm, a protective reserve deposited with the state by risk companies writing compensation insurance, a more effective law for the impeachment of recreant public officials, a state highway board organized on a non-partisan basis, additional power for the tax board in the enforcement of tax laws, a national guard and state armory erected on the state fair grounds, and, among other things, pleads for constitutional revision to be effected through a constitutional convention, the delegates thereto to be elected when partisan issues are not considered and the convention deliberations to be free from partisan politics.

The message is a dispassionate summing up of the more important reforms which four years in the governor's chair have convinced Mr. Ralston that Indiana needs. It ought to be considered on precisely that basis by the new legislature to which it was addressed.

Safety First; Boil the Water

Temporary contamination of Fort Wayne's water supply by seepage which has in some manner gotten into the mains, probably through defect at or near one of the pumping stations, has been definitely established by chemical analysis of water samples. Whether it shall prove to be as serious as is now feared, or whether it shall happily be a condition which can be quickly remedied, the first duty of every user of city water is clear. BOIL THE WATER THOROUGHLY. That is the urgent admonition of the health authorities, and compliance is declared to be absolutely imperative if disease from this source is to be avoided. Take no chances. You cannot afford to sniff contemptuously and regard the health department's order as either a mere fad or as an unnecessary scare. We think the city authorities realize fully the gravity of the duty confronting them in eliminating contaminating conditions from the city's water supply, and we are confident they will proceed earnestly and with all possible speed. Meantime, do your part in the emergency. Boil every drop of the water used either for drinking or for domestic purposes.

With final recapitulations now being made, it is certain that Fort Wayne has risen handsomely to the occasion once more in the purchase of the Red Cross seals for the war on tuberculosis. The 400,000 mark has been considerably passed, over-taxing the registering capacity of the big thermometer erected at the court house to record the progress of the humanitarian campaign. What we need is a bigger thermometer next season.

And somehow or other Allen county aspirants are not figuring very strongly among the probabilities for likely legislative jobs at Indianapolis. On second thought, Allen so seldom lines up in the republican column that she may have been entirely forgotten until everything worth while had been passed out to the patriots from other counties.

Under the new police system adopted in dealing with reports of auto and other accidents, each party to the mishap is required to make a written report fixing the blame for the occurence. Thus far there has been a striking unanimity of opinion in the conclusions reached by the participants in placing responsibility. Without exception it belongs to the other fellow.

Doubtless the watchman will be able to explain how the rather uninviting remains of dead animals and lifeless birds can float long undiscovered on the surface of the reservoir despite the inspections he is supposed to make, and he ought to try it, but he's going to have a tough job doing it in anything like satisfactory fashion.

Under instructions given to the Delaware county grand jury, Muncie is going to be forced to close her saloons on Sunday and otherwise demean herself in circumspect fashion. And doubtless Muncie herself is willing to admit that it's about time.

Newly Purchased Clothing at Less Than "Sale" Prices

No need to buy Men's clothing at "reduced prices" that has been lying in stock of most stores since last FALL—"Sales" usually are for the purpose of cleaning up "odds and ends," "slow sellers," "broken assortments" and "undesirable garments"—And the man who buys EARLY PAYS TO PNOTCH PRICES in order that the merchant may AVERAGE UP WHEN HE RUNS "SALES" IN JANUARY—But I have ONE PRICE TO ALL—the EARLY and the LATE BUYER—the ALL THE YEAR ROUND BUYER—I mark my garments at the LOWEST POSSIBLE PRICES and thus keep my stocks moving all the time—never any accumulations—so I am always in the market buying NEW GOODS and taking advantage of market conditions to SAVE MONEY FOR YOU as well as for MYSELF—That's why you can come here TOMORROW and choose from MANUFACTURERS' LATEST WINTER PRODUCTIONS of BRAND NEW.

Price isn't the only thing considered here. Value and service are just as essential.

What is Work—or What Should It Be?

A New York minister wrote to Thomas A. Edison, among other prominent men, asking him what are the greatest safeguards against temptation. Edison replied:

"If I were to hazard a guess as to what young people should do to avoid temptation, it would be to get a job and work at it so hard that temptation would not exist for them."

From which answer wise editors have since been printing learned editorials on the beauties of work.

Did it ever occur to you, though, that Edison's work has been congenial; that it has been the kind of work that Edison wanted to do?

Did it ever occur to you that a man who must spend his day repeating certain motions with machine-like precision may not be so much impressed with the beauties of work as another man who is doing a different kind of work—a kind out of which he can extract pleasure?

The truth is that there are two kinds of work—one kind scarce and desirable, and another kind plentiful and not so desirable. There is a kind of work that produces pleasure to the worker as well as to the man who consumes the produce of that worker; and there is another kind of work that produces something far from pleasure in the worker, although it may still be worth while, since it produces pleasure for others.

The truth is that work is not a desirable end in itself. The truth is that 999 men out of 1,000 would much rather consume a dollar's worth of commodities than produce them. This is proved by the fact that men, whenever they can, escape from uninteresting toil and choose not to work at all, or only to work at things which they enjoy doing.

The truth is that play and not work is the real end to be sought. Joy, happiness, pleasure are worth while things, and work is, or rather it ought to be, merely a means to that end.

When the world understands that work ought to be merely the preliminary to play—that the real end which man seeks is welfare and not work—then it may begin to organize the world's activities so that everybody shall have his share of playtime and that the amount of worktime shall be cut down to that barely necessary to produce the good things required for consumption.

ODD, ISN'T IT?

TERRE HAUTE—Court Bailiff Ed Miller was unable to find a woman named Bell Flats, because that was a place instead of a person.

Can the Churches Stop the Big War?

William Jennings Bryan believes the churches in this country should help get together the warring nations in Europe. The fact is some American churches are still torn apart because of the civil war.

Baptists, Methodists and Presbyterians—among the leading denominations in this country, have northern and southern branches, because of that war, which, in most particulars, are as far apart as though they were separate denominations.

They do not disagree on matters of doctrine or government—they just can't get together—that's all.

The great mass of people in the north and south welded their interests a long time ago because of economic, commercial, or political necessity. Thus far the churches have had no similar compelling power to consolidate them. They apparently had no sufficiently common social cause which made it imperative for them to work together.

They have been occupied largely in purely philosophical discussions and evangelistic programs which dealt almost entirely with individuals and scarcely at all with the great social obligations of society.

The reason the churches of Europe seem to have failed in this great crisis is because they had for generations been preaching an INDIVIDUALISTIC gospel—not a great SOCIAL gospel which resulted in a clear conception of the place of the church in the social and ethical affairs of the state—leaving out of consideration altogether purely political matters.

Fortunately, all this is rapidly changing. And the war will undoubtedly help the churches realize their duty and opportunity in this respect.

If the churches are to help stop the war they will be compelled to stand squarely for the social teachings of the gospel—the fundamental principles of which are found in the teaching of Jesus, that it is just as important for men to love their neighbors as it is for them to love their God. Indeed, He taught that no man can actually love God UNLESS HE LOVES HIS NEIGHBOR.

TWENTY-FIVE YEARS AGO

What the Sentinel Had to Say About Persons and Events Twenty-Five Years Ago.

Charles MacDougal is at New York city.

A telephone has been placed in the office of the Fort Wayne Lumber company.

Canton, No. 17, I. O. O. F., moved from its rooms in the old postoffice building to Harmony lodge block.

C. J. Ulmer has returned from Rockport, Ohio, where he had accompanied the remains of the late Philip Urban.

James A. Armstrong, the wholesale milliner, accompanied by his wife and his hat buyer, C. T. Pidgeon, left on No. 8 last night for New York city to purchase stock.

Numerous friends of James M. Griffith, the young contractor, invaded is attractive home in Park Place last evening to help him celebrate his twenty-fourth birthday.

Engineer Samuel Kelker, who sustained severe injuries in a fall from the Crestline coal docks a month ago, is slowly recovering, but will be unable to resume his run for two or three weeks.

The Fort Wayne Curling club played its first game of the season yesterday on the lake at Brookside. James Gillie and D. M. McKay were skips. After two and a half hours of excellent playing the game stood as follows: Gillie, 14; McKay, 17.

Messrs. Charles E. Read, William Geake and James Henry have returned from Denver, where they went about ten days ago for the purpose of securing quarters for the Fort Wayne commandery, Knights Templar, at Denver next August on the occasion of the conclave.

'Squire English met with quite an accident at Hoagland yesterday. He had assisted a lady on a railroad train and before he could get off again the train started. In stepping from the platform he fell and rolled down the embankment, receiving a number of bruises about the body.

About 11 o'clock last night a burglary was attempted in the house at No. 429 East Washington street, where several families live, among them Mr. and Mrs. J. W. Pratt and Mr. Tilbury and family. An attempt also was made to enter the home of John Krock, the contractor, at 416 East Wayne street. Mr. Krock shot at the fleeing burglar and judging from the trail of blood the bullet is believed to have taken effect.

UNSOLVED MYSTERIES.

What do the head hunters of Africa do with 'em after they get 'em—make noodle soup of 'em?

HEADACHE FROM A COLD? LISTEN!

"Pape's Cold Compound" ends severe colds or grippe in few hours.

Your cold will break and all grippe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.—Advertisement.

The inclemency of the weather deterred but a very few people invited to a tea given by Mrs. Jules Simon this afternoon from attending it and the pretty rooms were filled with prettily gowned women. Mrs. Simon received with her honor guest, Mr. Simon's sister, Mrs. George Noll, of Toronto, Can., and a former Fort Wayne resident. Little Helen Weir, a cousin to the hostess, met the callers at the door. Many beautiful roses decorated the rooms, yellow being the color note in the diningroom, pink in the livingroom, and many sweetpeas mingled their fragrance with the roses and contributed their loveliness to the scene. Mrs. Frank L. Taft, Mrs. S. B. Bechtel, Mrs. Harry Bowser, Mrs. Leland Johnson and Mrs. L. L. Walker assisted during the hours of the tea, which were from 3 to 6 o'clock.

* * *

Mrs. Thomas P. Ewing, of West Wayne street, entertained about twenty young women this afternoon at an informal bridge party in honor of her sister, Mrs. W. H. Kelly, of Cleveland, and Mrs. Bartlett Shryock, of this city, for whom the honor was a postnuptial one. The holiday decorations had not been removed from Mrs. Ewing's home so the rooms were gay in red and green colors and the informality of the affair and the congeniality of old friends were as lovely for Mrs. Kelly and Mrs. Shryock as they were for the other guests.

* * *

Mrs. George W. Beers and her daughter, Mrs. W. T. McKay, entertained a few ladies at a thimble party this afternoon at the home of Mrs. Beers. Tempting refreshments were served the guests after their visiting over their sewing.

The Friday Bridge club held a regular meeting this afternoon with Mrs. E. H. Olds.

The Fort Wayne Sewing league will meet on Monday afternoon in Saengerbund hall at 2 o'clock.

Miss Florence Greensfelder has returned to Logansport after a visit with her aunt, Miss Mollie Greensfelder, at the Anthony hotel.

Miss Marian Puckett returned to her studies at Virginia college, Roanoke, Va., after visiting her parents, Mr. and Mrs. E. W. Puckett.

There will be a social meeting of the Alpha Omega club on Saturday afternoon with Miss Margaret Byroade, of West Berry street.

Mr. and Mrs. Francis B. Sale and infant child arrived on Friday from their home in Mobile, Ala., to visit Mr. Sale's brother and his wife, Mr. and Mrs. H. Brook Sale, west of the city. Francis Sale has accepted a position here with the F. S. Bowser company and with his family will soon be at home in an apartment at 918 West Berry street.

Martin Pohlmeyer has gone back to Pittsburg to resume his studies at Carnegie institute, after a holiday visit with his mother, Mrs. Fred Pohlmeyer, of Fulton street.

Mrs. Noah Zehr, of South Broadway, gave a small dinner party on Thursday evening in honor of Miss Virginia Philley Withey, of Los Angeles, who is visiting her parents here for several weeks.

Mrs. Walter Bauer, of New York city, who is visiting her parents, Mr. and Mrs. Ernest Cook, was the honor guest at a bridge club meeting on Thursday, for which Miss Mamie Jacobs was the hostess.

Miss Dorothy Wilding, who came home from the School of Gymnastics, at New Haven, Conn., to spend the holidays with her mother, Mrs. Ella Wilding and other relatives, has returned to her studies.

A number of students who have returned within a day or two to Michigan university after a holiday visit here at their respective homes, are Willard Shambaugh, Leslie Popp, Davis Diffenderfer, Werner Duemling, George Riker, Artemus Pickard, Arthur Stevens, Phil Warriner and Misses Edith and Jennie Duemling, Elsie and Louella Paul, Mildred and Lois Winch and Gertrude Beierlein.

Members of the Fort Wayne Florist club enjoyed a banquet on Thursday evening at the English tea room, at which covers were laid for seventeen. Miss Rhoda Doswell, president of the club, presided as toastmaster, and responses were made by several of the members. Will J. Vesey read the constitution of the club. A committee of arrangements was composed of Miss Doswell, Mrs. Blossom and Miss Margurite Flick. The menu was a delicious one and the club enjoyed a delightful time.

The Woman's Club league is planning a series of bridge parties instead of its annual ball this season and has engaged the Anthony hotel for the dates of January 19 and 26 and February 2. Mrs. Walter Shepard is chairman of the finance committee and her assistants are Mrs. F. E. Urbahns, Mrs. B. H. Hudson, Mrs. Austin Stults, Mrs. F. H. McCulloch. Prizes will be given for winners of each one of the series and also for the winners of the tournament. The league will present a fine program tomorrow afternoon at a meeting to be held in the same hotel. This meeting is open to the public.

An unusual entertainment and one of much charm was the reading to a piano musical accompaniment, of the play "Madame Butterfly," by Miss Gertrude Jeanette Polk, of Valparaiso, before the society of the Temple Sisterhood of Achduth Veshalom temple and many other ladies of the city, at the Anthony hotel ballroom, on Thursday afternoon. The entertainment was for the purpose of raising funds towards the furnishings of the new temple the congregation is erecting at the corner of Wayne and Fairfield avenue and many tickets were sold. As an entertainment the result was altogether charming for Miss Polk has many qualifications for her work of which an innate sympathy and understanding of the story and an attractive presence and pleasing voice are the most striking. Mr. Harry Thornburgh Polk gave his sister a beautiful accompaniment of the Puccini musical score at the piano and the second act was especially well given, the "One Fine Day" and the second scene of the act being especially dramatic. Between the two acts Miss Muriel Larimore gave a short but very lovely dancing number and was followed by six of her pupils, the Watson twins, Ogeretta and Marguerite, who danced together, and four other young girls who appeared in a group dance. The dancing made a delightful diversion. After the program the guests were served a two course luncheon on small tables set on the mezzanine floor. While there was no formality about the affair, a committee of ladies who had arrangements in charge, looked after the pleasure of the company generally. Mrs. A. L. Weinstein, wife of the rabbi of the congregation of the Temple introduced Miss Polk and Mrs. Nate Rothschild, Mrs. Sam Kraus and Mrs. G. E. Meyer, the committee on arrangements, asked Mrs. Weinstein and Mrs. Joseph Freiburger to receive them, which they did.

BREAKING INTO THE MOVIES—BY BEVERLY BAYNE.

Beverly Bayne.

My experience in breaking into motion pictures was a commonplace sort of happening. There really isn't much for me to write about it. I had no heart-breaking interviews with managers nor long waits for something to turn up.

I attended the Hyde Park high school in Chicago, not a great distance from the Essanay studio. It was as familiar to me as the corner drug store or the butcher shop.

One day I went with a party of friends to visit the Essanay plant and right then my opportunity came. One of the directors asked me if I would take part in a short scene. He said he thought I possessed a "camera face."

"If you register well," he said, "I may be able to use you in this picture I am filming."

A "camera face" is one that photographs well from all angles. It is hard to find. Camera men and directors are forever on the alert for such a face. It seemed that I unconsciously possessed such an indispensable asset.

More as a lark than anything else, I submitted to the tryout and the next day learned the test was satisfactory. I was given a small part and continued with the Essanay. The work fascinated me from the start.

One day Francis X. Bushman, who had been watching my endeavor, asked that I be assigned to his company to alternate with Miss Ruth Stonehouse in playing leads. Thus, with little effort and no struggle, I became a leading lady, all because I had a "camera face."

I continued to play leads with Mr. Bushman until he went to the Metro company. In a short time an offer came to me from Metro, due to the fact that the public had learned to like our work on the screen and demanded more of it. I accepted and have played in support of Mr. Bushman ever since.

MORNING MUSICAL RECITAL.

Miss Jamieson, Pianist, Engaged for January 24, in Moose Hall.

Miss Margaret Jamieson, a young pianist who comes with many very complimentary notices, is to give a recital under the auspices of the Morning Musical society in Moose hall, on January 24, at 8:15 o'clock. Miss Jamieson comes from Grand Rapids, Mich., which is her native city, and she has played with the New York Symphony orchestra and has had other important engagements in eastern cities as well as having acquired fame in her own state. Miss Jamieson was graduated from the Oberlin conservatory in 1912 and after that studied a year with the famous teacher and pianist, Joseffy. While in Fort Wayne Miss Jamieson will be the guest of Mr. and Mrs. Henry Beadell, of West Woodland avenue, as Mr. Beasell and Miss Jamieson's father were at one time associated in business together and were partners in a firm that founded the Boston store here and in other cities. Miss Jamieson is said to be exceptionally talented, therefore the Morning Musical society takes pleasure in presenting her. The concert will be open to the public at the usual price of tickets the society sells for musical entertainments of this kind.

"LOST BIRD" GOING BACK WITH BIG FORTUNE LEFT BY INDIAN FIGHTER.

At right, "Lost Bird," and Pearl Cammack, befriended by her.

San Francisco, Cal., Jan. 5.—"Lost Bird" is going back to Dakota and the Sioux Indians. And she is going with gold to help them.

And the legacy comes in the nick of time to raise from destitution to affluence a young vaudeville girl. Miss Pearl Cammack, whom the young Indian woman, despite her own poverty, had befriended.

The Indian girl's name is Zintkella Andni, which signifies "Lost Bird." She is a full-blooded Sioux of the Sitting Bull band. Her parents were killed and she herself nearly died when General Leonard Colby put down the uprising on the Wounded Knee reservation.

Three weeks ago all bade fair to end in tragedy. Today everything is bright. And as soon as the formalities are gone through with the Sioux heiress and her young girl friend are to journey to South Dakota, where "Lost Bird" will make a permanent home for Pearl Cammack, who nearly became a "lost bird" herself.

Pearl Cammack's parents died recently somewhere in the middle west and left her destitute. The girl tried an engagement with a road show and met with most unfortunate circumstances. Left without any money, she told her story to an actress living in the same hotel.

This girl told Zintkella Anuni and the Indian girl's heart was moved. She insisted that the lonely lass live with her and her husband. Zintkella's husband does a lariat-throwing specialty in the show business. She herself was the only Indian woman to be a delegate to the national woman suffrage convention here during the exposition.

"I am glad of the money, of course," she said. "But what I thought of first was the chance to do so much for my people I want to help.

"Just as a start, I am going to give poor Pearl a home with me. She shall come back to Dakota. She is young, bright and sensitive, and ought to have an education instead of facing the hardship of the vaudeville life.

"Then I hope to do something permanent on a large scale for the Sioux people. They are in need of help. I have visited the reservation several times and have seen my relatives. I have a twin sister who was found, like myself, strapped to the back of our dead mother."

AT THE PALACE.

A MERRY MUSICAL HIT.

The Elopers is Featuring Snappy Bill at New Palace.

The lively little musical comedy miniature, The Elopers, with Jessie Maker and Teddy and Nellie McNamara in the principal roles, breezes to an easy first place in the New Palace's week-end scamper for popularity with six entrants. This condensed lyrical force crowds comedy, catchy music, pretty girls and exquisite costumes enough for a two hour show into a scant half hour. There isn't any time for encores. It is the prettiest, snappiest little offering of its kind that vaudeville affords and is presented with a sumptuous investiture of scenery and costumes.

Hope Vernon, the songstress, with the violin, possesses a remarkable voice and uses it in a novelty act supreme.

Her "violin playing" is an exquisite trick and her closing song about the violin her granddad made, last night stopped the show. She's a beautiful girl with a smart stage presence.

George Cooper and Chris Smith's black face comedy act is something. As the bell boy and the porter in the Hotel Gossip this pair spring some excrutiatingly funny comedy and Cooper's singing of the son, "Never Let the Same Bee Sting You Twice," is a riot. Charles A. Mason and company would make a cigar store Indian laugh in their sketch, "Who's Who?" a farce pure and simple built for laughs only. The absurd comedy hinges on the resemblance of two married men for one another, causing their wives to confuse them. Lew and Mollie Hunting's singing and dancing comedy stuff is classy, while Scamp and Scamp, the European comedians, open the bill with a lively bit of laugh stuff.

FEDERAL PLACE FOR WOMAN.

Mrs. Axtell Is Tendered Compensation Board Job.

Tacoma, Wash., Jan. 5.—Mrs. Francis Axtell, of Bellingham, former member of the Washington legislature and unsuccessful democratic candidate for congress from the Second Washington district, announced today she had received from Secretary of Labor Wilson a telegraphic offer of appointment as one of the three members of the federal compensation board which is to administer government compensation of workers injured while engaged in interstate commerce.

The position carries a salary of $4,000 a year. Mrs. Axtell today said she had not decided whether to accept the offer.

KNICKERS FOR THE BOUDOIR.

Here is the latest in boudoir costumes—knickerbockers! Ann Murdock, McClure movie star, is shown wearing them.

The knickers are purple satin over a lingerie slip. The robe the actress wears over her shoulders is of printed silk in futurist colors.

The knickers may not be confined only to the boudoir, but can make a comfortable costume for housework, for they do not hamper the housewife, as skirts do.

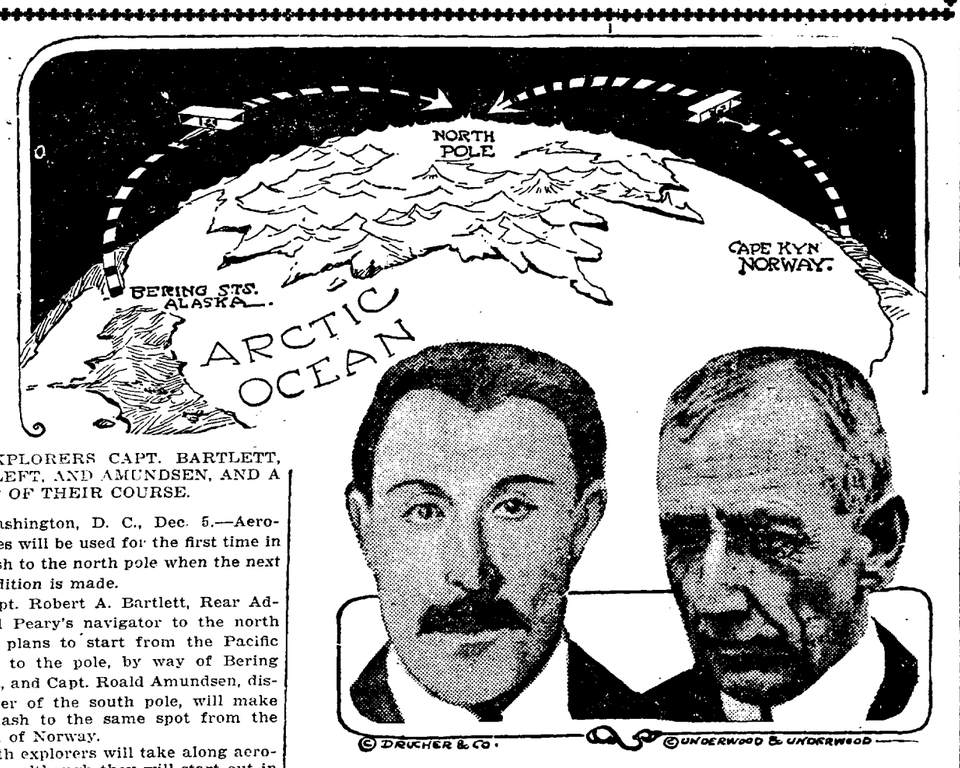
AEROPLANES TO BE USED IN POLE DASH FOR THE FIRST TIME IN HISTORY.



EXPLORERS CAPT. BARTLETT, AT LEFT, AND AMUNDSEN, AND A MAP OF THEIR COURSE.

Washington, D. C., Dec. 5.—Aeroplanes will be used for the first time in a dash to the north pole when the next expedition is made.

Capt. Robert A. Bartlett, Rear Admiral Peary's navigator to the north pole, plans to start from the Pacific coast to the pole, by way of Bering strait, and Capt. Roald Amundsen, discoverer of the south pole, will make his dash to the same spot from the north of Norway.

Both explorers will take along aeroplanes, although they will start out in ships. They are to leave at about the same time.

Although thousands of miles apart, the men are planning to make it a united expedition, which may cost them about $200,000.

The aeroplanes will help the explorers co-ordinate their observations and discoveries. Each party, in this way, will be ready to help the other in case of danger.

If one party is icebound, the aeroplane from the other group will be ready to rescue the men. The machines also will enable the two parties to make a complete exploration of the whole north polar region.

Both expeditions are endorsed by the National Geographic society. They expect to stay in the arctic zone from three to five years.

WOMEN CHAMPIONS OF HINDU CAUSE INTERNED

British Deny Liberty Without Trial, Says Hindu Editor.

BY RAM CHANDRA,
Editor of The Hindustan Gadar.

San Francisco, Cal., Jan. 5.—Women interested in the cause of Hindu revolutionists are being arrested and interned by British authorities.

The news that various prominent feminine workers have been interned has caused a great sensation in the educated and wealthy quarters of Calcutta and Bombay. Recent arrests of women are the first since the present revolutionary activities in India began.

Madame B. Cama, lower, and Mrs. Mehtab Kaur, two women who have been interned for activities in behalf of Hindu revolutionists.

Madame B. Cama, editor of the "Bandematram," a Hindu paper published in Paris, is one of the important women who have been denied their liberty. She was interned in Paris at the special request of the British government.

Madame Cama was first publishing her paper in London, but anticipating trouble with the authorities she fled to France, where she continued the publication of her paper for six years prior to the outbreak of the war.

It was she who designed a flag for free Hindustan, bearing Sanskrit words which mean: "I will die for my country." Her watchword is: "Resistance to tyranny is obedience to God."

Mrs. Mehtab Kaur endured imprisonment in South Africa for agitation against the exclusion of Hindus from that country. Later on her return to India she was interned without trial at Bombay.

Another educated woman, Mrs. Lila Mozambar, was interned without judicial procedure at Calcutta on her return from Japan.

J. G. Baral, who fell and sprained his wrist about ten days ago, is able to attend to his business. Mr. Baral suffered intensely with his wrist, but was very thankful that no bones were broken.

SUGGESTS THAT U. S. LAY DOWN PEACE TERMS

British Parliament Member in America Puts Forth the Idea.

BY GILSON GARDNER.

Washington, Jan. 5.—A member of the British parliament who has an excellent standing at home has been in Washington quietly sounding our public men on the proposition that the United States lay down terms of peace to the warring nations. It is suggested that these proposed terms be backed with an offer by this country to join an international, or at least an Anglo-American alliance for the future preservation of the world's peace. This member tells me that such proposals would be more welcome in England than most Americans suppose.

* * *

Little things like world wars play havoc with diplomatic conventionalities. There was a time when a foreign ambassador was a hard person to see and when seen he never permitted himself to be interviewed. The most see-able men today in Washington is the German ambassador, von Bernstorff. He is under orders from his home office to get publicity for Germany's peace proposals, and "copy" on this subject comes as easily as the press agent's dope about a movie actress.

On June 30 last, the supervising architect's office reported that it then had 269 public buildings still to build out of money already appropriated. To do this work would take, said the report, until late in 1919. The buildings to be authorized, therefore, in the current and pending "pork-barrel" (public buildings) bill will not be started until about 1920. Hence the insistence in appropriating $35,000,000 at a time when the secretary of the treasury reports a probable deficit of $185,000,000.

Official returns show that California gave the single tax amendment 260,332 yeas and 576,533 noes. The affirmative vote is 31 per cent of the total.

The researches of Professor Mead, of the University of California, show that 310 men own 4,000,000 acres of the best land on the continent and that one railroad owns 5,000,000 acres. The report of the secretary of agriculture shows that less than half of the arable land in the United States is under cultivation. Here is a suggestion for those seeking the cause of the high cost of living.

* * *

All records have been broken this year by the output of American mines. The Geological Survey becomes almost monotonous in telling of the increase in the quantity of copper, iron, zinc, lead and mercury taken from the earth. All were approximately a third greater, and sold at a third advance in price. Yes, it was due to the war.

If all the Christmas parcels going by mail had been evenly distributed there would have been two one-pound packages for every man, woman and child in the United States. The parcel post machinery carried 125,000,000 packages, averaging two pounds a piece, during the two weeks before Christmas.

The government's bureau of education finds that there are 23,500,000 persons attending school of some kind in the United States. At least they are enrolled. Actual attendance records show a much smaller figure. In some states the children are worked in mills for fear they will get into jail or go to school. This reduces the attendance.

Eight per cent of the cost of coal, wood, ice, milk and department store merchandise is added by the cost of delivery. An investigation in Washington showed that it cost $500,000 to deliver $6,000,000 worth of these goods. The New York department stores devote 4 per cent of their gross receipts to advertising in the daily newspapers. This accounts for 12 per cent of the high cost of living.

High Cost of Print Paper Too Much for Newspaper at Hope.

Columbus, Ind., Jan. 5.—H. S. Dixon, editor and proprietor of the Evening Star-Journal published at Hope, Ind., has announced that as soon as a continued story now being published in the paper is completed the daily publication will cease, probably some time this week. High cost of print paper is given as the reason. The weekly edition of the paper will be published as usual.

SPECIAL FUNERAL CAR.

Arrives on Traction at 11 O'Clock Friday Morning.

A special funeral car arrived at the traction terminal station here Friday morning at 11 o'clock from Marion. POULTRY SHOW OPENS ON 17TH OF JANUARY

Entries for Big Event Will Close Saturday Night of This Week.

Poultry breeders who have not yet made formal application to place their birds on exhibition at the big Triangle Poultry show—January 17 to 21—will have to "get a move on" if they want to be sure of representation in the biggest and best show yet planned by the association. The entries will close at 10 o'clock Saturday night of this week.

Entries have been pouring in at a great rate this week, and every indication points to a record-breaking show this month.

Secretary J. C. Howenstein, of the poultry association, states that Fort Wayne is gaining a wide reputation as a poultry center.

"Entries are pouring in from many parts of Indiana, Illinois, Michigan and Kentucky," said Mr. Howenstein, "and the display is going to be something well worth the attention of every citizen of Fort Wayne and the surrounding country. We will not receive entries at my office after 10 o'clock Saturday night, but every mail application that bears Saturday's postmark, will be accepted. As soon as the entries close, we will make the final arrangements for caring for the big exhibit."

The poultry men have secured for this year's show, the big brick building at the northeast corner of Calhoun and Superior streets—two squares north of the transfer corner—formerly occupied by the Boss Manufacturing company. The announcement of the dates of the show—January 17 to 21—has caused widespread interest among breeders and others interested in perfection in Poultry.

WOULD PENSION LEPER.

Watson's Bill Asks $100 Per Month for Indiana Victim.

Washington, Jan. 5.—Senator Watson introduced a bill to pay to David Byers, of Fort Branch, Ind., a pension of $100 a month. Byers is a leper. A surgeon sent recently by the United States public health service diagnosed his aliment as genuine leprosy. The community where he is quarantined is distressed over the prospect of having to care for him and Senator Watson introduced the bill for a pension as a means of solving the financial problem involved. Byers at one time served in the navy and the pension is asked on account of that service.

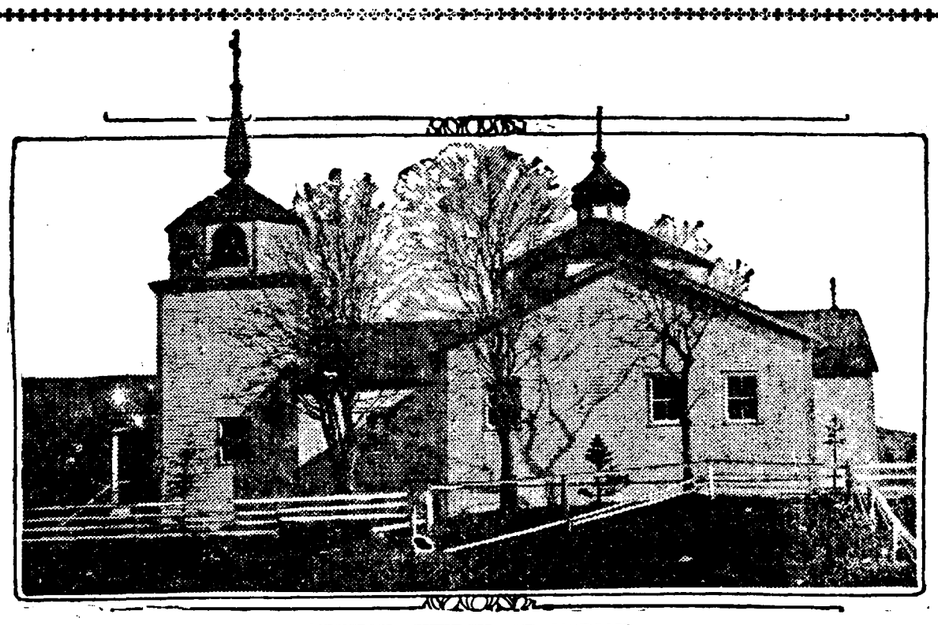
CZAR MAKING SUBJECTS OF AMERICANS.



RUSSIAN CHURCH AT KODIAK.

Kodiak, Alaska, Jan. 5.—For fifty years the czar has been complacently making Russian subjects of nominally American citizens on Alaskan soil right under the stars and tripes.

The Aleutian islands, together with Kodiak and Sitka, comprise our Alsace-Lorraine—a land under our flag but with loyalty elsewhere.

For years the federal and territorial schools have been trying to overcome this opposition and to turn the youngsters toward Americanism. But even today the native children speak English on the school grounds only when policed at their play by the teachers.

The moral influence of most Russian churches in this region has been negligible. Drunkenness, from which springs most of the woes of the Aleuts, has not been frowned upon.

Practically every white man in the islands agrees that the green turrets of the Russian church in western Alaska have been the symbol of the oppression, ignorance and misery that has made these people the most abject on this continent.

In many cases unprincipled churchmen have proven ready tools for the white men who have exploited and robbed the helpless native to a horrible degree.

There are, of course, some exceptions. But at best the Russian church in Alaska has been satisfied with a mere devotional teaching and made no effort to lift the Aleuts from that miserable estate in which the early Muscovite trappers and adventurers left them.

Slavic blood courses in most of these people.

Every home of hutch has its portrait of the czar—the "Little Father." Russian flags are treasured and displayed.

And if you ask them to what country they belong, of what nation Alaska is a part, nine out of ten will answer, "Russia."

She left the city before the holidays and spent Christmas with relatives in Rock Island, Ill.

SEEK LAW TO INCLUDE POLICE AND FIREMEN

Effort to Make Them Beneficiaries Under Compensation Law.

Indianapolis, Ind., Jan. 5.—Provision for a legal means for including police and firemen as beneficiaries under the Indiana workmen's compensation law seems probable from the support being given the movement having its origin in Richmond. The slaying of two patrolmen by a drunkard they were trying to arrest, followed by a decision of the state industrial board that their widows were not eligible to compensation under the law which excludes servants of the state has resulted in a state-wide effort to alter this situation. The city clerk of Richmond has enlisted the support of officials of cities included in the municipal league of Indiana, and there will be pressure brought to bear upon legislators from such communities to amend the compensation law or supplement it so as to protect the dependents of police and firemen who die in the discharge of their duties.

TURN TO "SINKERS" NOW.

Eggs Go to Ten Cents Each in Indianapolis Restaurants.

Indianapolis, Ind., Jan. 5.—Eggs are ten cents straight in Indianapolis today. No, that isn't the retail price, except where you may want "two on toast." Heretofore the dairy lunch houses, where thousands of the city's population take breakfast, were worrying along trying to make eggs profitable at two for fifteen cents. The advance was announced this morning and "sinkers" became a popular substitute.

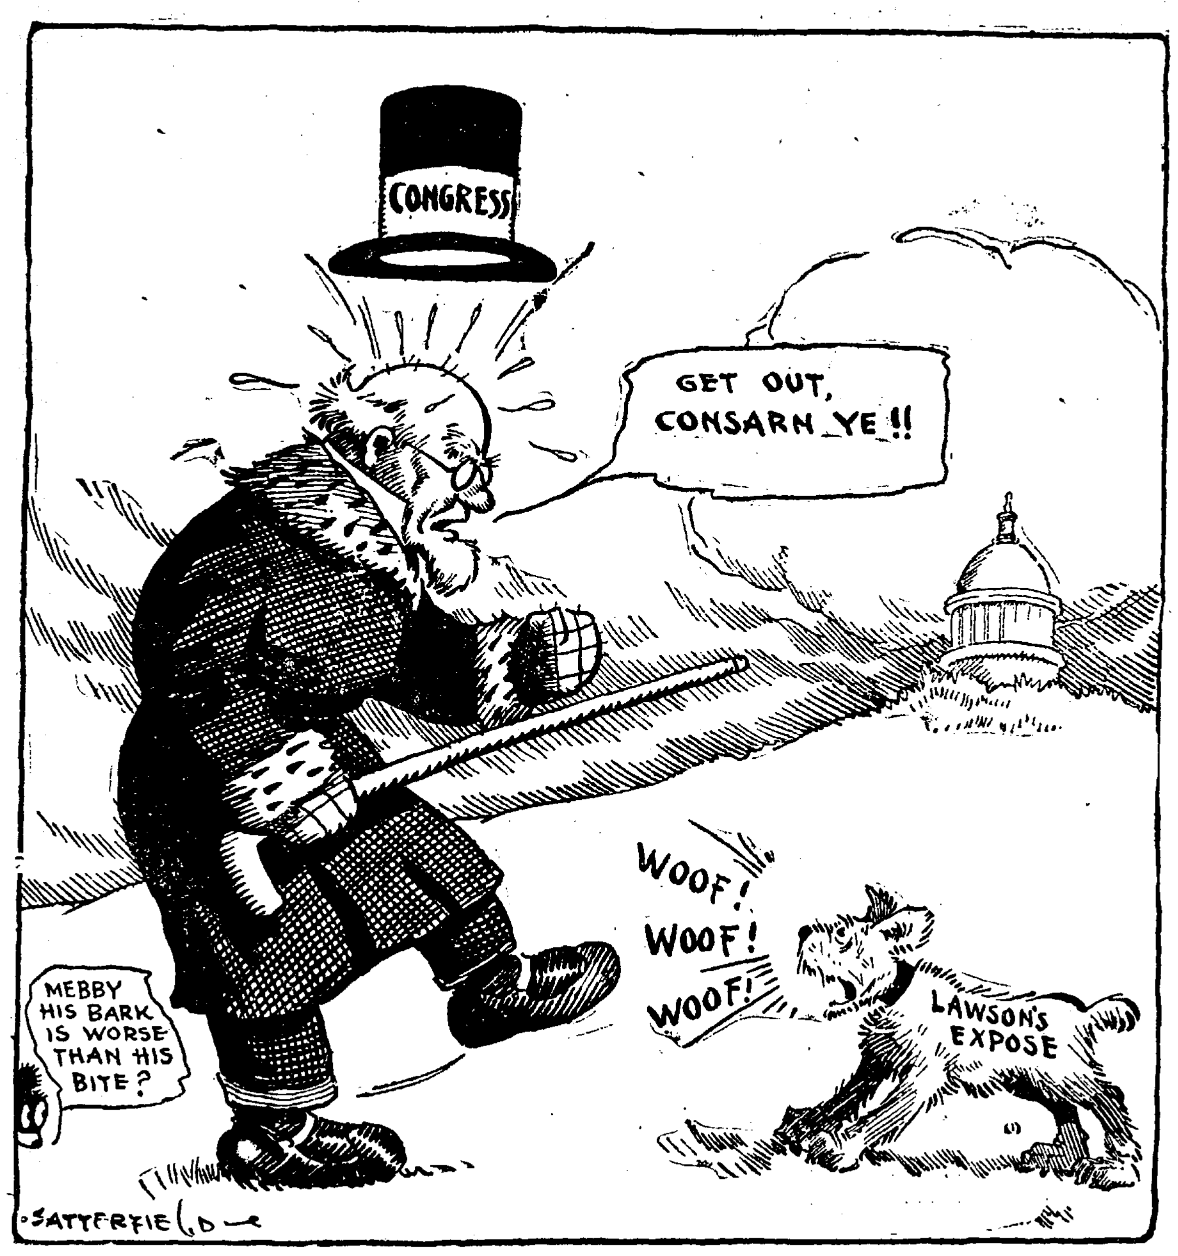
THE PERSISTENT PURP!



SAYS GOD ANSWERED PRAYER WITH MIRACLE

Now Happy Woman Asked Heavenly Aid After Years of Suffering.

eSattle, Wash., Jan. 5.—Does God answer prayer?

"Yes," devoutly testifies Mrs. Anne E. Norton, of Seattle, with a body suddenly and "miraculously" freed of horrid disease and long drug slavery!

Here's is one of the most remarkable cases of bodily restoration ever

Mrs. Anne E. Norton as she is today after her "miraculous" cure by prayer.

science all over the United States. recorded, say those who substantiate the story.

Mrs. Norton's strange malady baffled prominent men of medicine and Seven hundred physicians within the past four years had pronounced her incurable.

Twelve times she was on the operating table. Three times she was pronounced dead. One arm was amputated. Her body was covered with hideous eruptions. Morphine, the knife and ceaseless pain had distorted the body almost beyond human semblance.

"And then," said Mrs. Norton, detailing her "miraculous" experience today, "half an hour's prayer accomplished what 700 physicians said was impossible. It is a clear case of Divine intercession!"

White-haired rrom her agonies, though but 43, Mrs. Norton lives with her husband and invalid son in humble lodgings here.

"I believe," she said, "I am the happiest woman alive today.

"My afflictions began four years ago in Spokane, when I accidentally cut my hand with a knife. Partial paralysis, blood poisoning and mortification of the flesh succeeded one another rapidly and soon my whole body was affected.

"Amputation of my hand and arm brought no relief. I was like Job of old, and there seemed no deliverance. In this awful condition I was prevailed upon to use morphine and soon was its abject victim, using toward the last as much as five and six half-grain tablets every hour.

"The four years of this living death I spent mostly in the hospitals of Seattle, Spokane and Portland. For more than three months at a time I could not walk, and for months I was totally blind.

"That was my condition when I went to Olympia to die. Living in a shack near the Puget street Mission Assembly, the good Pentecostal people found me and offered prayer in my behalf.

"In a moment all pain was gone. I rose from my bed. A wonderful healing influence surged through my body, so that I shouted with relief and happiness. And from that hour on I have had no further desire for morphine, nor have I touched a grain since.

"I was to have had my other arm amputated next day. The doctor had given me but thirty-six hours to live unless that were done. When he came next morning he was amazed to find my transformation.

"I know the wonderful power of prayer!" concluded Mrs. Norton, who spends most of her time now caring for the sick and afflicted to whom she carries her message of prayer's efficacy.

CALLS PUBLICATION OF PEACE TERMS USELESS

Cites Attitude of British and French Press as Showing Fact.

London, Jan. 5.—Publication of German peace conditions would be useless in view of the attitude of the British and French press, according to the Berlin Lokal Anzeiger, as quoted in an Amsterdam dispatch to Reuter's. The Lokay Anzeiger bases its opinion on the resolution in the French senate that France could make no peace with an enemy who occupied French territory.

"Publication of our conditions," says this paper, "would now be undignified, and moreover would not be the least use. The evacuation of French territory is made a preliminary condition for peace negotiations. Though this condition is not contained in the entente note it still exists, and therefore it is the French senate and the French government who render impossible the publication of our peace conditions.

"We must show to the door any neutral who should dare to demand from us that we should regard as an invitation the words of the reply 'as a suggestion without conditions for opening negotiations is no peace offer.' We must refer such a neutral to the resolution of the French senate."

ST. PAUL FIVE PLAYS THE BLUFFTON OUTFIT

The St. Paul team is another basket acging aggregation of this city which will try to prove its superiority over Everett Scott's Bluffton Maroons this evening. However, the Lutherans have a hunch that they will be able to turn the trick this evening and there is no use triyng to discourage them when they have a hunch. This bunch has shown up as one of the city's leading fives this year and brilliant things are expected from them before the close of the season.

Germ Murder Case Now Dropped After Seven Long Years

DR. AND MRS. HYDE.

Kansas City, Mo., Jan. 5.—Seven years of nerve-racking patience, during which suspicion for the murder of Col. Thomas H. Swope, millionaire and philanthropist, greyed his hair and wrinkled his features, have at last ended in vindication of Dr. B. Clark Hyde, and he and his wife, who refused money offers to leave him, are again happy.

Dr. Hyde was Swope's son-in-law and family physician. When the millionaire was found dead the physician was found guilty. Charges were that Dr. Hyde infected the drinking water of the Swope house with germs so he and his wife would inherit the $10,000,000 Swope estate.

Dr. Hyde was tried three times. The third trial has just ended with prosecution ordered dropped.

RECORDER ENTERTAINS SENTINEL EMPLOYES

E. H. Bookwalter Gives Sort of Farewell in Form of a Dinner.

As sort of a farewell upon his leaving the employ of The Sentinel to assume the duties of county recorder, to which office he was elected last November, Elias H. Bookwalter delightfully entertained The Sentinel employes Thursday evening from 5 to 7 o'clock at the Bookwalter tea room on East Wayne street.

Some days ago each employe of The Sentinel from garret to basement received an invitation sent out by Mrs. Stella A. Bookwalter and it goes without saying that the event was looked forward to by each man and woman on The Sentinel pay roll with great expectancy. Mr. Bookwalter had as his guests more than fifty, a few of whom were on The Sentinel staff way back there when Mr. Bookwalter first accepted employment with this paper. He came from the old Gazette, where he had been employed for years, about the time or soon after the Gazette and Journal were consolidated. And he has been connected with this paper since up to the very day he entered the recorder's office. He felt that he wanted to do something for the boys and the girls with whom he had so long been associated and a sumptuous dinner, enjoyed to the uttermost by all whose privilege it was to participate in it, was the result.

The serving began promptly at 5 o'clock and was kept up continuously until the last person had been served. The Sentinel's staff appreciate beyond words Mr. Bookwalter's hospitality and extend to him every good wish.

GIVES GUARANTEES TO THOSE UNDER ARREST

Queretaro, Jan. 5.—The constitutional assembly has adopted an article providing guarantees for persons arrested on criminal charges. The article abolishes the practice of holding prisoners incommunicado, permits the release on bail of prisoners accused of offenses punishable by less than five years' imprisonment and makes a preliminary hearing on all charges imperative within forty-eight hours after arrest.

A section of the article as reported by the committee in charge which provided for jury trial for offenses against the public peace or security of the nation committed through the press was rejected after a heated debate. As drawn the section would have affected foreign correspondents.

GETS PAROLE AFTER TWENTY-SEVEN YEARS

Allen County Man, Given Life Sentence for Murder, is Free.

Thomas Davidson, principal in one of the most stirring murder cases in the history of Allen county, was paroled from the state penitentiary by the state pardoning board Thursday. He has been in the big prison, where he was sent under life sentence, for twenty-seven years.

Davidson was charged with the killing of his uncle. It was alleged that he entered the little store, which his uncle kept at Arcola, and murdered the man in order to obtain money from the cash drawer. Change of venue was taken from Allen county courts after the preliminary hearing. Last stages of the stubborn legal fight were carried out at Columbia City, from which place Davidson was sentenced.

Judge Samuel M. Hench defended Davidson. The defendant refused to take the stand in his own behalf. He was sentenced on circumstantial evidence. For the past ten years his friends have tried to secure a pardon for him.

CAPTAINS CHAT TOO MUCH VIA WIRELESS

Gossiping Americans Incur Wrath of Australian Government.

Washington, Jan. 5.—Garrulous American sea captains, talking with each other by wireless, have brought down on their heads the wrath of Australian officials, it was learned today. Complaint has reached Washington that American ships, 2,000 miles apart in the south seas, discuss trivial subjects when the Australian wireless is trying to get into the air important messages. The American captains declare that antiquated wireless equipment in use in Australia is to blame for the situation. They deny that trivial messages have been exchanged.

The Australian charges are being investigated by American government officials and a curb will be put on the practice if it is found that the wireless is being used for a too free exchange of unimportant messages.

CRAVE RETURN TO FIELDS OF BATTLE

Real Homesickness for Trench Hits Invalid Soldiers.

Seattle, Wash., Jan. 5.—Homesickness for war's horrid realm!

It's a new disease affecting thousands of invalided European soldiers, craving return to the thrills of the battle line, says Lieut. Laurence Ward, British officer and "tank" charge hero.

Lieut. Laurence Ward.

Lieut. Ward is himself one of these strangely afflicted men.

"I'm positively eager to get back to the excitements of the war," he said during a visit to relatives here while recovering from certain wounds. Today he's hastening to his command again.

Ward's greatest adventure, for which he won the plaudits of friends and foe alike, was his experience as pilot of a British motor corps "tank" at the battle of Thiepval.

His great armored fort was overturned while crossing a German trench and was fought over for hours by opposing bombing parties and machine gun squads before the crew was rescued.

"It was a wonderful day," he said, "when 'His Majesty's Land Navy' went into action. I was in the fourth tank out, and as we scuttled into No Man's Land I'm not ashamed to say we prayed like good fellows!

"I'll never forget the long roar of our men as we passed out toward the Bosches' trenches—a shrill call to hunt the German rabbits out of their holes!

"Our tank reached the maze of barbed wire entanglements and we began bucking into them, backing when the engines stopped and ramming again until we were through.

"The patter of machine gun bullets on the tank armor was deafening. I noted Gunner Mitchell, Shropshire regiment machine gun sharpshooter. He was peppering away through out of the vents, almost suffocated with gases, but wearing the most contented expression.

"Time and again we changed our course to hunt the Germans out of their holes. I saw through a red haze in the gas-filled tank. Once we got entangled and hung over a shell crater at a precarious angle. We were all dizzy from smoke and pandemonium. And then disaster befell.

"A trench side caved under the tank weight and we tumbled over on our side. The Germans approached us from both sides, throwing bombs. Machine gun bullets drummed on the armored bottom of the tank. For more than an hour we lay there, returning their fire as best we could, believing the end near.

"Finally the German fire slackened and we knew that our men had come up to the rescue. At dusk our troops dug a trench about us and we crawled out.

"It was fated to be my last drive. During the night my legs went cold and became useless. The doctors discovered that I had injured my spine when the tank toppled over, and partial paralysis had set in. I was then given an indefinite furlough.

"I have been in inferno and out again, but I am anxious to return.

"Yes, I am homesick for that border of No Man's Land!"

"INSURING FUTURE OF BUSINESS" IS TOPIC

H. Brooke Sale Addresses Members of Quest Club Friday Noon.

A successful business should have those basic qualities which, as they are used, automatically insure the future of a business, H. Brooke Sale, vice president of Hoffman Brothers company, told members of the Quest club Friday noon at a meeting of the Commercial club. His subject was: "Insuring the Future of a Business." J. B. Franke led in the discussion of the paper.

Mr. Sale's Paper.

Mr. Sale spoke in part as follows:

"I don't know that I can begin this paper better than to refer to the old receipt for rabbit pie.

"First Catch Your Rabbit."

"Unless the business is one of real true merit (that is, the rabbit is young and fat,) it is not worth insuring. But granted that the business has the necessary qualifications worthy of being insured, then the greatest problems facing it are to establish such basic policies that it will automatically insure its futurity.

"To outline the different department policies under the following subdivisions, seems to be my task: Organization, finance, selling, advertising, buying and manufacturing.

"There will, no doubt, be exception taken to the order in which I have named these. My reasons for naming them in the order given are as follows:

"If an organization is not first accomplished, there is little on which the various elements of successful business can be hung.

Must Be Properly Financed.

"If not properly financed, the organization will not have the confidence of its individuals, nor be able to command the respect of its customers or those from whom it purchases its raw material. These two I consider the basic foundation of a business. Brains (organization) and money (finance.) The rest of the classifications I have given are primarily sub-divisions of organization.

"I have named selling first—for the reason that, in these days of competition, if the best brains and energies of an organization are not directed to selling, then the product (unless it be one of a highly specialized article,) must drop down to a purely competitive basis, which means primarily—buying the raw material at the lowest possible cost and manufacturing by the most modern and approved methods."

"In advertising we find the partner of the salesman.

"Buying being the next most necessary adjunct of the manufacturing, I consider next in order, for, unless the raw material is properly bought—by which I mean with intelligence—then, no matter how much energy is exerted, the handicap of poor buying cannot be overcome by the manufacturing department.

"No doubt many of you have taken exception to placing manufacturing last, but isn't it, after all, just the plain problem of using the power in the very best way to accomplish the work and isn't this a tangible problem of which the many elements to be accomplished are before its head and can be readily changed when the method employed has been (or can be) superseded by a simpler and cheaper method which is developed by experience and more modern improvements of machinery?

"In considering this subject I have tried to look upon it as one who is about to embark in a new business, and not as applying primarily to my own business.

"Organization! This is the keystone to all successful business, and, when properly organized, is not the future of the business insured?

What Organization Means.

"By organization I mean such executives selected as will, in co-operation, formulate policies that are of such a character that a business must earn money. By this is implied that the head of the business has the knowledge of human nature and of those with whom he surrounds himself, that the work of the different departments will function much as the organs of the human body perform their various duties and produce what we are pleased to call 'man.' This executive can do, and must do, what no human anatomy has done; namely, establish a line of promotion and introduce—when such line of promotion is not flexible enough to accomplish—new blood into the business, so that old organs—or, to make our simile more apt—departments are completely renewed and thus capitalize energy and ambition. This line of promotion must be so definitely established that even the head of the organization must select his successor.

"I was much interested in an article I recently read in which the head of an organization capitalized hero-worship and flung aside his own modesty, making an able second self of his worshipper and, this, without detriment to his second self.

"Will there be any difficulty in financing a business when the organization has character, brains and personality? I say no.

Character Comes First.

"Ask the head of any financial organization today what they will loan on, with the least anxiety, and you will invariably find character, for character means integrity and integrity means pay when it agrees to.

"Capital today, as ever, is seeking investment in companies that are poorly organized and, therefore, making money.

"I do not propose to dwell upon selling, advertising, buying and manufacturing as I have in the foregoing, as, we have had, in the past year especially, so many good papers on each subdivided under the different phases. In the last number of 'Printers' Ink' I was especially taken with an article on advertising which referred to the use of superlatives and, which invariably lead a business into trouble.

"The advice given was that, in the long run, honest, modest statements of the truth preserve the dignity and integrity of a business and, isn't that, after all, insuring the future?"

TWO NEGROES BOUND OVER TO GRAND JURY

Charged With an Attack on Fourteen-Year-Old Girl.

Two negroes, charged with assault on a 14-year-old girl, were bound over to circuit court by Police Judge Kerr Friday morning.

Stewart Harrison, 40, one of the negroes, is father off the girl, who told police about the attack made upon her. Bishop Hughes, 28, who roomed in the Harrison home, 1704 Hoagland avenue, is the other man accused of the crime.

Harrison was in court on Tuesday morning when he was convicted of operating a disorderly house and was fined $15. He has never been married to the colored woman who is mother of four children, including the girl who made the assault charge against her father.

Preliminary hearing of the case was held in the little rear room to the north of the police court room. The two defendants did not testify. Judge Kerr bound the men to the higher court on testimony of the little girl.

Other Police Court Cases.

Police found Oscar Murphy and Ester Weaverly occupying the same room when the officers entered a rooming house on South Calhoun street Thursday night. The pair are charged with fornication. Their cases were continued until January 12. The woman wept bitterly after the court session. She told of having a sick mother in a town near Fort Wayne. She fears the shock, upon hearing of the escapade, will kill her mother, she says.

George Morris, who tried to enter a house on Taylor street while intoxicated, Thursday evening, was fined $5 and costs.

WORKS RAPS WILSON IN SENATE SWAN SONG

Retiring California Senator Turns Verbal Fire on President.

Washington, D. C., Jan. 5.—With an arraignment of President Wilson's administration and of what he called decadence in American society and government, Senator Works of California, who retires March 4, began a valedictory speech yesterday in the senate. He deplored a "tendency toward centralized, unchecked and unlimited" power on the part of President Wilson, denounced profligacy of wealth, recommended that the idle rich be compelled by law to work and urged formation of a new progressive political party, known as the "Liberty party."

Recess for the night interrupted the speech after two hours and the senator will conclude today.

Wilson Practical Dictator.

Senator Works declared usurpation of power by the president had amounted "practically to a dictatorship." Referring to executive pressure on legislation he said:

"If this kind of executive coercion is persisted in and submitted to by Congress, then our government is no longer a government of the people. It is not a democracy. It is not a republic. It is a despotism worse than any known monarchy."

He reviewed the Wilson administration in great detail. In urging repeal of the Panama free tolls clause, he said, the president had "descended to the level of a common lobbyist," and the submission of congress, he described as a "humiliating spectacle." Efforts to force the shipping bill, he said, were "shameful," adding that the reserve act was passed by "presidential dictation and caucus rule," and the child labor bill by "humiliating lobbying for political reasons, the president being a political candidate."

Calls Action Arrogant.

The president's insistence on passage of the Adamson act, Senator Works declared, was "deplorable," while the recent confirmation of a supreme court justice furnished a "shocking example of unwarranted influence."

"The course of the president in Mexico," he continued, "has been one of arrogant and arbitrary, if not unlawful, exercise of power. Twice has the president appointed commissioners, without lawful authority to negotiate with commissioners appointed by Carranza to settle our relations with Mexico."

The senator also denounced the President's appointment of personal representatives in Mexico, and said that the United States had twice gone to war with Mexico without the sanction of congress.

CASE OF TYPHOID FEVER.

Mrs. C. A. Roy, of 1221 Lillie street, was taken to the Lutheran hospital, Friday morning. She is suffering from an attack of typhoid fever. Dr. Morgan advised her removal to the hospital.

We'll Be in It if War Continues, Says Lewis

Washington, Jan. 5.—Speaking in the senate today in support of the Hitchcock resolution to endorse President Wilson's peace note, Senator Lewis, democrat, declared the European war could not continue without the United States becoming involved in it.

Senator Lewis declared that the temper of the American people would brook no apology or excuse for further destruction of American life but "would resent and punish to the full extent of America's power."

By a strict party vote, 41 to 27, the senate today agreed to the motion of Senator Hitchcock to proceed with formal consideration of his resolution, endorsing President Wilson's peace note. The vote makes the resolution the regular business of the senate.

Senator Gallinger, minority leader, after conference with republican senators, submitted a substitute to say: "That the senate of the United States in the interest of humanity and civilization expresses the sincere hope that just and permanent peace between the warring nations of Europe may be consummated at an early date and approves all proper efforts to secure that end."

Senator Lewis, apparently referring to the submarine situation, declared: "Do you feel that the people of this nation are in such temper that they can ever again allow any commander of ships, any captains of army, any officer of diplomacy, to visit upon this country an injury to a citizen or property and escape on an excuse of misconception of orders or zeal of an officer?

"If these conditions again be repeated," he continued, "America will not again accept that form of apology and will resent and punish to the full extent of her power. No amount of logic of pacification would prevail.

"I say, continuance of war means war with the United States and in this I have never a doubt of the comprehension of the United States and faith in the sagacious foresight of the officials of the administration, in the effort looking to bring about peace with Europe that we might maintain peace in America."

KEEGAN GETS PLACE ON NEW COMMISSION

Washington, Jan. 5.—President Wilson today nominated the following members of the workmen's compensation commission to administer the federal employes' liability law

Dr. Riley McMillan Little, of Swarthmore, Pa., republican, for a term of six years.

Mrs. Frances C. Axtell, of Bellingham, Wash., a progressive, for a term of four years.

John J. Keegan, of Indianapolis, a democrat, for a term of two years.

THE DEATHS.

KRECKMAN.

Mrs. Bertha Kreckman, aged 35 years, wife of Otto Kreckman, 1131 Washington boulevard west, died at the home of her mother, Mrs. Lizzie Schumacher at Defiance, Ohio. She had been visiting there for the past two months. Death was due to acute dropsy and came suddenly. Mrs. Kreckman was a member of the Maccabees and besides the husband is survived by a son, Clifford. Funeral services Friday afternoon at 2 o'clock at Defiance.

EBY.

Mrs. Elizabeth Eby, wife of Rufus Eby, of 41 Carson avenue, died at the family home Thursday evening at 10:35 o'clock, following an illness of seven years. During these years she had been bedfast the greater part of the time. She was 78 years of age. Besides the husband she is survived by three sons—Mark, Robert and Edward, all of Fort Wayne.

WILL DECIDE CASE OF CIGAR SALESMAN

Special Judge Attorney Meyers called police court at 3 o'clock Friday afternoon to finish the hard-fought case of Leslie Nash, cigar salesman, charged with embezzlement. Four attorneys besides Deputy Prosecutor Hoffman, are engaged in the trial which Nash is charged with appropriating $200 of money belonging to the Arnold Cigar company.

Final arguments will be heard Friday afternoon and Meyers will pass judgment. Nash claims he is not guilty of irregularities, but that he used the money to gain business for the firm, while acting as their salesman.

OFFICERS INSTALLED.

By the Ladies Woodmen Circle No. 40, Wednesday Evening.

A record breaking meeting of the Ladies Woodmen circle, No. 40, marked the installation of officers in Vordermark hall, Wednesday evening. The officers installed were as follows: Post guardian, Della Dotson; guardian, Catherine Weikert; attendant, Minnie Beuker; assistant attendant, Ella Wolfe; chaplain, Elizabeth Spanley; inner sentinel, Catherine Bixler; outer sentinel, Emma Beard; third manager, Bell Faudree; physician, Dr. Dauer. After the meeting a social session was enjoyed.

HOPE TO BUILD ROOF ON BASIN FOR $20,000

Works Board May Alter Plan to Obtain Lower Figure.

Slight change may be made in plan for the reservoir roof, in an effort to bring cost of building the steel structure to $20,000. By using oil filler for the wood coating instead of paint, in the first treatment, and installing a different form of durable roofing material the price can be brought down at least $2,000, it is thought. Body of the cornical steel covering will remain the same and will insure many years of service for the protector.

Contract for the roof will be let on Saturday morning. The Fort Wayne Engineering company submitted the lowest of the four bids considered by the board of works on Thursday afternoon. The bids for the covering were as follows: Engineering company, $22,251.25; Midland Engineering company, $25,686.62; John Hageman, $24,350, and Max Irmscher, $25,311.

LET CONTRACTS.

Anton Reig was granted contract to build six of the seven new sewers, ordered by the board of works, Thursday night. Moellering Construction company will lay the other sewer, which will complete the adding of another mile to the city sewer system.

Petition for consideration of cement sidewalks on the east side of Harrison street, from Darrow avenue to Rudisill boulevard, was placed on file. Plat for a new extension of the Driving park addition and Rousseau Truck Farm addition, were approved by the board.

The board of works confirmed assessment rolls for the construction of sewers in the alley between Piqua avenue and Barr street, from main sewer No. 37 to Wiebke street, and in the alley between John and Gay streets, from the alley north of Rudisill avenue to Oxford street.

A petition for permission to construct a sidetrack connecting with the Wabash railroad across McDonald street, signed by Charles Boerger, manufacturer of cement blocks, was favorably acted upon and referred to the city council for final approval.

Birth Record.

Born, to Mr. and Mrs. Clinton Schultz, 404 Elizabeth street—a girl.

To Mr. and Mrs. Frank Ross, 523 East Washington street—a boy.

To Mr. and Mrs. William Norton, 1126 Glasgow avenue—a girl.

To Mr. and Mrs. Albert Wanganian, 1433 Grant avenue—a boy.

To Mr. and Mrs. John C. Adair, 341 Melita street—a girl.

To Mr. and Mrs. Francis Miller, 2332 Lillie street—a girl.

To Mr. and Mrs. Orville DeLong, 1113 East Lewis street—a boy.

Go to Indianapolis.

Colonel D. N. Foster and Charles J. Steiss will go to Indianapolis on Saturday to confer with the legislative committee of the state park association on the subject of the new park law proposed for cities of Indiana. The law provides that the entire city be made a park district and that all taxpayers be assessed for park improvements with the bonding period extending over thirty years. Under this law the Fort Wayne board expects to buy eight tracks of land in and near Fort Wayne for future park use.

Building Permit.

Building permit was granted William Wiegman to build a new store front at 111 West Wayne street at a cost of $1,200.

TWO BROTHERS GONE; POLICE ARE BAFFLED

Disappearance of Candy Merchants is Puzzling Evansville.

Evansville, Ind., Jan. 5.—A mystery which so far has baffled the police in their efforts to solve the disappearance of George and Nicholas Christian, brothers, well known candy manufacturers and confectioners, here since Sunday, is no nearer solution.

The brothers, who started in business here ten years ago, have never closed their store for a day since its opening until last Sunday night, when they placed a notice on the front door announcing the store "closed on account of New Year's." The theory has been advanced that the brothers got into an argument which resulted in the death of one and the disappearance of the other because of reports on the night of the disappearance that shots were fired near their establishment, but this is denied by friends.

An employe of the store was given $55 on Sunday night and told to stay at home as the store would be closed. He claims the brothers owe him $300.

BULLETIN.

Washington, Jan. 5.—When Secretary Tumulty learned today that Representative Wood, of Indiana, had mentioned his name in the "leak" inquiry, he issued a formal statement demanding a public apology and denying flatly that he ever knew of the president's peace note before it was made public.

BULLETIN.

Washington, Jan. 5.—The state department late today authorized the statement that President Wilson was not contemplating sending another peace note.

Fred Cassell, sentenced April 22, 1909, from Marion county for murder, sentence commuted to two to twenty-one years.

Gotherd Brown, sentenced from Adams county, October 21, 1907, for burglary to ten to twenty years, was granted a commutation to two to fourteen years.

John W. White, sentenced from Madison county, September 26, 1914, to ten to twenty years' imprisonment for burglary, was granted a commutation to two to fourteen years.

William Taylor, sentenced from Floyd county, November 12, 1909, to ten to twenty years for burglary, got a commutation to two to fourteen years.

Fred Kinney, sentenced from Tippecanoe county, January 12, 1909, to ten to twenty years' imprisonment, was granted a commutation to two to fourteen years.

G. B. Thompson, sentenced from Madison county, April 26, 1909, to ten to twenty years for burglary, was granted a commutation to two to fourteen years.

Dan McKellar, sentenced from Lake county, December 15, 1910, for burglary, was granted a commutation to two to fourteen years.

"HAPPY JACK" IS IN THE CITY; WEIGHS 739

J. C. Eckert, known the country over as "Happy Jack," and familiarly known to Fort Wayne people as "Pud," is in the city visiting friends and relatives. He stated Friday afternoon to an interviewer that he only weighed 739 pounds.

It is needless to dwell on his size, but he states that regardless of belief of many people, he is very healthy and has not been sick a day since he left Fort Wayne the last time. This is his first visit here in some years. He resides in Mericus, Georgia.

He intends to remain in Fort Wayne another week, when he will leave for a trip through the east, stopping in Pennsylvania, where he will visit friends. March 1 he will begin his season. He has been playing in vaudeville during the past year.

Happy Jack is staying at the Baltes hotel while in the city.

TOTAL CONTINUES TO SWELL AND IS 404,398

Total sales of Red Cross Christmas seals continue to swell each day and with the receipts of Thursday afternoon and Friday morning they have reached a total of 404,398. A representative of the Anti-Tuberculosis league is still engaged in collecting the funds from the drug stores. When all these funds have been turned in it is probable that the number of seals sold will be near 425,000.

At the present time the seal sale per capita is 5.3. Last year with a sale of 4.6 seals per capita Fort Wayne was able to capture second place in the United States. Nothing has been heard about the standing of other contestants for first place.

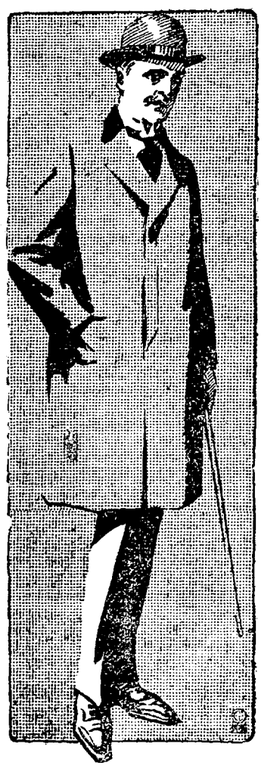
SOCIETY

Miss Caroline Weller, who had been spending the holidays here with relatives, has returned to National Kindergarten college, Chicago, to resume her studies.

The K. K. K.'s were entertained at the home of Mrs. G. G. Lortz of 2116 South Webster street, Wednesday afternoon. The afternoon was spent in playing games and electing officers for the ensuing year. At five o'clock a delicious luncheon was served by the hostess. Officers elected were: President, Mrs. C. R. Zeddis; secretary and treasurer, Mrs. F. P. Koester. Members present were Mrs. P. Porter, Mrs. C. F. Schwartz, Mrs. H. Ulch, Mrs. O. Alringer, Mrs. E. O. Hollenbacher, Mrs. E. J. Smith, Mrs. P. Staley and Miss Mae Becker.

If You See It in Our Windows, You'll Find It in Our Store!

Why A Latker Suit ? Or Overcoat ? Just This, Men!



LATKER CLOTHES are an achievement. They are the result of a well defined policy to give you more—yea, MOST for your money and sell a GOOD suit of clothes at a price any man can afford.

You fellows who are in the race to set a pace know that business is swift these days—and you're in competition—man to man—with fellows of your own kind—who consider "dress" as a matter of importance. YOU can't afford to credit them a single point in the matter of appearance.

Latker Suits and Overcoats at

$10 $15 $20

Are made to satisfy the "up-and-doing" class of men—those lively fellows full of red-blood with "pep" in every step. Latker Clothes have a fit and a finish that secures a man's confidence in his appearance and himself.

You can't find any better at either of the three prices on which we specialize. We can't!

At this season of the year when sales are heralded from every quarter, Latker's clothes values stand head and shoulders above them all, for our standardized values at $10, $15 and $20 are the same the year round. We do not mark a Suit or Overcoat $20 and reduce it to $12 or $15 at the season's end. Our regular every-day prices are 9 times less—much less than you are asked to pay in sale periods. Don't let any one "pull the wool over your eyes"—Buy by Comparison We do!

Come in and see what a good store this is to start the New Year with.

Noted Progressive, Graft Prosecutor and One of the Framers of Anti-Alien Legislation in California.
(Copyright, 1916, Newspaper Enterprise Association.)

Los Angeles, Cal., Jan. 5.—Permitting any case to come to trial in our courts which may tend to nullify the present effectiveness of the California alien land law is, it seems to me, a grievous mistake on the part of California officials.

The people of the Pacific coast, of California in particular, are naturally opposed to wholesale Japanese immigration. If the natives of Japan, the

working class especially, were permitted to emigrate to any particular section of the United States unrestricted, and if they were allowed to possess land on exactly the same terms as do the citizens of this country it would be a matter of grave concern to the entire nation.

I am not opposed to Japanese immigration in California through any fear that these people will not become good citizens, i. e., law abiding and industrious citizens. My objection rests on a conviction that the yellow races of the Orient can never be assimilated by the Caucasian race.

Should we permit these nationalities to come into our country unrestricted, giving them the privilege of purchasing land on the same basis as native Americans now hold it, we would only be loading ourselves down with the responsibility of another race problem, similar to the one we are confronting in the south today.

It was to avoid the possibility of any such contingency that the alien land law of 1913 was passed by the California legislature. This measure provides that no alien not eligible to citizenship has the right to own land in California.

The stability of our democracy rests on the elimination of class, cohesion of races, and a united purpose regarding ideals. If a race totally different from our own is allowed to gain a footing in this country, to own our land on equal terms, and is yet unable to meet us on equal terms socially and economically surely we are victimizing ourselves and fostering a condition in which lurks the direst peril to our nation as an institution. Such a condition would strike at the very foundation of the republic.

The gentlemen's agreement, by which it is understood that Japan will not give passports to its coolie or laboring class, has the effect of protecting us from an influx of cheap laborers and undesirable yellow men. And the California alien land law gives to Japanese already in this country exactly the same privileges which are extended to Americans in the empire of Japan. Americans are not permitted to own agricultural land in Japan, therefore why should the Japanese be given the right to possess farms here?

The American-born children of subjects of the Mikado in the United States, however, are entitled to land on exactly the same terms as are the children of American citizens. And no law can be drafted which will prohibit such American-born Japanese or other races from holding land just as other American citizens do. Such a measure would be unconstitutional. This matter is specifically covered by the fourteenth and fifteenth amendments to the constitution of the United States.

This would preclude the possibility of any other statute being enacted to take the place of the present alien land law. As the law now stands, it is not possible for foreign-born Japanese to own agricultural property in the state of California.

LIFE VERY CHEAP IN BRITISH INDIA

Over 28,000 Killed During Past Year by Snakes and Wild Animals.

Simla, India, Dec. 1.—(Correspondence of The Associated Press.)—More than 28,000 people were killed by snakes and wild animals in British India last year. The government reports show that 1,923 persons were slain by tigers and other beasts, and 26,385 perished through being bitten by reptiles, an increase over the previous year of 3,700 deaths met in this manner. No figures are available for the native states with their population of some 90,000,000.

During the past five years elephants, tigers and other animals have killed 9,192 people in British India, and, of these, tigers have claimed a toll of 3,682. In the same period 116,828 persons have died as the result of snake bites.

Last year the highest total of deaths due to animals in any one province was in Bihar and Orissa, where 684 people lost their lives, tigers alone accounting for 376. In the United Provinces one man-eating tiger in the Almora district killed ten persons out of the provincial total of twenty.

In order to effect the destruction of as many wild animals and snakes as possible the government pays bounties. The number of animals destroyed in 1915 was 25,036, including 1,532 tigers, 6,623 leopards, 2,775 bear and 2,191 wolves. The total number of snakes killed was 184,663.

Cadomene Tablets Lift You Over The Wall to Happiness

Physician Says Weak, Nervous People Gain by Leaps and Bounds When Cadomene Takes Hold.

Tablets Contain Vital Elements for Nerves, Brain and Body.

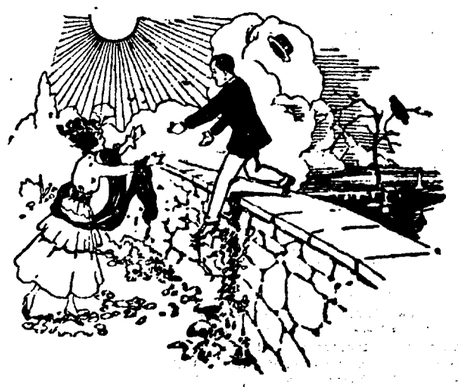
A nationally known physician, in speaking of the benefits to be expected from Cadomene, the iron, phosphorous, vegetable tonic, said:

"When the structures and functions of the body are in perfect health, they work without attracting attention. The moment that any part of the system becomes inefficient in functioning, the cry of pain, or distress, tells us all too quickly that we are being attacked by nerve and cellular weakness.

Proper tonic and reconstructive means must then be resorted to as an aid to nature, and it is well known that iron, phosphorous and certain vegetable extracts yield prompt and permanent aid." And when Cadomene Tablets are directed to the nervous system, the origin of disturbance is reached, so that the grievous symptoms and distress may be quickly vanquished.

When you become conscious of an unnatural condition, these symptoms are usually manifested. Extreme nervousness, irritability, despondency, sick-nervous-headache, with pains at the base of the brain and along the spinal column, sleeplessness, a coldness of extremities, with a listless, unambitious attitude toward life and its successes, and an ever-present but natural desire that all things desirable should be yours.

Careless, indifferent, or thoughtless expenditure of your vital forces may be the cause, or prolonged illness, or overwork, with dissipation and excesses, but whatever the cause, you are like an engine with insufficient fuel—your full supply of nervous energy and strength is not forthcoming and therefore the tonic, alterative and nutritive action of Cadomene Tablets, on the nerves and cells of every muscle and structure of the system are essential to your recovery and complete renewal of nerve-energy and strength.



Cadomene Tablets are prepared in convenient form and may accompany you anywhere in pocket or purse, and taken with due regularity to produce satisfactory and happy results.

They are sold by all wide-awake druggists in sealed tubes with full directions for self-administration. They also bear a guarantee of satisfaction or money back.

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prominent Physician to whom the above article was sumitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances or refund the money. It can be obtained from any good druggist and is one of the very few preparations I feel should be kept on hand for regular use in almost every family." It is sold in Ft. Wayne at Dreier Drug Co., Meyer Bros. and other druggists.

SECOND BANQUET IN OBSERVANCE OF GROWTH

Citizen's Trust Stockholders Celebrate Passing of $2,000,000 Mark.

On the occasion when the assets of the Citizen's Trust company had passed the two million dollar mark, the stockholders, directors, officers and a few invited friends enjoyed a banquet at the Anthony hotel Thursday night. Sixty sat down to the tables and enjoyed the evening's program.

This is the second time in the history of the trust company that a banquet was given in observance of the growth of the organization. Sixteen years ago the trust company was organized with a capital stock of $200,000. Nine years later the passing of the one million dollar mark in assets was observed. In the next seven years and before the close of the year 1916, the assets had reached $2,010,000.

An orchestra furnished music for the occasion Thursday evening and Judge O. N. Heaton, president of the trust company, presided as toastmaster. The particular guest of honor was Judge Nelson G. Hunter, of the Wabash circuit bench, and also president of the Wabash County Trust company. He is also president of the trust company section of the Indiana Bankers' association.

Following the introduction by Judge Heaton, the addresses were given. Judge Hunter, who is an eminent authority on trust companies, their administration, and on the trust company branch of fiduciary enterprise, based hisremarks on these subjects.

Judge John W. Eggeman, of the Allen circuit bench, was the next speaker and he spoke briefly on matters of interest to the men gathered for the gala occasion.

"Appella" made her debut in Fort Wayne Thursday evening at this banquet. Her presence was the source of much comment. Everyone present believed that she was the best ever. The drink is manufactured by the Lafayette National Fruit Juice company, and is guaranteed under the W. J. B. grape juice act.

The guests who were present at the two-million dollar banquet were: Judge Nelson G. Hunter,of Wabash; Judge Owen N. Heaton, Judge John W. Eggeman, Judge Sol A. Wood, Judge James H. Rose, John Ferguson, Edward F. Yarnelle, Ernest W. Cook, Edward J. Ehrman, John P. Evans, S. S. Fisher, Max B. Fisher, E. E. Griest, Gottlieb Haller, Al Hazzard, Benjamin F. Heaton, W. D. Harris.

Several vocal numbers were rendered by Miss Ethel Doud and Earl Thompson during the evening. Miss Emel Verweire presided at the piano. The selections were well received, encores being demanded after each number. Their singing was one of the features of the evening's program.

COURT DESIGNS BRAND NEW LID FOR MUNCIE

Raid on Gamblers Follows Order for Strictest Law Enforcement.

Muncie, Ind., Jan. 5.—Muncie will be a closed town in the full sense of the word if the county grand jury and Horace G. Murphy, the new prosecuting attorney, follow out the suggestions given yesterday by Judge William A. Thompson, who was elected judge of the Delaware circuit court last fall on a strict law enforcement platform. In his instructions to the grand jury, which covered several typewritten pages, Judge Thompson directed that the grand jury conduct an investigation as to the operation of motion picture shows on Sunday, the opening of cigar and candy stores on the Sabbath and the operation of gambling rooms and "blind tigers."

The court mentioned in his instructions that "gambling is the vice most prevalent in the city." According to general information, Muncie has been an oasis for eastern Indiana gamblers in the last two years.

Indianapolis gamblers have been quick to take advantage of the lax law enforcement and games in which several thousand dollars changed hands have been played here almost nightly. It is said that all kinds of gambling devices have been in operation, from plain poker to the biggest of "big bank" games.

As Prosecutor Murphy has been one of the leaders in the law-enforcement movement here, it is believed that a general crusade will start against all forms of lawlessness. It is understood that an effort will be made to stop the playing of all card games and the operation of punch boards in cigar stands and hotels.

Judge Thompson also recommended that the grand jury investigate as to the dodging of taxes, suggesting that if some of the wealthy tax dodgers were indicted the taxes of the common people would be lowered by the growing tax duplicate.

Immediately following Judge Thompson's instructions to the grand jury the police conducted a raid on a gaming house in the uptown district and arrested three men, who gave their names as Emory Nichols, George Cosgrove and Ralph Baker. All were released under $50 bonds. This was the first raid of the kind made by the police in months.

BILLIK, FREED, SAYS HE BEARS NO MALICE

Pardoned Man Smiles on Romance of Daughter and His Accuser.

Chicago, Jan. 5.—Herman Billik stepped from Joliet penitentiary yesterday afternoon, after eight years of penal servitude, bowed in stature, broken in health, but not crushed in spirit.

He bore no malice, he said, toward the man who perjured and brought him victed him of murder and brought him near to the scaffold, to be saved only by a last minute reprieve which changed the penalty to life imprisonment.

Billik was met at the penitentiary by his son, Herman, jr., a Chicago machinist, and a newspaper man active in the fight for Billik's pardon, which was granted by Governor Dunne as one of the last acts of his administration.

Driven with his son in an automobile to Chicago, Billik was met here by his attorney, Francis E. Hinckley, who with the newspaper man and Father Peter J. O'Callaghan, formerly of St. Mary's church, has fought ceaselessly for Billik's pardon.

Of Jerry Vrzal, admittedly whose perjured testimony was a big factor in convicting him, and of others, Billik said:

"Every day of the eight years I was in the penitentiary I have struggled to forgive those whose falsehoods sent me here. I have conquered. I forgive them all. I hate no man."

It was Vrzal's admission that he had perjured himself to convict Billik of the murder of one of the five members of the Vrzal family, who died by poison, that won Billik his first reprieve and finally his pardon.

The bitterness he at first held against Jerry has so changed that Billik is commenting on the report that Jerry and his daughter, Edna Billik, 19 years old, were engaged. "If she loves him I shall be satisfied to see them married."

"My wife and daughter have stuck to me all this time and they will not desert me now," he continued, answering reports from Cleveland that his family would not be glad to see him.

It was to join these two and his sister that Billik was to leave early today for Cleveland, where, with the financial assistance of his sister, he hopes to establish himself in the grocery business.

GIRL SAYS PREACHER TAUGHT HER TO STEAL

Arrests Follow Thefts in Stores at South Bend and Goshen.

South Bend, Ind., Jan. 5.—Miss Emma Miller, an 18-year-old country girl, who declares she was taught the tricks of the shoplifter by a former Presbyterian missionary; Esther Miller, 20 years old, her sister, and Ralph Janness, 21 years old, the missionary, are under arrest here as a result of extensive thefts in stores in Goshen, South Bend and other cities.

The girl confessed yesterday after Sheriff Sanford, of Elkhart county, recovered stolen goods valued at $500 from the homes of Samuel Miller, her father, and Jacob Miller, her grandfather, near Nappanee.

The Miller girl told the old, old story of the girl who tires of a country home. Her father, a well-to-do farmer, recently was committed to the northern Indiana hospital for the insane. Leaving her home, the girl came to South Bend to seek employment.

There she met Janness, who conducted religious meetings in the street and in some churches. Janness taught her how to become a shoplifter, according to the girl's confession to the police. The couple operated extensively in Detroit, Mich.; Toledo, O., and other cities, she declared.

According to the Miller girl's confession Janness never stole anything himself, but directed her operations. The couple posed as man and wife, she said, when they were in other cities.

During the Christmas rush the girl is said to have stolen a $75 coat from the Hudson company dry goods store in Goshen, which was found in the girl's trunk at her grandfather's home. The coat was identified by Robert Hudson, president of the company, who accompanied Sheriff Sanford.

The arrests resulted from the attempt of Miss Esther Miller to pawn a ring at a South Bend pawnshop, which is alleged to have been stolen.

Janness and the Miller girls probably will be taken to Goshen for trial.

DAILEY AT WASHINGTON.

Washington, Jan. 5.—Frank C. Dailey, of Indianapolis, prosecutor in charge of election fraud investigations in Ohio, Indiana and Illinois, arrived in Washington for a conference with officials at the department of justice yesterday afternoon. It is understood he submitted a full report of the evidence in his possession and asked for further instructions. It was intimated the department may abandon its purpose to institute prosecution and instead may suggest to congress legislation to strengthen the federal election laws.

Assistant Attorney General Wallace denied, however, that the department may abandon prosecutions. Another conference will be held. The officials' care in blocking out a form of indictment indicates that indictments are expected.

BEAUTIFUL HAIR, THICK, WAVY, FREE FROM DANDRUFF

Draw a moist cloth through hair and double its beauty at once.

Save your hair! Dandruff disappears and hair stops coming out.

Immediate?—Yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after an application of Danderine. Also try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, charming, lustrous hair, and lots of it, if you will just get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed. —Advertisement.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream to your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.—Advertisement.

COUNT BANISHED ON POLITICAL PRETEXT

Love Affair of Princess Louise Has Interesting Aftermath.

Budapest, Hungary, Dec. 20.—(Correspondence of The Associated Press.)—The love affair of Princess Louise, of Belgium, and her former riding master, Count von Matassich, a Hungarian subject and first lieutenant in the Austro-Hungarian cavalry, had an interesting aftermath recently when the count was ordered to leave Budapest for "political reasons." He was ordered to remove to his native town in Croatia, but eleventh-hour intercession by Dr. Visontai, the legal adviser of Princess Louise, influenced the police to permit Matassich to remain in the capital under surveilance.

Back of the action lies the continued endeavor of the family of the princess to separate her from Matassich, who eloped with her when she was the wife of Prince Philip of Saxe-Coburg in 1896. Some time ago the family suggested that the princess place herself voluntarily under guardianship but the princess has not yet consented to this. She was not permitted to live in either Vienna or Budapest, but finally obtained permission to reside in Munich, where she now is. It is considered unlikely that Count Matassich will be given permission to go to Munich, so that for the duration of the war, at least, the couple will be separated.

Princess Louise is the oldest daughter of the late King Leopold of Belgium. In 1875 she married Prince Philip of Saxe-Coburg, who was fourteen years her senior, when she was 17. She was 35 when she met Count Matassich, who was employed as her riding master, and soon their relations became the scandal of Europe. Shortly after the elopement Count Matassich was arrested, charged with forgery in aiding Princess Louise to swindle Vienna moneylenders by cashing notes with the forged signature of Princess Stephanie. He spent a term in prison, while the princess was confined for several years in a sanitarium, from which she escaped in a sensational manner and returned to her lover, while Prince Philip brought suit for and obtained absolute divorce.

THE HABIT OF TAKING COLD.

With many people taking cold is a habit, but fortunately one that is easily broken. Take a cold sponge bath every morning when you first get out of bed—not ice cold, but a temperature of about 90 degrees F. Also sleep with your window up. Do this and you will seldom take cold. When you do take cold take Chamberlain's Cough Remedy and get rid of it as quickly as possible. Obtainable everywhere.—Advertisement.

Hurrah! How's This

Cincinnati authority says corns dry up and lift out with fingers.

Hospital records show that every time you cut a corn you invite lockjaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called freezone can be obtained at little cost from the drug store but is sufficient to rid one's feet of every hard or soft corn or callus.

You simply apply a few drops of freezone on a tender, aching corn and soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain.

This drug is sticky but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this.—Advertisement.

Announcing A Sale of Men's Clothes Truthfully and Straightforwardly

Let us tell the story quietly, quickly, simply. No boastfulness, no noisy, circus methods. Just the plain truth, unadorned by the usual sale rhetoric.

Clothing that is worth from 15 to 25 per cent. more than it was three months ago is offered you at a reduction of 20 per cent.

Not the usual sale merchandise, with a showy outside and cheating makeshifts inside. But standard merchandise, guaranteed by the signature of such makers as A. B. Kirschbaum Co., genuine through and through.

There is but one Kirschbaum standard in fabrics—100 per cent. all-wool. There is but one Kirschbaum standard in canvases, linings, thread, etc.—the very best obtainable. There is but one Kirschbaum standard in workmanship—the most painstaking.

You know sale prices have been a common bait held out to the credulous in unscrupulous advertisements. So much so that the word "sale" is largely discredited. But when you see a reduced price upon a standard article—a Kirschbaum suit—you may buy with full confidence that it represents a genuine bargain value.

Then, too, our reputation—our pledged word to be straightforward and frank, always protects you. We guarantee a suit which you buy at $19.95 as fully as if you paid the regular price, $25 for it. Your money is always here for you to get if you want it back—for any reason whatever.

That is the Spirit that Governs this Sale and Here are the Prices

$25 SUITS AND OVERCOATS REDUCED TO $19.95

$20 SUITS AND OVERCOATS REDUCED TO $15.95

$18 SUITS AND OVERCOATS REDUCED TO $14.40

$15 SUITS AND OVERCOATS REDUCED TO $11.95

A last Word: Our selections are limited and there is no box of "sale merchandise" in our shipping room from which to fill up the gaps. So only those will be sure of the best plums who do their picking early.

KRATZSCH & SCHROEDER 618 CALHOUN STREET

FRENCH TONGUE HAS REPLACED ALSATIAN

German Signs Torn Down at Approach of Ally Soldiers.

With the French Army in Alsace, Dec. 20.—(Correspondence of the Associated Press.)—French has replaced Alsatian dialect and German as the language in that portion of Alsace restored to French as the result of French military successes. So soon as the blue-clad soldiers occupied the villages and towns German signs were torn down from the fronts of the stores and replaced by French. Finger posts along the roads were altered and directions at grade crossings over the railroad tracks were changed. Restaurant bills of fare were written in French instead of German. The titles of public offices were painted over and new designations put in their place. Prices also were transformed into francs and centimes from marks and pfennings.

Most of the municipal officials under German rule were of Prussian origin and fled with the German troops. The other male inhabitants—most of them very old or very young, as all those of military age had been either taken into the German army or had fled to France—had never had experience of local government and were incapable of undertaking the public utilities or caring for the health or sanitary condition of the people. It was found necessary to appoint French administrators and these were chosen from among officers who had been wounded in the war or who had fallen sick during the campaign. In one locality a military mayor was nominated. He was a captain who had lost his right arm in battle. For two years he has carried out the functions of his office so successfully that the citizens governed by him declare they have never been more wisely ruled.

One of the first tasks undertaken was to set again in motion the educational system which had been interrupted by the hostilities. Classes were formed for the children of both sexes and these were placed in charge of sisters of a religious order which devotes itself to education. There was some difficulty at first owing to the pupils knowing no other language than their local dialect. They showed such zeal, however, in acquiring French that within a few weeks the teachers were able to carry on the lessons. When Prince Arthur, of Connaught, recently visited the classes he was amazed at the change brought about in so short a time.

French officials and the people of Alsace themselves ascribe the readiness of the Alsatians to adopt French ideas and education to the fact that they have in part realized their dream of being rejoined to France. At any rate, it is patent fact that, although they are still within sound of the German guns, everybody in the reconquered territory at present speaks French. The children at their games on the streets use nothing but French expressions. Workmen and workwomen going to and from the factories and while engaged there rarely—and then only in case of elderly people who cannot change their lifelong habits—utter a word in anything except French. In the cafes and hotels and in the stores French is everywhere used, while in the churches the sermons are now preached in French.

URGES EVERYONE TO QUICKLY GET ON WATER WAGON

Drink glass of hot water before breakfast to wash out the Poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside-bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside bathing will have them both looking and feeling better in every way.—Advertisement.

FOOD SUPPLY AROUSES QUEEN MARY'S INTEREST

Also Devotes Herself to Subject of Food Economy.

London, Dec. 25.—(Correspondence of The Associated Press.)—Queen Mary in view of her interest in the question of food supply recently summoned Walter Runciman, president of the board of trade, to an audience at Buckingham palace. It is very unusual for the queen to send for a cabinet minister.

The conference was a long one, the queen being particularly interested in definite details as to how the proposed new food regulations would affect the poor, especially the working women and women belonging to the so-called professional classes. From the very beginning of the war, the queen has shown particular interest in the position of middle-class women, women of education and breeding, who have moved for years in one groove, and who were no longer young enough to be able to benefit by new openings when their old occupation or income gradually became insufficient.

The subject of food economy, also, is one that has engaged the heartiest attention of the queen. "The queen is herself a remarkably good housekeeper," writes one of the newspapers in commenting on the audience with Mr. Runciman, "and if she belonged to the middle classes she would be extolled as a wonder among her peers. Years ago, before war with Germany was thought of, she used to be quoted as an example of thrifty management and sound common sense. In those days, thrifty management and sound common sense were neither popular nor fashionable, and it was considered the smart thing to be wasteful and frivolous, and completely ignorant of what went on in the kitchen and the store room. Even yet, not everybody has come around to the queen's point of view, although they will in time, even if they have to be forced into it. A vast deal of unnecessary spending still goes on, especially among the so-called smart set, which is still lunching and dining and going to the theater and buying expensive furs, and going in for extremes in evening dress. Only an act of parliament will stop them."

Poisoned by Thousands!

(By L. H. Smith, M. D.)

The victims of auto-intoxication are many thousand every day. By reason of the toxins, or poisons, bred in the intestines, these poisonous bacteria are sent all through the blood channels and the victim feels tired, sleepy and headachy, or the brain doesn't work as usual. The best treatment for this is to drink hot water before breakfast—plenty of water all day and procure a supply of Dr. Pierce's Pleasant Pellets, made of Mayapple, leaves of aloes, etc., with no calomel, entirely vegetable, which can be obtained at drug stores for 25 cents.

Equally important it is to cleanse kidneys and bladder, and drinking plentifully of pure water will cleanse them to a certain extent. Then obtain at the drug store a little Anuric. This is to be had in 50-cent packages. Anuric should be taken before meals. It is many times more potent than lithia, dissolving uric acid as water does sugar.

Dr. Weir Mitchell once said: "What we call diseases are only symptoms of conditions. Allow the man's vitality to be reduced to a certain point, and he is ripe for any of these weaknesses, or certain conditions which we call disease."

Through failure of kidneys to act, through congestion, inflammation, any person's condition is ripe for disease to fasten its hold upon the system.

Anuric has been tested for the past few years for kidney, bladder, uric acid troubles, rheumatism, gout and such ailments as follow, and so many cases, both acute and stubborn, have yielded to this wonderful remedy that I do not hesitate to recommend it.—Advertisement.

ORVILLE C. WRIGHT IS PROMOTED

Succeeds O. P. Reese as Assistant Engineer of Motive Power at Pittsburg.

A bulletin issued from the office of P. F. Smith, jr., general superintendent of motive power of the Pennsylvania lines west of Pittsburg, received at the local offices this morning, announces the appointment of Orville C. Wright assistant engineer of motive power in the office of Mr. Smith, effective January 1. The announcement was not a very great surprise, as Mr. Wright has been considered one of the two or three eligible men on whom the appointment was likely to fall. The appointment became effective January 1 and Mr. Wright succeeds O. P. Reese, who was promoted to superintendent of motive power of the Central system, with headquarters in Toledo, succeeding Mr. Smith, last Monday. The promotion of Mr. Wright leaves a gap in the motive power ranks which will attract interest and cause much speculation until it has been filled. T. W. Demarest, superintendent of motive power of the Northwest system, said this morning that the matter would not be settled and the name of the appointee announced until next week. He also said, that so far as he knew, this change would close up the list in the motive power department of the Pennsylvania lines west.

Mr. Wright is a native of Marion, Ind., and a graduate of the common schools of that city. Later he attended Purdue university and graduated therefrom in 1905. Beginning his railway career as an assistant in the Panhandle engineering corps at Columbus, Ohio, immediately following his university term, he made rapid progress and early in his career was promoted several times. From the engineering corps, he became a special apprentice in the Columbus shops and was called to Fort Wayne in that capacity in June, 1906. He was appointed night assistant foreman at the round house in 1908. A year later, Mr. Wright became motive power inspector, and on June 1, 1910, he was appointed electrical engineer of the Pennsylvania Northwest system. On April 1, 1912, he became assistant engineer of motive power of the Northwest system, which office he now relinquishes to take up the duties of the higher one. Mr. Wright has been engaged in special work at various points on the Northwest system for some time and for the past six months has been in his office in this city but very little.

DUDLO CLUB MEETING.

First Open Event Occurs Saturday Night.

Saturday evening marks the first open meeting of the recently organized Dudlo club. At this meeting, which will be held in the C. B. L. of I. hall, on East Main street, all of the young ladies employed by the Dudlo Manufacturing Co., will be invited to attend, together wih the wives of club members.

The regular business meeting will be held in the lodge room, and will start at 7:30 o'clock. Several matters of importance will be taken up, but will be disposed of as quickly as possible and the meeting turned over to the entertainment committee.

An enjoyable program has been prepared which consists of dancing, instrumental and vocal selections, and card playing. During the evening light refreshments will be served.

Tuesday evening, Jan. 23, 1917, this club will hold another of its popular public dances at the Moose auditorium, on Webster street. The Mrs. F. O. Kuckuck orchestra will furnish the latest dance music. Ample provision has been made for the entertainment of a large gathering and an even more elaborate program has been prepared than the one given at the last dance, held in November.

TWO DIVISIONS ARE A TIE.

Logansport and Columbus Each Put Four Men on Honor Roll.

Logansport and Columbus are "tied" in the contribution to the Pennsylvania roll of honor for the month of December, each having four veterans, out of the total of sixteen on the lines west of Pittsburg. The combined years of service of these eight men is 312, Columbus leading with 168 years to the credit of its veterans. The Western division had one to enter the pension system in December, Lafayette C. Wiltshire, of Winona Lake, a telegraph editor who worked for the company thirty-two years. There were sixty-eight to enter the roll of honor. Thirty-seven were in the employ of the company over forty years and forty had worked more than half a century. Pensions are now being paid to 4,773 retired employes and the total disbursements have reached the enormous figure of $13,635,347.22.

USING ELEVATED TRACK.

Nickel Plate Sends Trains Over South Line.

The J. C. Carland company, of Toledo, the contractors engaged in elevating the Nickel Plate tracks at Coombs street and building another main line from Clay street to Glasgow avenue, have completed the south tracks and yesterday turned it over to the company and took up the work of elevating the north track. Trains are now running over the elevated portion of the road from Glassgow avenue into the city. The cold and stormy weather is holding back the work, but it continues, however, and the track at Coombs street will soon be up to the required elevation for the subway. The first train over the new elevated track yesterday was in charge of Conductor John McVey, one of the old employes in point of service on the road.

GETTING NEW MACHINERY.

Equipment for the Big Buildings at Electric Works Arriving.

New machinery for the enlarged plant of the General Electric works, which commenced arriving here a year ago, is now coming in more rapidly as the day of completion of the new buildings approaches. Henry Stahlhut has charge of unloading and installing the machinery and his gang is one of the busiest at the big plant at present. Yester .y two mammoth motor generator sets, weighing 30,000 pounds, arrived at the works and were unloaded by Mr. Stahlhut and his men in building No. 26, the one on the north side of Wall street, which is practically completed. These generator sets came from Schenectady, N. Y., and are of the most recent and perfect pattern.

HAD A NICE MEETING.

Nickel Plate Division, No. 513, Installed Last Night.

Mrs. T. E. Short, the past president, acted as installing officer and Mrs. John O. Hood as marshal of the day at the installation of the officers of Nickel Plate division, No. 513, Grand International Auxiliary to the Brotherhood of Locomotive Engineers, at Vordermark's hall last night. The attendance was good and the meeting one of the best of the season. One new member was taken in by transfer. There were visitors from Elkhart and North Dakota, besides visitors of the other auxiliary.

TESTING TELEPHONE LINES.

Supt. Otto Schroll, of the Pennsylvania, and the greater portion of his staff are out on the road today, inspecting and testing the new telephone system now nearly complete between Middlepoint and Crestline. They will stop over night in Lima today and resume and complete the work tomorrow. With Mr. Schroll are Division Operator H. B. Reynolds, Division Engineer Guy Scott, Assistant Division Engineer Sympson, Trainmaster C. L. Hamilton, Master Carpenter D. C. Zook and two or three of the road supervisors. Mr. Miller, a telephone man from Pittsburg, is also with the party.

WABASH DEFENDANT IN DAMAGE SUIT.

Mrs. Lillian Porter, administratrix of the estate of Acie A. Porter, has begun suit in the Miami court in the sum of $10,000 against the Wabash company, alleging that her husband was struck and killed by a train which was traveling at the rate of forty miles an hour within the city limits, in violation of the law. Mr. Porter was riding on a truck when it was struck by the train and his leg was cut off and head crushed so badly that he died a few hours after the accident.

TWENTY-FIVE YEARS AT SHOPS.

James McLaughlin has started on the second lap of a half-century at the Pennsylvania planing mills, having just completed twenty-five years at work there. He operates the big planer, at which he is said to be an expert. It is said of Mr. Laughlin that he wastes no time in getting a rule to measure a piece of lumber needed, but "sizes it up" with his eyes, so accurate is his ability in that line, and he never makes a mistake. Mr. Laughlin is very popular with his associates at the shops and elsewhere.

BRADLEY QUITS PENNSY.

C. E. Bradley, for six years employed a. the Pennsylvania machine shop and considered one of the finest, has resigned. He has taken employment at the works of the American Steel Dredge company, out in the southwestern part of the city, going to work there this morning.

NICK SMITH RECOVERING.

Nick Smith, who had the bone of one of his thighs broken in two places six weeks ago, when he fell a distance of twelve feet from a ladder, and a hoist weighing thirty-five pounds fell upon him, is making good progress towards recovery. Dr. F. J. Schulz says Mr. Smith will be able to leave the hospital in a week or ten days.

INDUSTRIAL NOTES.

Machinist Joseph Schallenbarger, of the Pennsylvania shops, is sick.

B. W. Wren is a new laborer in the Pennsylvania power plant.

Walter C. Bibbler is a new man in the shipping department of the Pennsylvania store room.

H. Rohrbach, of the Pennsylvania erecting shop, is off duty on account of sickness. Machinist William Farnan, of the lathe department, is also off duty on that account.

J. C. Vachon was taken sick while at work in the Pennsylvania boiler shop this morning and had to return home. E. Dunfee, a flue setter, and E. J. Elliott, a flue welder, are also sick and off duty.

After working only a part of a day following an absence on account of sickness, E. C. Rehling is again on the sick list and may be absent from the Pennsylvania shops several days.

C. B. Moore, C. G. Beck and Robert Penfold, of the Pennsylvania tool room, the two first named being machinists, have arranged for an over-Sunday visit in Chicago.

A. J. Bobay, a Pennsylvania cabbuilder, is off duty on account of sickness, and A. H. Nasbaum, a cabinetmaker, is off duty on account of private business.

Conductor Charles N. Gibson, of the Cleveland division of the Nickel Plate, was buried in the Bellevue cemetery yesterday afternoon by the Order of Railway Conductors, of which he was an old and prominent member. Several Fort Wayne people who knew the deceased attended the funeral.

C. B. Hoyt, Nickel Plate superintendent of track maintenance and construction work, with headquarters in Bellevue, was in the city on business for the department yesterday. Mr. Hoyt was trainmaster of the Western division of the road several years ago, when the officers were in the Odd Fellow building at Wayne and Calhoun streets.

Mr. and Mrs. J. A. Phillins, of Owanka S. D., who had been visiting her brother, William Mason, of the Pennsylvania tool room, and his family for two or three weeks left today for Urbana, O., where they expect to visit relatives two or three weeks before leaving for their western home. Mr. Phillins had not been in Fort Wayne for twenty years before he made the present visit.

Otto Aimoller, late of the Indiana Engineering and Construction company, took employment in the Pennsylvania shops this morning. W. J. Johnson, of the American Pipe and Construction company of Amsterdam, N. Y., also took employment at the boiler shop of the Pennsylvania and James Hughes is a new laborer at that shop. He is colored.

Robert E. Penfold, who went to Alliance to fire on a passenger locomotive on the Eastern division of the Pennsylvania, had to give up on account of the work being beyond his strength. He returned here and has taken a position as a helper in the tool room. Before going to Alliance, Mr. Penfield was clerk for Foreman Harry Zimmerman, of the lathe department of the shops.

A party of United States sailors from the naval training station at Great Lakes, near Chicago, passed through the city on the Nickel Plate at 3:05 o'clock yesterday afternoon. During the time the train was standing at the station the bluejackets raced up and down the platform for exercise and attracted considerable attention. They were bound for Boston, to be assigned to duty on board Uncle Sam's battleship.

IN THE CHURCHES

SIMPSON M. E. CHURCH TO HAVE BUSY QUARTER

Plan Special Services Which Will Last Until Conference Time.

Activities in the Simpson M. E. church will be more numerous than ever for the remainder of the conference year, and the time between the present and the Northern Indiana conference will be strenuous for those who are actively engaged in the church work.

A campaign which will be introduced next Sunday is the "Go to Church Twice Sunday" movement. Special sermons and music have been arranged to make these services especially interesting and all members and friends of the church are being urged to attend two services every Sunday.

February 4 will be Sunday school day in the church and Dr. W. S. Bovard, of the Chicago Sunday school board, will be present and give an address. The fifth anniversary of the dedication of the new church will be celebrated February 11 and a fine program has been arranged for this event. Dr. W. W. Martin, superintendent of the district, will preach both the morning and evening sermons on this day.

Beginning February 18 evangelistic services will be held in the Simpson church conducted by Rev. Wentworth F. Stewart, of Boston. These services will finish up the conference year.

SUNDAY SCHOOL CONTEST.

Will Be Waged by M. E. Schools of Leo and Huntertown.

The Sunday schools of the Methodist churches of Leo and Huntertown have decided to enter a contest for the greatest attendance and largest collections. The contest is to begin the first Sunday in January, 1917, and continue for ten weeks. Every Sunday during the contest each school will count the points it makes, counting one point for each person present and one point more for each ten cents of collection. Each week, both schools will report to the newspapers the number of points made. The winner will receive a United States flag, which has been secured by the two schools. However, the object of the contest will not be merely to defeat the other school and get the flag, but to increase interest in the Sunday school and in this manner build up the churches.

Will Give Concert.

A fifty-piece orchestra composed of local musicians and directed by W. R. Barr will give concerts at the Third Presbyterian church January 18 and 19. The concerts will be given for the benefit of the Y. M. C. A. fund of the Adroit Bible class. All sorts of instruments are included in the orchestra, from the piano to a ukulele, and the concert promises to be a very pleasing event.

Pennsylvania Takes Lead in Industrial League

Pennsylvania Quintet Winners and Tops Industrial League

Bowsers Have Easy Time With Dudlo Five and Tie With Electrics.

THE STANDINGS.

	W.	L.	Pct.
Pennsylvania	2	0	1.000
Electric Works	1	1	.500
Bowsers	1	1	.500
Dudlos	0	2	.000

The Pennsylvania representatives in the Industrial league pulled out of last night's engagement toting a perfect percentage, winning over the Electric Works by one basket in a game that had all the thrills. The Bowser five won from the Dudlo team in a walk and tied with the Electric Works in the middle of the list.

The Pennsy-Electrician Game.

Pennsy (10).		Electric Works (8).
Doriot	R. F.	Diffendorfer
Hoffman	L. F.	Ehrman-Kepl'ger
Cramer	C.	Kelly-Miller
Daley	R. G.	Rulo
Henry	L. G.	Hueber

Field goals—Doriot, 2; Cramer, 2; Daley, 1; Diffendorfer, 2; Miller, 2.

Referee—Island.

The contest between the Railroaders and the Electricians had all the known thrills in it and was close all the way. The playing was hard and many times rough, but it was free from dirty work. Louis Island, referee, wasn't going to interfere as long as the players remembered the rules and as a result the game was mighty interesting and still clean. At the end of the first half the score stood 4 to 2, long end to the Pennsy gang. As the score indicates, strong defensive work on the part of both pairs of guards featured the game.

In the second half, Miller and Keplinger were introduced into the Electricians' line-up and threatened to win the game by themselves, but Cramer, playing center for the winners, came across with two baskets which did the work. Daley and Henry, for the winners, and Rulo and Hueber, for the losers, did the feature work of the game in their guarding. Miller and Keplinger put up some good exhibition stuff, but it did not last as long as the work of the guards.

The Bowser-Dudlo Game.

Bowsers (34).		Dudlos (16).
Freistroffer-Dietrich	Right forward.	Wyss-Voss
Weberuss-Brunner	Left Forward.	Herring
Kahrman-Herring	Center.	Mensing
Dietrich-Slatter	Right Guard.	Kierspe
Kennedy-Freistroffer	Left Guard.	Reddin

Field goals—Freistroffer, 7; Weberuss, 6; Mensing, 2; Kennedy, 2; Wyss, 1; Herring, 4; Kohrman, 1; Voss, 2.

Referee—Island.

A good, big first half gave the game between the Tanks and the Dudlo five to the former in the opening game of the double-header of the shop league. The winners ran up 20 points against 6 in the first twenty minutes of play and there was little chance of their opponents getting a comeback on this.

Freistroffer and Weberuss made goals regularly and stacked up a lead that the Dudlo crew could not make up, although the last half was a great deal better than the first. Herring starred for the losers. The Dudlo team is working out under the direction of Russel, former Friar football player, and Turner, basketball and track man. He is putting them through some real paces and should have a league leading outfit before the season is over.

The League a Success.

Any conjecture that the league might not take or might fall through has been sent to the junk heap by now for the project is a proven success. The idea is popular with the employes of the companies represented and with the basketball fans of the city. If the league was patronized only by the employes it would be a financial success, but the games are attended by all of the regular basketball fans. There is some good basketball handed out at these games.

WALTHER LEAGUERS WIN.

The Concordia Walther league five scored a win over the Exendas at the Concordia gym last night, the final count being 25 to 12. At the end of the first half, the score was 14 to 1, with the Concordians celebrating. Becker and Oberwitte starred for the winners. Snyder refereed the game.

HIGH SCHOOL SQUAD MEETS BERNE TONIGHT

Girls Play Hartford City Sextette at James Smart Gymnasium.

The same squad which has made up the high school team nearly the entire season so far left for Berne at 12:25 today to play the high school team of that city. The members who made the trip are as follows: Kendricks, Lindemuth, Berghoff, Wilkins, Figel, Dannecker and Morris. The latter is a recent addition and is showing up in great style. Shoup, who has been on the squad, injured a foot while skating and was not able to play.

The girls' team meets the sextet of the Hartford City high school at the James Smart gym, and according to Miss Wingert, the coach, they will put over a win. The girls' team is one of the most dependable organizations in the local school and they can be trusted to put across the win if they say they will.

By going at 12:25 the members of the boys' team lose several recitation periods, but Coach Wright holds that basketball is as much a part of the school curriculum as history and claims that those who make the trip to play basketball are losing nothing in the long run. This view coincides with the views generally taken by the students.

FAMOUS BOWLING STAR TELLS IN THE SENTINEL HOW TO MAKE SPARES!

"COUNT" GENGLER

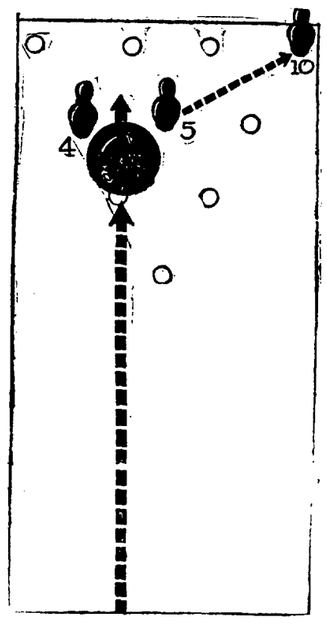
"Count" John Gengler of Belgium, one of the greatest bowlers in the world, and perhaps the world's greatest expert on "picking up" spares, has prepared a series of lessons on spare bowling which should be of the greatest value to The Sentinel readers interested in the tenpin game.

Failure of the average bowler to make big scores does not lie in failure to hit the one-three crotch and get strikes, so much as in failure to "pick up" the pins on a split and complete spares.

In the lessons in The Sentinel "Count" Gengler explains how to pick up the pins on the splits which occur most commonly and makes his explanations easy to understand by diagrams showing just how the ball should hit.

The first three lessons are presented today. There will be one lesson each day in The Sentinel for five more days.

THE 4-5-10 SPLIT.

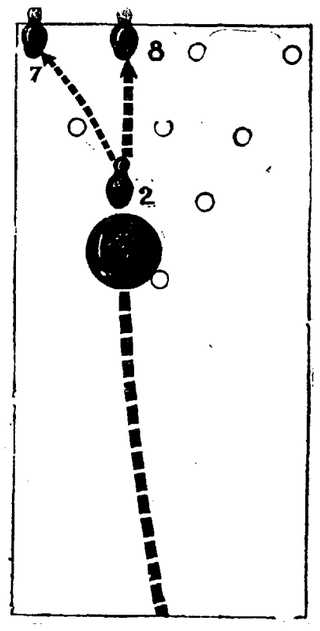


First of eight lessons in spare bowling by "Count" John Gengler, the Belgian star, now bowling in the United States and ranked next to Jimmie Smith, the world champion.

By "Count" John Gengler.

Roll a straight ball, striking No. 4 a trifle heavier than No. 5. The 5 pin will be shot to the corner of the alley, getting the 10 pin.

THE 2-7-8 SPLIT.

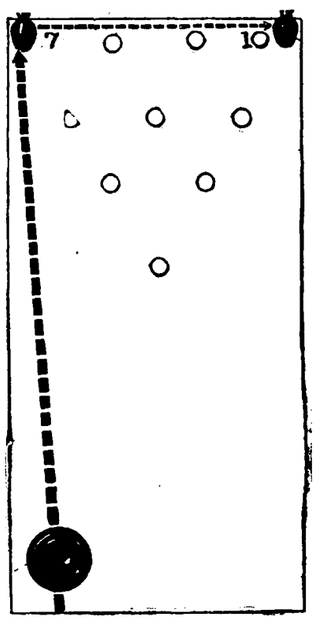


Second of eight lessons in spare bowling by "Count" John Gengler, the Belgian star, now bowling in the United States and ranked next to Jimmie Smith, the world champion.

By "Count" John Gengler.

Start the ball with a spin from the right corner of the alley, striking No. 2 one-quarter full, shooting it to the left corner against No. 7. The ball will follow through and get the 8 pin.

THE 7-10 SPLIT.



Third of eight lessons in spare bowling by "Count" John Gengler, the Belgian star, now bowling in the United States and ranked next to Jimmie Smith, the world champion.

By "Count" John Gengler.

This split is almost impossible to make, even by the best of bowlers. At times it is made by a pin bouncing back from the pad against the other pin. The only way the split can be made by design is to spin the ball down the side of the alley, striking the 7 pin lightly on the extreme outside. If hit exactly right the pin will slide across the alleys and get No. 10.

CARRIGAN DECLINES TO MANAGE IN 1917

Gives Final Decision to New Red Sox Boss After Reconsidering.

Boston, Mass., Jan. 5.—William F. Carrigan, manager of the Boston Red Sox, which won the world's championship in the last two years, Thursday gave a final refusal to the request of the new owners that he reconsider his decision to quit the game.

In declining the management Carrigan promised to give his services to the club in any way possible to aid the new manager and owners, President H. H. Frazee stated. Carrigan will come here some time this month to confer with President Frazee. The new leader may be named at that time.

Frazee would not discuss the probable identity of Carrigan's successor. Jack Barry, captain and second baseman, and Heinie Wagner, former shortstop and now coach, have been most prominently mentioned.

BOTTLERS HOLD MEETING.

There Is Much Waste in the Handling of Bottles, It Is Decided.

A deposit will be required on the bottles of every shipment of pop and soda water unless dealers take better care of the bottles, it is announced, by the soda bottlers of Fort Wayne. A meeting of the organization was held Thursday afternoon at the Hotel Anthony.

Negligent action of the retailers, it was said, had brought about a waste. It was the habit of many dealers to throw the bottles away, it was shown. The bottlers also decided that they would not sell soda water without a profit and it was decided to advance the price to sixty cents a case. Clifford Bornshein was made chairman of the organization and Paul Scheele, secretary. E. P. Severns, special representative of the Indiana State Bottlers' Protective association, of Indianapolis, was present and spoke at the meeting.

TWO CITIES TRY FOR BERTHS IN CIRCUIT

Rumor That Deveraux Will Refuse Race Presidency This Year.

Peoria, Ill., Jan. 5.—Peoria and Jacksonville, Fla., are making strong bids for admittance to the Grand Circuit which will hold its annual meeting in Atlanta, Ga., January 22 and 23. There is a strong possibility, it is said, that both cities will be taken into the organization.

Rumors have been current that H. K. Devereux, of Cleveland, who has guided the destinies of the Grand Circuit for several years, will decline to accept the renomination. Horsemen believe there will be a storm of protests if he declines the presidency and that pressure will be brought in an attempt to get him to reconsider. Mr. Devereux for years has been one of the biggest figures in the horse world.

Besides voting on the applications of Peoria and Jacksonville, the Grand Circuit stewards will adopt a 1917 schedule and map out other plans for the coming season at the Atlanta meeting.

Minneapolis, Jan. 5.—Few, if any, changes will be made in the football rules for 1917 in the opinion of Dr. Henry L. Williams, coach of the University of Minnesota eleven, and a member of the rules committee at the recent meeting of the National Collegiate Athletic association.

"It is not too much to say that the present rules have given us the best game of football we have ever had," Dr. Williams said.

"It is to be hoped that the rules will be allowed to remain as they are. The public is well satisfied with the present rules, and the coaches and players have something staple to work upon. The past season has been a marked development in science and strategy of play."

Chicago, Jan. 5.—Oscar "Happy" Felsch, of Milwaukee, who played center field for the Chicago Americans last season, is expected to top the outfielders of the league in fielding during the coming season. Felsch, who finished the season in the select "300" class in batting, also is likely to be the runner-up on Cobb and Speaker, according to admirers. Felsch, who was tutored by Clarence Rowland, manager of the club, showed that he was one of the best fielding outfielders in the league last season, and also possesses a powerful arm which has nipped many a runner at the plate. He has promised to do better in 1917. In 141 games, he fielded .981, while Shanks, of Washington, in 143 games fielded .978. Speaker, of Cleveland, who by many was considered the best outfielder in the league, finished the season with an average of .974 for 150 games.

Detroit, Jan. 5.—Bill Byron, the Detroiter, who has had many interesting experiences during the years he has served the baseball world as an umpire, declares that he had at least as much trouble with players in the International league as he has had in the National. Byron claims that the worst threat made against him was by an International league player. The latter, disputing a close decision, said:

"Bill, I hope that chimney falls on you and hits you one brick at a time."

The smokestack referred to loomed above the diamond like the Eiffel tower looms above Paris.

Chicago, Jan. 4.—Packey McFarland, the former lightweight wizard, now insists that he's done with the ring. Packey asserts that he set $25,000 as his price for his returning to the sport, knowing that no promoter would give him that amount of money for a ten round contest. McFarland is engaged in business in Joliet and is reported to be comfortably fixed in a financial way.

Des Moines, Ia., Jan. 5.—Efforts are to be made to have a boxing bill passed in the Iowa state legislature. It is proposed to have the sport controlled by a commission and that 10 per cent of the gross receipts of all boxing shows shall go to the support of the state tuberculosis home.

Chicago, Jan. 5.—Letters congratulating Clarence Rowland on his reappointment as manager of the Chicago club of the American league have been received by the White Sox leader from all parts of the country. Every player on the club joined Rowland's admirers in wishing him success and promised him a winning team.

Owosso, Mich., Jan. 5.—Owosso, the home of indoor baseball, may be without a league this season. Most of the players who were stars when the local team won the world's title three successive years are now dead, married or too fat to get in or out of the way of the ball.

FORT WAYNE FIGHTERS ON GRAND RAPIDS CARD

Stewart, Mason and Hess Will Perform Before Furniture Buyers.

Hal Stewart, Frankie Mason and Battling Hess of this city left this morning under the wing of George Biemer on their way to Grand Rapids, where they will feature a card given in that city in connection with the furniture dealers' convention. They are a part of a clever plot to sell buyers more furniture than they want.

Stewart will meet Kid Hogan of Flint, Mich., a ten round bout being scheduled. Mason will meet Benny Vogel of Milwaukee, and Hess will meet a young Detroit hopeful. E. W. Dickerson, head of the central circuit, will officiate for the three bouts, and his name assures a square deal.

Stewart and Mason are well known and popular in Grand Rapids, having shown there before. Hess will be new to the fans in the furniture city, but he is sure to please fans anywhere by his fighting methods.

TRAINING SCHEDULE.

Philadelphia Americans Will Play Boston Nationals Five Games.

Philadelphia, Jan. 5.—The Philadelphia American baseball club will play five games with the Boston Nationals on the spring training trip. Connie Mack today announced a partial schedule for the trip, which includes games with Boston at Miami, March 21, 22 and 23. At Palm Beach, March 24, and at Jacksonville, March 29. Other games with southern teams will be arranged later.

NEWS OF FORT WAYNE'S NEIGHBORS

MYSTERY AT GENEVA REMAINS UNSOLVED

C. M. Chrisman Is Found Bound and Gagged in Front of His Home Sunday.

Geneva, Ind., Jan. 5.—Last Sunday evening about 9 o'clock something occurred in Geneva which was the subject of much speculation, and the mystery of which is unsolved. C. M. Chrisman was found lying on the sidewalk in front of his home on Butcher street with his hands and feet securely tied and his daughter's apron tied over his head. Mr. Chrisman says he was lying on the couch reading when someone entered the house, but thinking it was his daughter coming in, paid no attention until he suddenly found himself held by a couple of men who covered up his head so quickly he could not see their faces. They carried him out on the sidewalk and left him lie, making their escape with his pocketbook and about $2.00. No one seems to know who the guilty parties are and robbery surely was not their main object, as no one suspected him of carrying a great amount of money.

BUGGY UPSETS.

Mark Watson, Well Known Wells County Farmer, Is Seriously Injured.

Bluffton, Ind., Jan. 5.—Frank Hinchman, a young farmer of Nottingham township, who is employed at the surveyor's office a few days assisting in compiling a ditch report, was on his way to Bluffton yesterday morning, accompanied by Mark Watson, in a buggy, when his horse became frightened at a hay baler outfit and swerving to one side of the highway, upset the buggy, at a point east of Domestic. Both occupants of the buggy were thrown out. Mr. Hinchman escaped without injury, but Mr Watson, who is an elderly gentleman, was severely injured, sustaining bad scratches and lacerations about his face, and also a fracture of the collar bone. He was taken back to his home by a friend and Mr. Hinchman continued his journey to Bluffton. His buggy was little damaged in the accident, but the horse sustained some severe cuts. Mr. Watson is an elderly gentleman, and there is some fear of serious complications from his injury.

BAD FIRE AT AUBURN.

Flour Mills Are Damaged to the Extent of $5,000.

Auburn, Ind., Jan. 5.—Fire starting in the third story of the building of the Auburn Roller mills, in South Auburn, some time Wednesday night, came very near destroying the mills.

A few minutes before 1 o'clock one of the men connected with the building of the elevated track on the P. C. C. & St. L. for the Indiana Light and Fuel company, at Auburn Junction, staying in their work car near mills, ran over to the city power plant and gave the alarm.

Several other people had seen the light in the sky but no one seemed to know just what was on fire. The fire bell and whistle called the firemen from their slumbers and they made a quick run to the mills.

The machinery on the top floor is completely ruined and the conveyors, etc., are damaged, it seems, beyond repair. There was scarcely any blaze in the second story and the greatest damage there is from the water.

MAY REACH $40,000.

Kendallville Has Chance of Becoming First Class Office.

Kendallville, Ind., Jan. 5.—The receipts of the postoffice for the year 1916 were the largest in the history of Kendallville, according to the annual report just compiled by Guy C. Hart, postmaster.

If the increase during this year of 1917 is as great as it was in 1916, Kendallville will be eligible to be in the list of first class postoffices.

During the year just closed the receipts of the local office on stamps and stamp paper only aggregated $35,270.04, as against $31,118.43 in 1915. When the receipts of a postoffice aggregate $40,000 annually the office becomes first class. At present the Kendallville office is in the second class.

DIES ON TRAIN.

Kendallville Woman Fatally Stricken on Way to Fort Wayne.

Kendallville, Ind., Jan. 5.—Mrs. Alonzo F. Strong, 55, a resident of this city for the last fifteen years, died very suddenly at the union station yesterday morning shortly after 11 o'clock, death resulting from an attack of heart trouble.

In company with Mr. Strong, she had boarded the southbound G. R. & I. train when she was attacked with a fainting spell shortly after the train left the station. The conductor was asked to stop the train and it was backed up to the station and the sick woman was carried inside the waiting room. A physician was summoned, but upon arrival found life extinct.

MARKLE RESIDENT DEAD.

Markle, Ind., Jan. 5.—Josiah Roush, aged 75, a long-time resident of Markle, passed away at his home in Markle Wednesday afternoon at 4:30. Mr. Roush had been sick almost a year, but had been able to be about the town, until a week ago, when he became worse and was confined to his bed until his death. Mr. Roush had been one of Markle's leading citizens for a number of years, working several years as a contractor and builder, later becoming the proprietor of Markle's first tie-barn. He was a civil war veteran and a member of the Markle G. A. R.

BIG DAMAGE SUIT.

Auburn, Ind., Jan. 5.—Suit for $25,000 damages was filed in the DeKalb circuit court yesterday on change of venue from Allen county. The case is brought by George Middleton against Charles and Frank Hilker, lumber dealers of Fort Wayne, for alleged injuries received when, as a driver for the Berghoff Brewing company, he was caught between the ceiling of one of the defendants' buildings and the driver's seat and permanently injured. When the case was tried in the Allen circuit court the jury disagreed.

BREAKS ANKLE IN FALL.

Auburn, Ind., Jan. 5.—Mrs. Anna Purviance, of North Van Buren street, who fell down cellar late Wednesday afternoon and broke mer ankle, was resting somewhat easier Thursday. About 5 o'clock Wednesday afternoon Mrs. Purviance, who is past seventy, started down cellar to get some canned fruit for supper. The entrance to the cellar is outside the house and her daughter, Miss Rena, had cautioned her mother not to go down, especially since the cold and icy weather has been here.

NEARS COMPLETION.

Warsaw, Ind., Jan. 5.—Warsaw's new Carnegie library building is now nearly completed. Such is the information gleaned from the notice given by the library board today, to the effect that beginning next Saturday the basement of the new building will be open to the public, and on each succeeding Saturday, until the completion of the building, which will be in a few weeks.

NEW SCHOOL HOUSE SITE.

Pierceton, Ind., Jan. 5.—At a meeting of the township advisory board negotiations were finally completed for the purchase of the McNamara tract just east of the present school site. This tract consists of ten lots and extends to First street. The price paid was $1,000. This, with the present school ground, will make about four acres now included in the school site.

TWO PNEUMONIA DEATHS.

Columbia City, Ind., Jan. 5.—Pneumonia caused the deaths of two residents of Whitley county yesterday. Mrs. George Steel, of Richland township, passed away after an illness of eight days. Mrs. Lavina (Pence) Richey, of Churubusco, died yesterday afternoon after an illness of only a few days. Samuel Curtis, of Fort Wayne, was a brother of Mrs. Steel.

SEEKS DIVORCE AFTER 20 YEARS

Warsaw, Ind., Jan. 5.—After twenty years of married life, Mrs. Louisa A. Middleton has filed suit asking for a divorce from Jonas Middleton. Extreme cruelty is charged. Mr. and Mrs. Middleton are the parents of seven children ranging in age from 2 to 18 years.

FEWER PRISONERS IN 1916.

Auburn, Ind., Jan. 5.—The number of persons received as prisoners at the county jail during the year 1916 was much less than the number for the year 1915. The total number received for 1916 was 122; for 1915, 208, a falling off for last year of 86.

RECEIPTS TOTAL $16,957.

Hartford City, Ind., Jan. 5.—The annual report of the Hartford City postoffice shows a gain in receipts amounting to $167.88 for the year 1916, over the year previous. A total amount of $16,957.35 was taken in through the local office during the year.

No More Constipation, Biliousness, Headaches

In Half an Hour a Wineglassful of Tollo Water Flushes the System, Makes You Feel Fine.

You live indoors and don't get enough exercise. Nature must have some help to keep the bowels regular and the liver active. Tollo Water from Dawson Springs, Kentucky, is Nature's own laxative and liver aid. It expels the waste from the stomach and bowels quickly and gently and makes you feel fine right away.

Bilious attacks, headaches, dizziness, bad breath, coated tongue, pimply, sallow complexion, indigestion and most cases of nervousness come from decaying waste in the bowels.

Get a 15-cent bottle of Tollo Water from the drug store and take a third of a tumblerful in a glass of plain water before breakfast. Its quick and gentle action will surprise and delight you. Take it regularly for a few days to thoroughly cleanse the system. MERCHANT HELPING BOYS TO MAKE GOOD

Los Angeles Man Opens Hundreds of Bank Accounts at New Year.

Los Angeles, Cal., Jan. 4.—What's better than to start the new year with a bank account? F. B. Silverwood, a merchant prince of this city, opens savings accounts each holiday season with a dollar apiece for 500 deserving boys. Indeed, the number most always exceeds 500; sometimes it runs as high as 800.

The accounts are opened in the names of boys who work as newsies

F. B. Silverwood.

on the various daily papers, or who are recommended by reputable charity organizations of the city.

The only stipulations that go with their bankbooks are that the dollar deposited by Silverwood must remain for a period of five years, that the sum must be added to during the course of each year, that Silverwood may be privileged to add to it also if he sees fit, and that only in case of sickness or death is the money to be withdrawn.

"Under the urge of my system," says the merchant, "a sum totaling $50,000 has been saved by energetic Los Angeles boys. In many cases, the starting of accounts for these boys has laid the cornerstone of their prosperity."

Silverwood takes great interest in "his boys," and once a lad has become his protege he is well launched on the highway of success, providing, of course, that he is ambitious and makes an effort to advance himself.

Once a boy has saved several hundred dollars and desires to invest it to better advantage, Silverwood often acts in an advisory capacity, and initiates the potential capitalist into the intricacies of business.

As an incentive to the youngsters whom he has launched in the world of finance, the merchant keeps an honor list which he calls his "blue ribbon roll." The twenty-five boys who make the largest individual savings during the year are packed on the "blue ribbon roll." The sum saved by the honor roll during 1916 aggregated over $4,000. One boy put away over $400, while the smallest saving amounted to over $50.

Frequently misfortune befalls the lads who have been taken under the Silverwood wing. The gaunt spectre of poverty is ever stalking on their trail and if sickness enters their households, poverty is quick to pounce down.

Thus the Good Samaritan amongst merchants takes advantage of the proviso which permits him to add further to the afflicted one's bank account whenever he sees fit. If the case is deserving there is always a strange inflation of the needy person's bank deposits. This procedure prevents many a worthy boy from toppling into the abyss of poverty-stricken oblivion.

It was five years ago that F. B. Silverwood began his practice of starting accounts for deserving boys. The book, with a box of candy, is handed to the youthful holder of the account as a Christmas present. This gives him opportunity to complete necessary formalities at the bank and to be in a position to begin increasing the initial dollar by New Year's day.

During the course of the five-year term that the original dollar is on deposit, Silverwood adds another dollar to each account every Christmas. And each depositor is also given a box of candy. It took 7,800 pounds of candy to go round this season.

If the holder of the account has increased his savings during the year, he receives a letter of commendation from the merchant prince, and if he has failed to add to the original dollar, and there is no good reason why he should not have done so, the depositor receives a letter setting forth the benefactor's disappointment and expressing the hope that greater endeavor will be indicated the coming year.

MOVES TO GAUNTT BUILDING.

Wilwood Companies Find Present Quarters Are Too Small.

Because of their rapid growth and the need of more adequate quarters, the Wildwood companies have leased the ground floor of the Gauntt building at Berry and Webster streets, and will move to the same by the fifteenth of this month. The various Wildwood companies comprise the Wildwood Magazine company, the Wildwood Sales company, the Wildwood Builders' company and the Wildwood Engineering and Construction company. They are now located on the seventh floor of the Shoaff building.

CONVENTION CLOSES.

Three days' convention of the Economy Cattle and Hog Powder company came to a close Friday afternoon with a banquet at Unity hall. There was a program Thursday afternoon of an informal nature, including discussions by the farmers of betterment of the hog raising industry. Thursday night a theater party was given at the Palace theater for the salesmen, managers and farmers attending.

White Women Conquer Inca Tribes With Kindness as Only Ammunition

American Mother and Brave Daughter Tell of Dangers of the Southern Jungles on Gold Hunting Expedition.

Oakland, Cal., Jan. 5.—Three years afoot in the wilds of South American jungles on a gold-hunting expedition that brought no gold, but ended in a conquest of the last tribes of the Inca Indians, forms the unusual adventure of an American mother and daughter.

Safe once more in their home here, Mrs. D. E. Young and her daughter, Helen, 16, are recounting to friends their astonished experiences in a region where white women had never before dared to venture.

Braving the danger of deadly tropical fevers; being lost in swamps infested with poisonous snakes and living alone for a year in a mountain-walled camp, surrounded by Indians, are some of the features of their interesting journey.

Pizarro, mad with a desire for gold, ruled the Incas with a terrible hand. These two—the mother and girl—did not attempt to repeat the history of the Spanish conqueror. They replaced cruelty with kindness in their dealings with the Indians and came out of the land alive.

Mrs. Young and Helen went along with D. E. Young, husband and father, veteran mining man, who was prospecting for gold. Young and his wife decided the trip would be a liberal education for their daughter.

"Once we were established in our camp at the head waters of the Amazon, we realized that our lives depended on the good will of the Incas," said Mrs. Young. "We were nearly a thousand miles from the coast and a difficult walk of weeks lay between us and civilization.

"We were nervous at first. Only a few of the bolder Inca men came near our tambos or huts. They carried sharp-bladed machetes which looked startling to us. Later we learned they were used to cut paths through the tangled jungles and for defense against vicious animals.

"We learned one day that the old chieftain of the tribe had been bitten by a snake. Wishing to show our friendliness, Mr. Young sent him some permanganate of potash and chemicals to treat the wound. We realized then that if the chief recovered he would be our friend. BUT IF HE DIED his tribesmen would consider that we had killed him with 'bad magic.'

"No word came from the chief. But a week or two later Helen discovered nearly thirty families of Indians winding down a trail to our camp. It was a trying time, for we did not know wether their errand was one of peace or war. All we could do was to wait. We noticed that each Indian carried something in his arms, but we didn't know.

"As they came silently at our feet we sighed with relief. They had come as friends. They brought pineapples, sugar cane, camotes or sweet potatoes, a multitude of things to eat and baskets and utensils of native make. They had declared a fiesta in our honor.

"After the line of Indians had filed past, the chief, cured of his snake bite, stepped forward and made a short speech.

"'A little regala (present) for the Gringos,' he said. 'You come with good magic. It pleases us.'

"Then they danced—danced for nearly three hours to the tune of weird flutes and drums. After the dance the women and children inspected Helen and me, making remarks about us and our clothing that we could not understand. But we seemed to astonish them, for they appeared awed as they felt of our dresses. We were the first white women they had ever seen.

"That was the beginning of our conquest in which we used only kindness for ammunition. Many times during our stay in their country the Indians showed us they appreciated our policy of friendliness and the simple presents we scattered among them."

MISS HELEN YOUNG riding a llama in the Peruvian wilds camp where the Youngs stayed for three years. The llama is used as a beast of burden on the mountain trails leading into the interior. This one is a pet, a gift to the girl from an Inca chieftain.

JANUARY RAIN PUTS BLINK ON MARKETS

Receipts at City Scales Total One Load for Friday Morning.

January rains usually have lasting effects on possibly every phase of business and Friday morning the Fort Wayne markets suffered. Grain dealers state that the receipts stood at zero, while the city scalemaster went one better and said he weighed one load of corn for his morning's salary. This one load of corn sold for 91 cents a bushel.

Grain markets locally as a result were quiet and inactive. Wheat showed no life and prices were allowed to remain at the same level of the day before. The top price remains at $1.80 a bushel, while a few of the millers offered $1.78.

All other markets were very quiet. The hog market is holding steady with the price at 10 cents a pound. High prices have failed to bring the receipts in hogs up to normal. It is said that the farmers are keeping the hogs for their own use.

CHICAGO GRAIN AND PROVISIONS.

Chicago, Jan. 5.—Likelihood of moves for a peace parley had a dominating bearish influence today on the wheat market. Opening prices, which ranged from 1c decline to ¾c advance, with May at $1.83¼@1.84 and July at $1.50@1.50½, were followed by a slight general hardening of values and then a descent all around to well below yesterday's finish.

Increasing export call gave strength to corn. After opening ⅛c to ⅝c higher, the market continued firm despite the weakness of wheat.

Oats traders took their cue from the wheat pit rather than from the action of corn.

THE DAY ON WALL STREET.

New York, Jan. 5.—Further pressure was brought to bear against active stocks at today's opening, presumably as a result of the various peace negotiations now under discussion. United States Steel added 1½ points to yesterday's more severe setback, with losses of 1 to 2 points in other industrials, equipments and munitions. Coppers, motors, Atlantic Gulf and West Indies and other less prominent issues also proved susceptible to moderate offerings with the sugar group, Industrial Alcohol, Central Leather and International Paper. Rails were dull at fractional declines.

The extremely professional character of the early trading was indicated by the erratic movement. Initial declines soon gave way to general recoveries and some material gains, notably in Reading, Mexican Petroleum and beet sugar, but these were speedily sacrificed in another setback. Steel had the second rebound toward midday, more than retrieving its opening loss, but Bethlehem Steel fell 15 points. Rails came forward on a fair inquiry for standard issues, including transcontinentals and grangers, but coppers lagged. Bonds were irregular.

POLAND'S REGENT VERY DEMOCRATIC

Archduke Charles Stephen Demonstrates This Side of His Character.

Warsaw, Dec. 15.—(Correspondence of the Associated Press.)—By those who know him, Archduke Charles Stephen, cousin of the late Emperor Francis Joseph, who has been selected as regent of Poland, is considered a most democratic sovereign, gifted with common sense, ability and personal charm. Conditions under which the Associated Press correspondent recently made his acquaintance illustrates the democratic side of his character. The correspondent was calling upon a friend at one of the lesser hotels in Vienna when a knock at the door was heard and without further formality a tall officer entered, shook hands, shed his overcoat, which he threw on a bed, and embarked in informal conversation. It was Poland's future sovereign who had thus made his way to the hotel room without even calling the services of an attendant when he learned that a correspondent of an American news agency was there.

The archduke conversed with the greatest cordiality, displaying an intimate knowledge and keen interest concerning conditions of American life, and volunteered his assistance to facilitate the newspaper man's work. He was particularly impressed with the importance of the press in America and lamented the fact that the newspapers did not play such a role in Austria-Hungary. He voiced as well as manifested his belief in democratic customs and declared that he had deliberately urged two of his youngest sons, who had graduated from the Austrian Military academy the day before, to take commissions in ordinary line regiments instead of in one of the favorite guard organizations. In the thick of the fighting in the Carpathians the archduke has been living as simply as his subalterns, learning at first hand the environment of the officers and soldiers from the ranks of his people. His two sons have followed his suggestion, like their elder brother, Charles Albert, and have entered line regiments, the Thirteenth Uhlans.

OFFICIAL FORECASTS

For Fort Wayne and vicinity (radius 20 miles): Fair tonight and Saturday, colder with a cold wave tonight; colder Saturday.

For Indiana: Fair tonight and Saturday, colder with a cold wave tonight; colder in east and south portions Saturday.

For Ohio: Rain this afternoon; fair and much colder tonight and Saturday with a cold wave.

For Lower Michigan: Snow this afternoon; clearing and much colder with a cold wave tonight; Saturday fair and colder.

Shippers' Forecast (radius 300 miles): Protect shipments during the next 24 to 36 hours from temperatures as follows: North and east, 10 degrees; south, 10 to 25 degrees; west, 10 to 0 degrees.

WEATHER CONDITIONS.

During the last 24 hours the southwestern depression moved northeastward and this morning it is centered over the Ohio valley and lower lake region. Another depression is moving southeastward over British Columbia. A fair weather condition occupies the southern Rocky mountain region. Since Thursday morning rain has occurred quite generally in the Mississippi and Ohio valleys, and lower lake region, and also in northwestern sections, with heavy falls in the lower Ohio valley. The weather is somewhat warmer in the upper Ohio valley and in the far northwest, but in the west Gul states and thence northwestward over the Plains region the temperature has fallen decidedly.

Automobiles and Sundries

A $361 car, plus $15 freight, plus $20 for electric starter, plus $10.70 for changing from 3-inch to 3½ inch tires, and, if you want demountable rims add about $20 more. Shock absorbers would cost another $10 to $20; a mohair top costs $25 to $30. Oh, yes, a ventilating wind shield is $10. Change your lamps for lamps with dimmers is another outlay of $6 or more. Now you have parted with about $550 and still have a $361 car, without a speedometer. So, why not buy a

CHEVROLET

The Chevrolet has electric lights, electric starter, all 30x3½ non-skid tires; has a mohair top and ventilating wind shield. Yes, it has dimmers in the headlights. The Chevrolet, too, has a long wheel base and costs only $515, with a speedometer, delivered in your city—a saving of $35 over the $361 car. The Chevrolet has four cantilever springs and does not need shock absorbers.

CHEMISTRY AIDS IN BOYS' SCHOOL PRANK

Limburger Cheese Not in It With Ammonium Valerate.

Strategy of the European war has given new impetus to the ancient boyish prank of breaking up school. Powerful gases, which drive helmeted defenders of trenches from their stronghold, can be employed to send teacher and pupils hurrying out of doors. A chemical has been found by the modern boy, which beats limburger cheese, rubber and other crude methods of our long, lost youth all to pieces.

The Hoagland school, Hoagland and Butler, was the victim Thursday afternoon. Two former pupils, who graduated from school last year, were the aggressors. One of the lads is now in high school and his companion in business college.

The high school youth had learned about the nature of gases used in the European war. He had copied down the name of one of the chemicals employed in evolving the stifling gas.

It was amonium valerate. He bought a nickel's worth at a drug store. It is in crystal form. When the pair made a brief call at their alma mater, Thursday afternoon, they sprinkled the chemical behind a radiator. Then they left.

Heat of the radiator melted the mineral. What followed caused pupils to leave their seats. Teachers dismissed school for remainder of the day.

But the boys told somebody. Principal Price told police. Detective Sergeant Junk located the boys and they confessed, Friday.

They were engaged Friday afternoon in scrubbing the floor in the region of the radiator in an effort to remove all traces of the chemical. They will not repeat the act.

Police have sent out the order that no druggists shall sell ammonium valerate to school pupils. Business men disregarding the order will be prosecuted, Lenz said. Boys who try to buy the chemical will be arrested.

Limburger cheese is still on the market, but it is not nearly so effective.

Indianapolis, Jan. 5.—The house patronage question today was taken care of by the appointment of a patronage commitee, composed of McClaskey, of Lagrange, McGonagle, of Muncie; Southard, of Michigan City; Houghton, of Shoals, and Kessler, of Peru, which will report a complete list of employes Monday morning.

STEPS FROM BOX CAR TO FLAT CAR IN DARK

Harry Clements, Brakeman on Nickel Plate, is a Patient at Hospital.

Thursday evening about 8:30 o'clock when the darkness was nearly impenetrable, Harry Clements, a brakeman on the Nickle Plate railroad, stepped from a box car and fell to a flat car, a distance of eight feet. He was taken to St. Joseph's hospital, where it was discovered that he was suffering from a badly sprained ankle and back.

The freight train had started west on a trip and Clements was on his way back to the caboose. He was walking along while the train was in motion. He was aware that there were several flat cars in the make-up of the train, but did not think that he was near them.

He states that he was watching for the flat cars. He came to the end of a box car and the outline of another box car appeared before him in the darkness. However, when he made the step across the gap between the cars, he felt himself going through space and he fell on his back on the flat car.

The accident occurred just as the train was crossing the St. Mary's river and Mr. Clements had a narrow escape from falling from the car to the river below. His condition is not regarded as serious.

TUMULTY'S NAME IS DRAWN INTO "LEAK" PROBE

WOOD SPRINGS A SENSATION

Letter from New York Basis of Lafayette Man's Testimony.

HE DECLARES HE IS MAKING NO CHARGES

Rumor Involves President's Secretary and Brother of Mrs. Wilson.

Washington, Jan. 5.—Smouldering rumors that somebody made money in the stock market with "leak" information about the sending of President Wilson's peace note blazed up at a sensational session of the house rules committee today at its first hearing on Representative Wood's resolution for investigation.

Specifically declaring he made charges against no one and was presenting only information that had come to him, Wood brought in the names of Joseph P. Tumulty, "a Mr. Bolling," a brother of President Wilson's wife, whom he did not further identfy; Bernard Baruch, a New York stock operator; Otto H. Kahn, of Kuhn, Loeb & Co.; Thompson & McKinnon and Lamson Brothers & Co., Chicago brokers, with a branch office in Lafayette; E. F. Hutton & Co., New York brokers, and F. A. Connelly & Co., a local brokerage house, in which Wood said the "Mr. Bolling" he referred to, was a partner.

Much of his information, Wood said, came in a letter from A. Curtis, an independent New York stock operator.

Wood disclaimed intending to give the impression that he believed that Mr. Tumulty or any one else for that matter, profited by the so-called leak; that he was merely stating what had come to him; that he realized danger of making such statements in public and for that reason he had preferred to make his statement in secret session which the committe denied.

Will Appear Without Subpoena.

At the conclusion of today's session, Chairman Henry announced that Secretary Tumulty would appear without subpoena and that subpoenas had been ordered for Curtis and Baruch. Representative Gardner of Massachusetts, who joined in Wood's agitation for investigation will be heard tomorrow and Thomas W. Lawson will be heard Monday.

"I am informed," Representative Wood testified, "that Barney Baruch had information about the note to the European belligereuts two or three days before it was sent and that on two or three occasions at about that time he was in consultation with Mr. Tumulty at the Baltimore hotel in New York.

He also mentioned the name of the Lamson Brothers, branch brokerage office in Lafayette, as having received advance information. Representative Bennett, of New York, a member of the committee, said on the house floor Wednesday, that Baruch was reported in New York to have sold short 15,000 shares of steel, on a rising market shortly before the note was made public.

Objects to Public Hearing.

At the outset of the hearing Representative Campbell, of Kansas, moved to subpoena Secretary Lansing, Secretary Tumulty, Baruch and Thomas W. Lawson. He was prevailed upon by other members to withdraw his motion, but he said he would make it again later.

Representative Wood objected strenuously to testifying in public. What information he had regarding the so-called leak, Representative Wood said, was only heresay and he feared that a public statement would interfere with the work of a committee in obtaining witnesses. Representatives Chiperfield of Illinois, Ford of Illinois and Harrison of Mississippi

SEES REMEDY NEEDED IN PAPER SITUATION

Fruits of Recent Inquiry Now Before Attorney General.

Washington, Jan. 5.—Attorney General Gregory had in his hands today the fruit of the federal trade commission's inquiry into the news print paper industry, with the intention of instituting civil and criminal actions if it is found a paper trust has been formed.

"I know, of course, from what has already been brought out," wrote the attorney general to the trade commission, referring to the commission's investigation, "that a serious condition exists in this trade and that any remedy which the law may afford should be applied at once."

President Wilson is said to be interested in the paper situation. The committee expected to report to congress within a few days the result of its inquiry.

SESSION IS A BRIEF ONE

After Less Than One Hour Legislature Adjourns Until Monday.

TRIBUTE TO LATE SENATOR RINEAR

Both Indiana Houses Will Attend Goodrich Inauguration Monday.

Indianapolis, Ind., Jan. 5.—With the adoption of a tribute to the memory of the late Senator Elias M. Rinear, who represented Blackford and Wells counties in the upper house at the last session and the transaction of routine business in the house the general assembly adjourned today after being in session less than one hour and both houses will resume Monday morning.

Senator Abram Simmons, of Bluffton, presented the memorial to former Senator Rinear, and Senators Gemmell, Reser and Humphreys gave brief eulogies. Although of opposite political faith Senator Gemmell paid high compliment to ex-Senator Rinear as a public servant. Senator Reser referred feelingly to Mr. Rinear's concern for the soldiers and Senator Humphreys dwelt upon his worth as a citizen.

Upon motion the senate adjourned to 9:30 o'clock Monday morning, when

HER DIVORCE CASE BRINGS BACK VOICE

Topeka, Kas., Jan. 5.—After being totally deaf and dumb for sixty-eight years, Mrs. Cordelia Kirkpatrick, 72 years old, became so excited at the trial of her suit for divorce that her voice was restored almost completely and she is able to hear.

Her attorney had worried along several minutes trying to get Mrs. Kirkpatrick's testimony through the sign method. Suddenly the woman leaned forward in the witness chair and in a low voice she began to speak.

"I believe I can talk," she said.

Then her attorney shouted a few questions in her ear and it was demonstrated that she had recovered her hearing. The husband is fourteen years younger and also deaf and dumb, but when he took the stand the excitement did not restore his voice or hearing.

MAN'S BODY IS LEFT-HANDED BOTH INSIDE AND OUT, ANATOMISTS FIND

St. Louis, Mo., Jan. 5.—The body of William King, which has been preserved for twenty months is described by anatomists as "left-handed both inside and out," according to a statement made public today at the city hospital. On May 8, 1915, King, who was 35 years old, applied at the hospital for treatment. He said he was a laborer and had lived most of his life in Wisconsin. He was suffering from typhoid fever.

When asked who should be notified in case of his death, King said: "Don't worry about that. Just cut me up and examine my body. There's something wrong with me besides the fever." He died a few days later.

When surgeons made an examination of the body they found one of the most abnormal cases in in the history of surgery. The heart was on the right side, the liver on the left; the appendix was on the left side and the spleen on the right. The stomach was turned around completely. On the left lung was three lobes, the right lung had but two. The left kidney was larger and lower than the right one.

CHILDREN VICTIMS OF TORNADO'S FURY

Eleven Dead After Storm Wrecks Schoolhouse in Oklahoma.

Muskogee, Okla., Jan. 5.—A total of eleven dead and the injury of a number who are expected to die was the report today from the district which was swept by a tornado yesterday. All the dead were school children ranging in age from 6 to 18. The loss of life and the bulk of the property damage occurred in the valley town of Vireton, Okla., thirteen miles northwest of McAlester.

Preparations were being made for the noon dismissal of the country school here when the tornado entered the valley and swooped down upon the village. The school house was carried off its foundation and screaming children and timbers were hurled through the air by the fury of the wind.

Bodies Hurled Far.

Bodies were picked up a hundred yards from where the school house stood, they being blown across a ravine and well up on the opposite hill side.

Of the twenty-nine persons within the building only two escaped injury. Four are believed to be so badly injured that they cannot recover. The teacher, Miss Vera Carter, at first believed to have been killed, sustained a double fracture of the jaw besides other painful injuries. She is expected to recover. The Chociaw Indian mission at Vireton was destroyed and virtually all the residences suffered from the storm.

Other Regions Suffer.

Before reaching Vireton the tornado struck at Richsville, Okla., seven miles southwest, wrecking a boiler room and a tipple at a coal mine there. It then lifted and did no further damage until Vireton was reached.

Quinton, Okla., twenty miles north of Vireton, also suffered from the Tornado. Seven persons were injured and five houses were destroyed by its activities there.

What is believed to be the same tornado, caused damage estimated at $50,000 at Success, forty miles north of Little Rock, Ark., and caused severe losses of property at both Dardanelle and Danville, Ark.

The tornado by its peculiarity of jumping from town to town resembled greatly the one which two weeks ago struck central Arkansas, causing the loss of seventeen lives.

WANTS TO BE CERTAIN HE'S NOT AN ANARCHIST

Chicago, Jan. 5.—The clerk of the United States court in Chicago is waiting today for John Burrows Collings-Woods, formerly of Hartlepool, Eng., to determine whether or not he is an anarchist. Mr. Collings-Woods expressed a desire to declarer his intention to become an American citizen, but handed back the blank form after reading it.

"I don't know whether I'm an anarchist or not," he said. "I'll go home and think over the matter and if I decide I am an anarchist I'll not come back."

The form supplied in such cases asks: "Are you an anarchist, a bigamist or a polygamist?"

DISCOVERER OF X-RAY TO SPEAK AT BANQUET

Dr. A. L. Foley to Attend Annual Meeting of I. U. Alumni Association.

Dr. A. L. Foley, head of the physics department at Indiana university, a man of world-wide reputation, will be the principal speaker at the annual banquet of the Allen County I. U. Alumni association, which will be held at the Wayne hotel, Friday evening, January 12.

Dr. Foley is a very interesting speaker. He worked on the invention of the X-ray for several years and when he applied at the patent offices of the United States he found that the French inventors had secured a patent ahead of him on the same machine.

Arrangements are being made by the committee in charge of the banquet to accommodate one hundred and fifty guests. Several other local men will give brief addresses, including Prof. Louis Ward, who is president of the association. Old college songs and yells in honor of their alma mater will also be on the program.

It was the plan of the committee to hold this annual event at the Y. W. C. A. Building, but this plan has been changed and the Wayne hotel was secured. Officers will be elected for the coming year.

GOVERNMENT UPHOLDS KING.

Greece Will Reject Some Clauses of Entente Demand.

London, Jan. 5.—The Greek government, acting in harmony with the king, has decided to reject certain clauses of the entente note demanding reparation in consequence of the recent fighting at Athens, Reuter's correspondent at Athens telegraphs.

Today's War News Given in Summary

The Rumanian Danube port of Braila, important as a granary and oil storage depot, apparently is in imminent danger from the converging attacks of Field Marshal von Mackensen's forces on both sides of the Danube. On the westerly side of the stream, where Braila lies, the bridge-head position protecting it has been pierced by the Austro-German forces, according to today's German army headquarter's statement.

To the east across the river in Dobrudja the German and Bulgarian forces which captured the Matchin bridgehead, are continuing their advance towards the town. This forward movement, moreover, threatens not only Braila, but the town of Galatz, twelve miles to the north, the capture of which would deprive the Russians of virtually their last hold on the shores of the Danube west of the Bessarabian boundary.

Von Mackensen's attacks on the frontal line of the Sereth, running northward from Braila, to which line the Russo-Rumanian forces have retired, are progressing successfully, according to Berlin, which reports the capture of two additional towns in the Rimnik Sarat sector.

FEARS OF FLOOD ARE ALLAYED BY FORECAST

River Will Not Rise Any Higher Than Ten Feet Says Weatherman.

People residing in the lowland districts of the city whose fear of a flood have begun to rise with the slowly rising river need not be alarmed as the weather man states that there is absolutely no danger and that the waters will not rise any higher than ten feet.

Thursday afternoon the reading was 3 feet, while during the night it rose to 4.6. An inch of rainfall would send the river up to 8.6 feet and counting in the latent waters it is possible that the highest point that the water would reach is 10 feet.

The forecast for this district is encouraging in that respect as it is to stop raining by Friday evening. The forecast reads fair tonight and Saturday. However, in the same message comes the statement that a cold wave is on its way which may send the temperature down as low as 10 degrees by Saturday morning. Strong northwest winds are to be encountered.

A report was circulated late Friday morning that an ice jam had formed near the Columbia street bridge. Investigation proved such not to be the case.

BASS BUILDING WILL BE BEGUN NEXT SPRING

When the reign of Jack Frost comes to a close next spring ground will be broken for the four-story Bass building which will be erected on East Berry street just east of the entrance to the Majestic theater. Architect J. F. Wing states that plans are complete for two stories of the new commercial building and that the plans for the other two stories will be finished before spring. The new building will be a modern one in every respect and will be 75 feet wide and 100 feet long. This is one of many large buildings which will be erected next summer.

BERLIN TO RESPECT SWISS NEUTRALITY

Berne, Switzerland, Jan. 5.—The Bund prints a note from the German legation with the object of dispelling fears aroused in Switzerland by rumors that Germany intended to strike at France and Italy through this country.

The note says: "We may once more declare that, as all Swiss know, Germany is firmly resolved to strictly respect Switzerland's neutrality."

PIONEER PHYSICIAN DIES.

Terre Haute, Ind., Jan. 5.—Dr. E. T. Spottiswood, one of the oldest physicians in the state and who as a member of the legislature in 1858, introduced the resolution which resulted in the building of the Indiana state normal school here, died here today of old age. He was a surgeon in the union army during the civil war.

THINKS $25,000,000 SPENT ON ELECTIONS

Owen Cites One Instance of $300,000 Given to Influence Result.

Washington, D. C., Jan. 5.—The corrupt practices bill, pending in the senate was the general subject of discussion at a conference of the National Popular Government league which opened here today. Senator Owen, of Oklahoma, author of the bill and president of the league in an address characterized the present federal law requiring publicity for campaign contributions as "quite worthless," and estimated $25,000,000 had been spent in 1916 for influencing elections.

"I have been advised of an instance in the last election," he said, "at which one citizen gave $300,000 to another citizen holding high public office and to which no publicity was given or intended to be given.

CALL LEWIS GIRL SLAYER

Police Believe His Suicide Clears Up Mystery of Model's Murder.

MOTIVE ALONE YET TO BE DISCOVERED

Second Tragedy Apparently Solves Philadelphia Sensation.

Philadelphia, Pa., Jan. 5.—Detectives at police headquarters here announced today that the suicide of Bernard W. Lewis, of Pittsburg, in Atlantic City last night, when he was trapped by the authorities of that city, solved the mystery surrounding the murder of Maizie Colbert, whose body, clad in violet silk pajamas, was found in her apartment here late last Saturday night.

The only thing that remains to be done, they said, was to find the motive for the crime. The police discard the theory that a third person was present in the Colbert apartment when the murder occurred. A theory was that one man was in the Colbert apartment when another man came in unannounced; that one of the men immediately left and that the one who remained quarreled with Miss Colbert and the killing followed.

While the police say they are convinced that Lewis was the man responsible for the death of the girl, they are not ready to believe that the crime was premeditated. It is their belief, they say, the tragedy was the result of a quarrel either over jewelry, money or jealousy aroused by the attention of other men.

Miss Ethel and Mabel Kyle, the public school teachers, who had known Lewis for a year and who furnished his name to the police when they learned that he had become connected with the case, were still suffering from shock today over the murder revelations and the suicide of their friend.

Lewis' Hair Matches Locks Found in Dead Girl's Grasp.

Philadelphia, Pa., Jan. 5.—Circumstantial evidence which the police say convinces them that Bernard W. Lewis, son of a wealthy retired Pittsburg coal operator, who ended his life in the Atlantic City hotel last night, was the slayer of Maizie Colbert, the artist's model, was revealed here today by an examination of the young man's body.

Lewis was positively identified by Elwood Powell, the chauffeur who drove him and the Misses Ethel and

STATE TREASURY IS BULGING WITH MONEY

Indianapolis, Jan. 5. — More money was in the state treasury December 30, 1916, than at any previous time in the history of Indiana, according to figures announced by George A. Ritter, state treasurer. There is no state debt, and the state debt sinking fund on that date amounted to $322,622.69, to which will be added revenues for sinking fund collected this year.

The total balances in the treasury on December 30 was $5,705,340, of which $1,825,907 was in the general fund and $1,744,480 in the school revenue and tuition funds. From unclaimed estates there is a balance of $107,331.65 in the treasury.

TYPHOID GERM CAUSES ALARM

Many of Them Are Found in City Water by State Chemist.

FEVER PLAGUE IS GREATEST FEAR

Several More Samples Are Taken Back to Indianapolis for Analysis.

Many typhoid fever germs were found in the last samples of city water analyzed by the state chemistry department, says J. C. Diggs, state chemist, who was in Fort Wayne, Friday, to make personal investigation of water conditions here.

Colon bacilli, the typhoid organism, was present in the water samples to a degree that a fever plague is sure to sweep the city unless utmost precaution has been taken since pollution first appeared, Diggs says.

Change in condition of the city water came suddenly, the chemist tells. Samples submitted to the state department for the past two years have been found to be in excellent state, from a health standpoint, until examination was made of the last two shipments, Diggs says.

Unhealthy water had not been coming gradually, it fairly sprang into existence, Diggs gives out.

"This makes the situation the more critical," the state chemist says. "There is more danger from a water supply that changes from good to bad than from one which is always bad. The first condition is the more treacherous. It finds people unguarded. They think the warning of bad water is only a scare. They do not take all the precautions that would be followed if the water supply was known to be constantly unhealthy."

"Boil the water," Diggs emphasizes. "There is no danger of disease plague if the water is cooked thoroughly to kill organisms. Other foreign substances, which might be in the fluid, are not injurious to health."

"Boil water used in washing of fruit, potatoes or other vegetables. Boil the water used to cleanse salads. Boil all water which will be taken into the body," Diggs orders.

Visited Pumping Stations.

The state chemist, accompanied by Deputy Sanitary Officer William Brown, visited the three pumping stations, which drive the city water into the mains. Diggs took samples of the water at each of the plants. He carried the samples, sealed in air tight bottles, to Indianapolis when he returned to the state capital at 12 o'clock Friday.

Diggs will ascertain whether all city water is contaminated or only the liquid which comes from the No. 2 station.

Diggs also took samples of river water and a bottle of water from the city reservoir. There is no apparent danger of contamination from the reservoir, Diggs says. There is no chance for the kind of sewage, which would menace health, getting into the big basin unless that sort of refuse is deliberately carted to the top of the concrete container, Diggs says. None of that kind of refuse has been found in the basin.

RUSSIAN BRIDGEHEAD POSITION IS PIERCED

Teutonic Armies Win New Point in Progress Toward Braila.

Berlin, Jan. 5.—The Russian bridgehead position before Braila was pierced yesterday by Teutonic troops, the war office announced.

Four Rumanian towns were captured and 1,400 prisoners were brought in.

ARTILLERY FIRE ACTIVE.

Paris, Jan. 5.—There was active artillery fighting last night on the Verdun front in the vicinity of Douaumont and Vaux, the war office announces. Elsewhere the night passed quietly.

Official reports from the Macedonian front issued here today say that engagements occurred on Wednesday morning among advanced posts in the sector held by the Serbians.

The torpedoing by a submarine of the Greek steamship Siripiros is reported in a Havas dispatch from Corunna, Spain. Twelve men of the crew were saved by the fishing boat San Jose.

NO MORE FREE ADVICE OVER THE TELEPHONE

High Cost of Auto Fuel is Occasion for Boost in Doctor's Fees.

New York, Jan. 5.—A new schedule of physicians' fees showing consistent advances was recommended today by the Bronx County Medical society. Hereafter no free medical advice will be given over the telephone. Conversation with a physician over the wire on non-medical topics is permitted, but if the question, for instance, of the baby's latest ailment is injected a bill for $1 will be forthcoming.

If the physician called to attend one member of a family and some one casually inquires about the symptoms of another member an extra charge will be made. Under the new schedule night calls, or emergency calls by day, will be charged for at the rate of $4 each. If the physician is asked to leave the office before his accustomed time the charge will be $3.

Ordinary calls in day visiting hours will be $2 each and visits to the physician's office will cost the patient $1 each. The high price of automobile fuel is given as the main reason for the advance in fees.

CHANCES FOR LIFE ARE NOT THE BEST

Vern Scott, Residing on Nuttman Avenue, Painfully Burned.

With but a fighting chance for life, Vern Scott, a carpenter, residing at 1226 Nuttman avenue, is a patient at the Lutheran hospital suffering from severe burns over his entire body. The burns were suffered Wednesday morning when he poured kerosene on the kitchen stove fire.

According to reports from the hospital, since he has survived the first crisis he has a chance for recovery unless complications develop. Nearly one-third of his body is covered with large blisters and in some places the flesh is literally cooked. Even the soles of his feet were burned.

It appears that Scott after arising wished to start a fire quickly. He poured kerosene on the smouldering fire and the result was that the flames burst out, igniting his clothing. He fought to extinguish the flames himself but was not successful until his wife and neighbors assisted.

ACTOR'S CONDITION SLIGHTLY IMPROVED

Chicago, Ill., Jan. 5.—The condition of E. H. Sothern, the actor who is seriously ill at a local hotel, with stones in the kidney, was slightly improved today, according to attending physicians. While it is believed that an operation may be necessary, local physicians made no decision pending the arrival of Mrs. Sothern (Julia Marlowe) and Dr. Joseph Bissell, the Sothern family physician, who are expected from New York during the day.

Dr. Bissell performed an operation on the actor more than twenty years ago for the same complaint. Mr. Sothern collapsed then during a performance in Washington, which was attended by the late President Grover Cleveland and Mrs. Cleveland.

JUDGE HOLDS COURT ON SPEEDING TRAIN

Attorneys Make Arguments During Jurist's Trip to New York.

San Francisco, Jan. 5.—United States district court, Judge B. F. Bledsoe of the southern district of California, presiding, is in session today on a Southern Pacific train which left here for the east yesterday. No witnesses are to be examined, it was announced, but attorneys will argue before Judge Bledsoe the advisability of certain evidence in the suits by which the government is seeking to cancel patents on California oil lands acquired by the Southern Pacific company.

For the convenience of witnesses for the defense Judge Bledsoe consented to hold court in New York January 19, and also to hear argument en route to that city. This is the second transcontinental trip taken by the court and its attaches in this case. Sessions of the court have been held in San Francisco, Los Angeles, San Diego, Fresno, Cal., Washington, D. C., and in New York for the purpose of hearing evidence in the case.

TYPHOID GERM CAUSES ALARM

(Continued From Page One.)

from a point near the No. 2 pumping station. The river water will be carefully analyzed. It will be found whether the river water holds the same bacterial properties as the liquid taken from the city mains. By that method it can be reasonably ascertained whether the river water is seeping into the No. 2 wells.

Will Return Tuesday.

Diggs will return to Fort Wayne next Tuesday, he says. He will bring apparatus for setting up an analysing laboratory. He may stay in the city a week. He will try to locate the definite point at one of the stations or in the big line where the contamination of the water enters. He will advise a remedy for the situation. If the deep wells themselves are polluted he will order that new wells be drilled or some other source of supply located. If the fault is in the casings the disorder can be removed by installing new suction pipes, Diggs says.

Blames No. 2 Station.

Diggs thinks, from information which he has received, that the fault lies at the No. 2 station, located near the St. Mary's river on Van Buren street.

He hopes the troubles is from defective casings. He has been told that casings in the wells is of malliable iron. That metal rusts rapidly under certain conditions, he says. Since the contamination of the city water comes suddenly he thinks it very likely that the suction pipes have been rotted out and have allowed surface water to enter near the top of the wells.

It is very probable that the river is finding its way into the wells, Diggs says. This belief is strengthened from the fact that river water would be most likely to contain the quantity of colon bacilli found in latest samples of the city water. Bottom of the river is not frozen as is the surface of the ground and would let the water seep into the underground streams, Diggs shows.

Diggs will return to Fort Wayne the first of next week whether he finds the samples taken on Friday to be either good or bad. If the water is now pure he wants to know why it was polluted last week. The state department will demand a remedy for such a condition, he says.

Diggs advises that drinking faucets be kept closed in all schools of the city and that vigilance be kept over business places where city water might be dispensed. It is the only way to safeguard the city health, he says.

Visits Many Cities.

State Chemist Diggs visits many Indiana cities every year in the interest of the state department. He was called to Noblesville last winter when an ice jam knocked off the top of the city wells and allowed the river water to flow directly into the wells. New caps on the wells proved the remedy there.

Diggs has been in the state chemistry department three years. He aids in testing water supply of 2,000 Indiana cities. He graduated from DePauw university five years ago.

Diggs will take water samples from private wells, especially in the west end, next week if the health board advises such action, he says. Health officials expect to ask for such a test.

Water will not be shut off in any part of the city system unless the condition becomes most acute. There will be no cause for bringing about such a discomforting state if citizens will obey the health order of "boil water," it is given out.

No case of typhoid fever has shown up in the city since the state of polluted water was discovered.

CALL LEWIS GIRL SLAYER

(Continued From Page One.)

Mabel Kyle to their home in Germantown last Thursday night, as the man he later took to Miss Colbert's apartment. Philadelphia detectives, who went to Atlantic City last night, say that Lewis' hair matches that found clutched in the dead girl's hand and that Lewis was found to be wearing a woman's undershirt which corresponds exactly to garments worn by Miss Colbert. A blood stained handkerchief was found in his pocketbook. Lewis left no written statement, however, as far as could be learned.

Regard Mystery as Solved.

In view of these developments, the authorities say they feel that the mystery virtually has been solved. At the same time it was declared, several men who were friends of Miss Colbert and were suspected of having knowledge of the crime will be kept under surveillance until there is absolutely no doubt regarding their connection with the case.

In their efforts to solve the mystery the police had questioned many young men prominent in the social and business life of Philadelphia. Several of them admitted that they had known the girl and some said they had been among her admirers. The explanation of all except two or three was satisfactory to the detectives and their names were not made public.

Maintain Lewis' Innocence.

The Misses Kyle, through whom the police learned of Lewis' identity, maintain that he is innocent of the murder and that he committed suicide because he believed his reputation had been ruined. "Mr. Lewis was the victim of a ghastly blunder," said one of the school teachers.

"I still believe he was innocent. I know that he was an honorable man. He read that he had been drawn into the mystery and ended his life because he had lost hope of extricating himself and because he thought his reputation had been ruined. He had telephoned us every day since the murder occurred, but it was not until late yesterday that he showed any signs of being worried about the affair. He called up three times yesterday and at 4 o'clock, the hour of his last call, he seemed excited, but protested his innocence. 'Isn't this horrible,' he said. 'I don't know what to do to stop this notoriety.' He said that he had placed the matter in the hands of a lawyer and that everything would be all right."

His Arrest Was Near.

Less than five hours after this conversation Lewis had shot himself as he was about to be arrested. That he had anticipated arrest and he had made preparations to end his life was indicated by the fact that the 22-caliber rifle that he used for the deed was new. He had pinned a towel over the transom of his bed room door and on the bureau was a box of cartridges and an extra cartridge lay on the window ledge within his reach in the bath room.

Several newspapers containing accounts of the Colbert murder were found in his room. He had little luggage and only about $6 in cash was found in his pockets. According to the owners of the hotel he arrived there at 10 o'clock at night and had appeared rather morose and uncommunicative.

WOOD SPRINGS A SENSATION

(Continued From Page One.)

protested so vigorously against any "star chamber proceedings" that Representative Garrett of Tennessee, who had moved that the sessions be made executive, withdrew his motion.

Insists on Complete Story.

Chiperfield insisted that as a witness sworn to tell the truth Wood should give the committee the advantage of all the information in his possession. Wood testified he had been informed that on Wednesday, Dec. 20, which was prior to publication of the note, a confidential telegram had been sent by R. W. McKinnon, of Thompson & McKinnin, brokers, of Chicago, to Ralph H. Hartley, manager of their branch at Oshkosh, Wis., advising him that the president would have a message of importance soon and that he should advise friends and patrons of his office to sell short on stocks. S. B. Friday, of Oshkosh, was named by Wood as his informant.

Lafayette Had a Tip.

Early in the morning of the same day Wood said he was informed Lamson Brothers' branch brokerage office in Lafayette, Ind., also received information from Chicago that the president was about to send a "peace note."

Representative Wood requested that Otto Kahn, of Kuehn, Loeb & Co., of New York, be subpoenaed and interrogated regarding what advance information he had, if any, about the note. "I have information also," Representative Wood told the committee, "that an exchange firm here known as F. A. Connelly & Co., of which a Mr. Bolling, a brother of the president's wife, is a member, engaged in profitable transactions during the recent flurry. Their dealings on the stock exchange were made through Hutton & Co., of New York, reputed to be one of the largest speculative concerns in Wall street."

Much Came From Mr. Curtis.

Asked by Representative Henry for the source of his information Mr. Wood said that most of it came from "Mr. A. Curtis, a broker and stock dealer in Wall street."

"Who gave you the information about Barney Baruch and Mr. Tumulty," Representative Henry asked.

"That came from Curtis."

"Did you see him, and where?"

"No, I never saw him," Wood replied. "It came to be in a letter."

Asked for the letter, the congressman said he did not have it with him, but would get it later.

"Where did you get your information about the Connelly firm and the Mr. Bolling you spoke of?"

A Common Rumor.

"That has been a common rumor prevalent for several days," said Representative Wood. "I heard it from several sources, but don't remember just where."

"You certainly must have received it from some one."

"Yes, but I don't think I can recall just who told me that. I heard it many times. I haven't taken the names of all persons who gave me information."

Here Representative Wood interrupted the questioning to say "I have said and I wish to say again this time, that I have made and am making no charge against any one. I am merely giving you information I have received."

"What public position has Bernard Baruch?" asked Representative Campbell, ranking republican of the committee.

"I understand he is a member of the council of national defense."

Stated in the Letter.

"Do you have memorandum as to the date of the alleged conference between Mr. Baruch and Secretary Tumulty at the Baltimore hotel?" Mr. Campbell asked.

"I don't remember, but it is stated in this letter from Curtis."

"In these conferences between Tumulty and Baruch, what is meant to be implied by the word 'conference,'" asked Representative Garrett, a democratic member of the committee.

"Only that they were seen talking together and registered together," said Mr. Wood.

"Of course you have no information as to what they talked about."

"No I have not."

Referring to the inclusion in his resolution of reference to Thomas W. Lawson's telegram hinting that members of congress sought to dodge an inquiry Representative Garrett asked if Wood had any information in any way indicating that members of the house were involved in the "leak" transactions.

No House Member Involved.

"I have no information whatever involving the name of any member of the house," Wood replied. "I know of no member of the house being mixed up in this stock crash."

Replying to Representative Cantrell, Representative Wood said he had not consulted Secretary Lansing regarding a reportd leak of the prseident's note either before or after he introduced his resolution. Mr. Wood also said he had other information and had sent a number of letters and telegrams to various persons inquiring about it.

"It is not sufficiently developed to give at this time," he said, "but I may hear from it later. I can give the committee in private what I have heard if it is desired.

Mr. Wood was not pressed further on that point but will be asked concerning it later.

Representative Harrison, of Mississippi, suggested that the witness should give dates of publication of the note and other details. Mr. Wood replied that the crash in the stock market came, or rather culminated on Thursday, Dec. 21 and that the peace message had been released for publication by the Associated Press at 12:05 o'clock that morning for morning papers of that day.

Representative Harrison tried to bring out that in the 48 hours beween the time the peace note was forwarded and published information regarding it could have come back from the foreign powers to some of the embassies here. Mr. Wood said he had heard some intimation to that effect but could not say who told him. He also said he had heard an intimation that the German embassy in this country had gotten back here.

"Don't you think," asked Mr. Harrison, "that the news leaked out from foreign powers and came out in that way?" "I would have to know more about the condition in that respect at the foreign capitals," replied Mr. Wood.

NEVER GOT IT, HE SAYS.

Lafayette Man Denies Having Advance Tip on Peace Note.

Lafayette, Ind., Jan. 5.—James F. Hamell, manager of the Lafayette branch office of Lamson Brothers, Chicago commission house, denied emphatically today that any advance information concerning President Wilson's peace message to Europe had been received at the office here. He said Representative Wood's charge in congress were without foundation. The first he knew of any "leak" in connection with the president's message and the stock market, he said, was when he read about it in the newspapers.

CANNOT REACH BARUCH.

Georgetown, S. C., Jan. 5.—Efforts to reach Bernard Baruch at his hunting lodge, Habicaw Manor, several miles from here, were fruitless today. There is no telephone at the lodge, according to officials of the local telephone company and no way to reach it by telegraph.

PARTIALLY CORRECT.

Oshkosh, Wis., Jan. 5.—Ralph R. Hartley, olcal manager of the office of Thomson & McKinnon, said today that testimony of Representative Wood concerning his firm is correct in some respects and incorrect in others.

"It is true that I received a message," said Mr. Hartley. "However it did not come from Mr. McKinnon nor from any one connected with the firm of Thomson & McKinnon. I received a copy of a general bulletin sent through from New York to the effect that "we would not be surprised to see developments later in the day which may affect this market unfavorably." Upon that suggestion I notified some of our customers, including Mr. Friday, advising them to sell. I do not know anything about it, but suppose he may have notified Mr. Wood."

Mr. Hartley declined to give the name of the author of the telegram.

LEE WATERMAN IS DEAD.

Indiana Newspaper Man Succumbs to Injuries in Auto Mishap.

Indianapolis, Ind., Jan. 5.—Lee Waterman, 62, formerly in the newspaper business in Anderson, Terre Haute and other cities, died early today at a local hospital where he was taken after being struck by an automobile the night of December 26. Mr. Waterman was born in Alexandria, Ind. He at one time was connected with the Anderson Bulletin and was manager of the Terre Haute Star for some time. He also had been connected with papers in Illinois and Iowa. He came to Indianapolis in 1902.

TAKES OVER MAIZE TRADE.

London, Jan. 5.—Announcement was made on the Baltic exchange today that the government had taken complete control of the maize trade, beginning today, on lines similar to its control of wheat.

A piece of steel was embedded in the flesh of R. Forest, while he was at work in the Pennsylvania shops yesterday. He was compelled to quit work and seek the aid of the company's surgeon and will be unable to work for a few days.

DON'T BE BILIOUS, HEADACHY, SICK OR CONSTIPATED

Enjoy life! Liven your liver and bowels tonight and feel great.

Wake up with head clear, stomach sweet, breath right, cold gone.

Take one or two Cascarets tonight and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. Wake up feeling grand, your head will be clear, your tongue clean, breath sweet, stomach regulated and your liver and thirty feet of bowels active. Get a box at any drug store now and get straightened up by morning. Stop the headache, biliousness, bad colds and bad days. Feel fit and ready for work or play. Cascarets do not gripe, sicken or inconvenience you the next day like salts, pills or calomel. They're fine!

Mothers should give a whole Cascaret anytime to cross, sick, bilious or feverish children because it will act thoroughly and can not injure.—Advertisement.

INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. SELLERS, Acting Director of the Sunday School Course in the Moody Bible Institute of Chicago.)
(Copyright, 1917, Western Newspaper Union.)

LESSON FOR JANUARY 7

JESUS THE LIGHT AND LIFE OF MEN.

The studies for the first six months of this year are devoted to the gospel of John; the remaining portion of the year to II Kings, Ezra and Nehemiah, being a study with the prophets. One year from now we begin the new "graded uniform lessons" recently adopted by the reorganized International Lesson committee.

John was younger than his brother, James, and lived to be the oldest of the apostles, dying somewhere between A. D. 95 and 98. His name means "Peace," though he is surnamed the "son of thunder" (Mark 3:17). Five of the New Testament books bear his name. He blended the gentleness of a dove with the force and vision of an eagle." The purpose of his gospel is clearly stated (ch. 20:31). Only about 8 per cent of it is found in the other three gospels. Seventy-six times the word "witness" is used. The word "father" occurs 140 times and the name "Jesus" 240 times.

I. **The Word** (vv. 1-5). Words utter thoughts; a word is an expression of an inaudible and invisible thing. As the Word, Christ is Creator (ch. 14:9; 8:19), he is the source of light. "The word is God heard; the life is God felt, and the light is God seen"—Moody. This eternally existing person is called the Word because in him God fully expresses or reveals himself. The Bible is the written word because in it God speaks and reveals himself through this person who is the eternal Word (Heb. 1:3). The first verse brings out the fact that there are at least two persons in the Godhead, the one divine person in company with whom the word was, and the word, himself, was God; that is, was also a divine person. He who by his incarnation became our brother and our savior was first our creator and the creator of all things, and apart from him not anything came into existence. The Word did not become the light of men by his incarnation in Jesus of Nazareth. He was ever the Light of Men. The light that shone in the Old Testament time shone from him. When sin came, night came.

II. **The Witness** (vv. 6-10). John the Baptizer came for a witness. He was not the light. Some might have thought him to be the promised Messiah. This he denied. He was a lamp which held forth light to men concerning the true light "which lighteth every man that cometh into the world." He reflected light (v. 8). John told all that he knew. Testimony will expand as experience enlarges. The spoken word of man must confirm the experience of the word in our lives. John was a wonderful man, a man whom God delighted to honor, but he was a man. Men are not asked to believe blindly, but always upon an abundance of testimony.

III. **The World** (vv. 11-14). This world was created by Jesus, and throughout its existence he has been in the world, though the world knew him not. This living light had been coming into the world, and was not fully come until he was manifest to Israel at the baptismal act of John. In order to be made manifest the "Word was made flesh" in the person of Jesus. The world did not apprehend the light (v. 5) nor did the world which he was in and which was made by him (v. 10). Even his own people, literally his own household servants, i. e. Israel, received him not to themselves, but whoever receives him, even the vilest sinner of earth, and takes him into his heart to be all Jesus desired to be, savior, lord, teacher, friend, that instant he becomes a child of God. We cannot attempt to explain this mystery. The union of spirit and body was in one person, a sample fact; though unexplained, still true. The union of God with a human body, forming one person, Christ Jesus, sometimes spoken of separately, sometimes as a whole, sometimes as divine, sometimes as human. We cannot divide his activities into two sections and say this is divine and this is human; they are inexplicably blended into one. This Christ really dwelt among us. He did not merely appear to some persons, or come in a vision, and yet his abode among us was only temporary, only a few years, and we beheld his glory, the glory of the only begotten Son. The world expected a Messiah and his own creation, his own inheritance received him not, rejected him, opposed him, crucified him, their lord, savior, king and messiah. Those who received him and believed on his name became sons.

To be a child of God we must be born into the nature and character of God, into his spiritual life. We are members of his family.

We are heirs of all things through him, his joy, his love, his character and his blessing and the privileges of working for him and with him. We become heirs by being born of God, not of blood, physical descent nor inheritance, for the best of parents cannot bestow this gift upon their children.

Not by our own efforts or exertions nor the will of the flesh, not by the will of men, through wisdom and man's highest powers of intellect, but of God.

We purchase only guaranteed all-wool woolens, combined with the very best of trimmings, put together by the most skillful tailors. We guarantee to you, if for any reason after purchasing a Sherman garment, you feel you have not bought a $15 to $18 value, we will refund your money.

We Guarantee to You a Saving of $5 to $8

Our assortment of Suits and Overcoats is large and complete, representing everything that is new in fabrics and styles.

One Price to All

We never have sales. We never change the value of our Suits and Overcoats. They are measured up to a standard of value and sell at a standard price, which is the same, twelve months of the year. Our business has been built up by selling good, honest clothes at an honest price. Every man who buys a Sherman garment gets a square deal. There is no possible chance of a man paying a penny more or a penny less than his neighbor.

Do Not Look for Sales

There is a bargain in a Suit or Overcoat here for you every day of the year. Our price never changes, our values always remain the same, backed by our iron-clad guarantee of satisfaction or your money refunded. Come to Sherman's before you buy. Consider the dollar you are spending for your clothing seriously before you invest it. Come here and let us explain how we eliminate for you the middleman's profit of $5 to $8, by rendering you a service from the manufacturer direct to the consumer.

JAPANESE EMIGRANTS FOR SOUTH AMERICA

Twenty Thousand Destined to Go There Within Next Four Years.

Tokio, Dec. 10.—(Correspondence of the Associated Press.)—The Nippon Yusen Kaisha, Japan's largest steamship company, has concluded an agreement with the South American Emigration union for the transportation of 20,000 Japanese emigrants to South America within four years from 1917. The company has also decided to open regular quarterly service between Japan and South America with ships of about 6,000 tons each. They will proceed by way of South Africa, but the homeward bound route has not yet been selected.

Baron Kondo, president of the company, which has just declared a dividend of 28 per cent., issues a warning that the current shipping boom will be greatly changed after the war, when all the ships now used as military transports return to the carrying trade. In the meantime he declared the great increase in the cost of coal and other necessities would cut heavily into shipping profits.

During the last six months the company, which owns 99 steamers and has ten others under charter, has transported a cargo approximating 2,470,000 tons and more than 137,000 passengers.

Speaking of the American service the president said the shipments from China showed a falling off, but that Japan's export trade with the United States, and the shipments of steel and cotton to far eastern countries, were remarkably large.

Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anaemic-looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists; we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds, and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb the impurities to contaminate the blood while the pores in the thirty feet of bowels do.—Advertisement.

KENDALLVILLE NEWS

Kendallville, Ind., Jan. 5.—Miss Velma Gee, daughter of Mr. and Mrs. M. D. Gee, and Frank Masters, son of Mr. and Mrs. John Masters, of Lagrange, were united in marriage in Albion, Rev. M. Johnson, pastor of the Presbyterian church, performing the ceremony. The bride has been employed as stenographer at the Kendallville Manufacturing company for the last five years. The bridegroom is employed in the McCray factory.

Mr. and Mrs. Schlupp and daughters, Mrs. William Amspaugh and Miss Minnie Schlupp, and son Clarence Schlupp, were in Angola, Tuesday afternoon to attend the double funeral of Mrs. Waldo Miller and her daughter, who were killed in a wreck on the Valley line Saturday evening. Mrs. Miller was a niece of Mrs. Schlupp.

Frank Albright, of Fort Wayne, visited her mother, Mrs. Catherine Albright, and family, Wednesday.

Miss Bernice Bodenhafer has returned to Monroeville, where she is instructor of art and music in the schools, after spending her vacation with her parents, near Lisbon and relatives and friends.

Mrs. Walter Reed has returned to Cleveland, Ohio, after visiting her parents, Mr. and Mrs. H. G. Merriman, and family.

Mrs. Oscar Hunt and Mrs. A. V. McCullough were in Fort Wayne, Wednesday, and visited Mrs. John Wright, who is in a hospital taking treatment.

Mrs. Sally Wise, of Chicago, is the guest of Mr. and Mrs. Charles Cohn, north of the city.

Miss Clara Gilbert was a visitor in Laporte, Wednesday.

U. C. Brouse and Wilbur Hill have returned from Indianapolis, where they attended a meeting of the Indiana fair managers on Monday, and on Tuesday attended the sessions of the state board of agriculture.

Miss Eleanor Freyberg, of Goshen, is visiting her sister, Mrs. Marcus Dieterle.

Miss Frieda Frieda, trained nurse, is at Pierceton, where she was called to care for a case.

Miss Anna Brothwell and Miss Jennie Pancake have returned to Elkhart after visiting the former's sister, Mrs. S. D. Rinehart, and family.

Dewey and Raymond Miller, sergeant and corporal of Company D, are visiting relatives in Hicksville, Ohio

Miss Beatrice Kann has returned to Milwaukee, Wis., to resume her studies in the Downer school.

Miss Ella Buchanan arrived here from Chicago, Tuesday evening, and assumed her new duties as visiting nurse, succeeding Miss Hamm. Miss Buchanan comes highly recommended.

Miss Catherine Weingart is visiting her brother, Will Weingart, and family at Albion.

Mr. and Mrs. C. M. Hinkley are visitors in Chicago.

Mr. and Mrs. Fred Schumann are visiting relatives in Milwaukee, Wis.

Mrs. R. H. Zimmerman and sons, Max and Daniel, of Gary, are the guests of Mrs. Martha Gallup.

Bad Habits.

Those who breakfast at eight o'clock or later, lunch at twelve and have dinner at six are almost certain to be troubled with indigestion. They do not allow time for one meal to digest before taking another. Not less than five hours should elapse between meals. If you are troubled with indigestion correct your habits and take Chamberlain's Tablets, and you may reasonably hope for a quick recovery. These tablets strengthen the stomach and enable it to perform its functions naturally. Obtainable everywhere.—Advertisement.

DAILY BIBLE READINGS FOR THE HOME

Mark 10:17-24.

17 And when he was gone forth into the way, there came one running, and kneeled to him, and asked him, Good Master, what shall I do that I may inherit eternal life?

18 And Jesus said unto him, Why callest thou me good? there is none good but one, that is, God.

19 Thou knowest the commandments, Do not commit adultery, Do not kill, Do not steal, Do not bear false witness, Defraud not, Honour thy father and mother.

20 And he answered and said unto him, Master, all these have I observed from my youth.

21 Then Jesus beholding him loved him, and said unto him, One thing thou lackest: go thy way, sell whatsoever thou hast, and give to the poor, and thou shalt have treasure in heaven: and come, take up the cross, and follow me.

22 And he was sad at that saying, and went away grieved: for he had great possessions.

23 And Jesus looked round about, and saith unto his disciples, How hardly shall they that have riches enter into the kingdom of God!

24 And the disciples were astonished at his words. But Jesus answereth again, and saith unto them, Children, how hard is it for them that trust in riches to enter into the kingdom of God!

Ralston's Final Message.

Before the joint session of the Indiana assembly on Thursday Governor Samuel M. Ralston, who will in a few days retire by reason of the expiration of his term of office, delivered his final utterance of this character as the chief executive of Indiana. Speaking with the experience of four years in the governor's chair behind him, and with no possible temptation to be actuated, consciously or unconsciously, by temporary expediency, what he had to say should be of especial value to the state at this time. Unfortunately, however, it is human nature to pay rather more heed to the probable course of the incoming official than to the advice of the one who is retiring. There is, we think, danger of appraising too lightly the value of the conclusions and the recommendations of Governor Ralston.

Some items in his message are of especial importance. He declares his belief that the state's affairs are now in condition so that, without militating against the efficiency of any department, there might well be a reduction of three cents on the state tax levy, constituting a saving of $600,000 each year to the taxpayers of Indiana. He advises the divorcing of the state banking department from the state auditor's department and its administration on a non-partisan basis. He would have additional industries provided for the inmates of the state penal farm, a protective reserve deposited with the state by risk companies writing compensation insurance, a more effective law for the impeachment of recreant public officials, a state highway board organized on a non-partisan basis, additional power for the tax board in the enforcement of tax laws, a national guard and state armory erected on the state fair grounds, and, among other things, pleads for constitutional revision to be effected through a constitutional convention, the delegates thereto to be elected when partisan issues are not considered and the convention deliberations to be free from partisan politics.

The message is a dispassionate summing up of the more important reforms which four years in the governor's chair have convinced Mr. Ralston that Indiana needs. It ought to be considered on precisely that basis by the new legislature to which it was addressed.

Safety First; Boil the Water

Temporary contamination of Fort Wayne's water supply by seepage which has in some manner gotten into the mains, probably through defect at or near one of the pumping stations, has been definitely established by chemical analysis of water samples. Whether it shall prove to be as serious as is now feared, or whether it shall happily be a condition which can be quickly remedied, the first duty of every user of city water is clear. BOIL THE WATER THOROUGHLY. That is the urgent admonition of the health authorities, and compliance is declared to be absolutely imperative if disease from this source is to be avoided. Take no chances. You cannot afford to sniff contemptuously and regard the health department's order as either a mere fad or as an unnecessary scare. We think the city authorities realize fully the gravity of the duty confronting them in eliminating contaminating conditions from the city's water supply, and we are confident they will proceed earnestly and with all possible speed. Meantime, do your part in the emergency. Boil every drop of the water used either for drinking or for domestic purposes.

With final recapitulations now being made, it is certain that Fort Wayne has risen handsomely to the occasion once more in the purchase of the Red Cross seals for the war on tuberculosis. The 400,000 mark has been considerably passed, over-taxing the registering capacity of the big thermometer erected at the court house to record the progress of the humanitarian campaign. What we need is a bigger thermometer next season.

And somehow or other Allen county aspirants are not figuring very strongly among the probabilities for likely legislative jobs at Indianapolis. On second thought, Allen so seldom lines up in the republican column that she may have been entirely forgotten until everything worth while had been passed out to the patriots from other counties.

Under the new police system adopted in dealing with reports of auto and other accidents, each party to the mishap is required to make a written report fixing the blame for the occurence. Thus far there has been a striking unanimity of opinion in the conclusions reached by the participants in placing responsibility. Without exception it belongs to the other fellow.

Doubtless the watchman will be able to explain how the rather uninviting remains of dead animals and lifeless birds can float long undiscovered on the surface of the reservoir despite the inspections he is supposed to make, and he ought to try it, but he's going to have a tough job doing it in anything like satisfactory fashion.

Under instructions given to the Delaware county grand jury, Muncie is going to be forced to close her saloons on Sunday and otherwise demean herself in circumspect fashion. And doubtless Muncie herself is willing to admit that it's about time.

What is Work—or What Should It Be?

A New York minister wrote to Thomas A. Edison, among other prominent men, asking him what are the greatest safeguards against temptation. Edison replied:

"If I were to hazard a guess as to what young people should do to avoid temptation, it would be to get a job and work at it so hard that temptation would not exist for them."

From which answer wise editors have since been printing learned editorials on the beauties of work.

Did it ever occur to you, though, that Edison's work has been congenial; that it has been the kind of work that Edison wanted to do?

Did it ever occur to you that a man who must spend his day repeating certain motions with machine-like precision may not be so much impressed with the beauties of work as another man who is doing a different kind of work—a kind out of which he can extract pleasure?

The truth is that there are two kinds of work—one kind scarce and desirable, and another kind plentiful and not so desirable. There is a kind of work that produces pleasure to the worker as well as to the man who consumes the produce of that worker; and there is another kind of work that produces something far from pleasure in the worker, although it may still be worth while, since it produces pleasure for others.

The truth is that work is not a desirable end in itself. The truth is that 999 men out of 1,000 would much rather consume a dollar's worth of commodities than produce them. This is proved by the fact that men, whenever they can, escape from uninteresting toil and choose not to work at all, or only to work at things which they enjoy doing.

The truth is that play and not work is the real end to be sought. Joy, happiness, pleasure are worth while things, and work is, or rather it ought to be, merely a means to that end.

When the world understands that work ought to be merely the preliminary to play—that the real end which man seeks is welfare and not work—then it may begin to organize the world's activities so that everybody shall have his share of playtime and that the amount of worktime shall be cut down to that barely necessary to produce the good things required for consumption.

Can the Churches Stop the Big War?

William Jennings Bryan believes the churches in this country should help get together the warring nations in Europe. The fact is some American churches are still torn apart because of the civil war.

Baptists, Methodists and Presbyterians—among the leading denominations in this country, have northern and southern branches, because of that war, which, in most particulars, are as far apart as though they were separate denominations.

They do not disagree on matters of doctrine or government—they just can't get together—that's all.

The great mass of people in the north and south welded their interests a long time ago because of economic, commercial, or political necessity. Thus far the churches have had no similar compelling power to consolidate them. They apparently had no sufficiently common social cause which made it imperative for them to work together.

They have been occupied largely in purely philosophical discussions and evangelistic programs which dealt almost entirely with individuals and scarcely at all with the great social obligations of society.

The reason the churches of Europe seem to have failed in this great crisis is because they had for generations been preaching an INDIVIDUALISTIC gospel—not a great SOCIAL gospel which resulted in a clear conception of the place of the church in the social and ethical affairs of the state—leaving out of consideration altogether purely political matters.

Fortunately, all this is rapidly changing. And the war will undoubtedly help the churches realize their duty and opportunity in this respect.

If the churches are to help stop the war they will be compelled to stand squarely for the social teachings of the gospel—the fundamental principles of which are found in the teaching of Jesus, that it is just as important for men to love their neighbors as it is for them to love their God. Indeed, He taught that no man can actually love God UNLESS HE LOVES HIS NEIGHBOR.

TWENTY-FIVE YEARS AGO

What the Sentinel Had to Say About Persons and Events Twenty-Five Years Ago.

Charles MacDougal is at New York city.

A telephone has been placed in the office of the Fort Wayne Lumber company.

Canton, No. 17, I. O. O. F., moved from its rooms in the old postoffice building to Harmony lodge block.

C. J. Ulmer has returned from Rockport, Ohio, where he had accompanied the remains of the late Philip Urban.

James A. Armstrong, the wholesale milliner, accompanied by his wife and his hat buyer, C. T. Pidgeon, left on No. 8 last night for New York city to purchase stock.

Numerous friends of James M. Griffith, the young contractor, invaded is attractive home in Park Place last evening to help him celebrate his twenty-fourth birthday.

Engineer Samuel Kelker, who sustained severe injuries in a fall from the Crestline coal docks a month ago, is slowly recovering, but will be unable to resume his run for two or three weeks.

The Fort Wayne Curling club played its first game of the season yesterday on the lake at Brookside. James Gillie and D. M. McKay were skips. After two and a half hours of excellent playing the game stood as follows: Gillie, 14; McKay, 17.

Messrs. Charles E. Read, William Geake and James Henry have returned from Denver, where they went about ten days ago for the purpose of securing quarters for the Fort Wayne commandery, Knights Templar, at Denver next August on the occasion of the conclave.

'Squire English met with quite an accident at Hoagland yesterday. He had assisted a lady on a railroad train and before he could get off again the train started. In stepping from the platform he fell and rolled down the embankment, receiving a number of bruises about the body.

About 11 o'clock last night a burglary was attempted in the house at No. 429 East Washington street, where several families live, among them Mr. and Mrs. J. W. Pratt and Mr. Tilbury and family. An attempt also was made to enter the home of John Krock, the contractor, at 416 East Wayne street. Mr. Krock shot at the fleeing burglar and judging from the trail of blood the bullet is believed to have taken effect.

HEADACHE FROM A COLD? LISTEN!

"Pape's Cold Compound" ends severe colds or grippe in few hours.

Your cold will break and all grippe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.—Advertisement.

The inclemency of the weather deterred but a very few people invited to a tea given by Mrs. Jules Simon this afternoon from attending it and the pretty rooms were filled with prettily gowned women. Mrs. Simon received with her honor guest, Mr. Simon's sister, Mrs. George Noll, of Toronto, Can., and a former Fort Wayne resident. Little Helen Weir, a cousin to the hostess, met the callers at the door. Many beautiful roses decorated the rooms, yellow being the color note in the diningroom, pink in the livingroom, and many sweetpeas mingled their fragrance with the roses and contributed their loveliness to the scene. Mrs. Frank L. Taft, Mrs. S. B. Bechtel, Mrs. Harry Bowser, Mrs. Leland Johnson and Mrs. L. L. Walker assisted during the hours of the tea, which were from 3 to 6 o'clock.

* * *

Mrs. Thomas P. Ewing, of West Wayne street, entertained about twenty young women this afternoon at an informal bridge party in honor of her sister, Mrs. W. H. Kelly, of Cleveland, and Mrs. Bartlett Shryock, of this city, for whom the honor was a postnuptial one. The holiday decorations had not been removed from Mrs. Ewing's home so the rooms were gay in red and green colors and the informality of the affair and the congeniality of old friends were as lovely for Mrs. Kelly and Mrs. Shryock as they were for the other guests.

* * *

Mrs. George W. Beers and her daughter, Mrs. W. T. McKay, entertained a few ladies at a thimble party this afternoon at the home of Mrs. Beers. Tempting refreshments were served the guests after their visiting over their sewing.

* * *

The Friday Bridge club held a regular meeting this afternoon with Mrs. E. H. Olds.

The Fort Wayne Sewing league will meet on Monday afternoon in Saengerbund hall at 2 o'clock.

Miss Florence Greensfelder has returned to Logansport after a visit with her aunt, Miss Mollie Greensfelder, at the Anthony hotel.

Miss Marian Puckett returned to her studies at Virginia college, Roanoke, Va., after visiting her parents, Mr. and Mrs. E. W. Puckett.

There will be a social meeting of the Alpha Omega club on Saturday afternoon with Miss Margaret Byroade, of West Berry street.

Mr. and Mrs. Francis B. Sale and infant child arrived on Friday from their home in Mobile, Ala., to visit Mr. Sale's brother and his wife, Mr. and Mrs. H. Brook Sale, west of the city. Francis Sale has accepted a position here with the F. S. Bowser company and with his family will soon be at home in an apartment at 918 West Berry street.

Martin Pohlmeyer has gone back to Pittsburg to resume his studies at Carnegie institute, after a holiday visit with his mother, Mrs. Fred Pohlmeyer, of Fulton street.

Mrs. Noah Zehr, of South Broadway, gave a small dinner party on Thursday evening in honor of Miss Virginia Philley Withey, of Los Angeles, who is visiting her parents here for several weeks.

Mrs. Walter Bauer, of New York city, who is visiting her parents, Mr. and Mrs. Ernest Cook, was the honor guest at a bridge club meeting on Thursday, for which Miss Mamie Jacobs was the hostess.

Miss Dorothy Wilding, who came home from the School of Gymnastics, at New Haven, Conn., to spend the holidays with her mother, Mrs. Ella Wilding and other relatives, has returned to her studies.

A number of students who have returned within a day or two to Michigan university after a holiday visit here at their respective homes, are Willard Shambaugh, Leslie Popp, Davis Diffenderfer, Werner Duemling, George Riker, Artemus Pickard, Arthur Stevens, Phil Warriner and Misses Edith and Jennie Duemling, Elsie and Louella Paul, Mildred and Lois Winch and Gertrude Beierlein.

Members of the Fort Wayne Florist club enjoyed a banquet on Thursday evening at the English tea room, at which covers were laid for seventeen. Miss Rhoda Doswell, president of the club, presided as toastmaster, and responses were made by several of the members. Will J. Vesey read the constitution of the club. A committee of arrangements was composed of Miss Doswell, Mrs. Blossom and Miss Marguerite Flick. The menu was a delicious one and the club enjoyed a delightful time.

The Woman's Club league is planning a series of bridge parties instead of its annual ball this season and has engaged the Anthony hotel for the dates of January 19 and 26 and February 2. Mrs. Walter Shepard is chairman of the finance committee and her assistants are Mrs. F. E. Urbahns, Mrs. B. H. Hudson, Mrs. Austin Stults, Mrs. F. H. McCulloch. Prizes will be given for winners of each one of the series and also for the winners of the tournament. The league will present a fine program tomorrow afternoon at a meeting to be held in the same hotel. This meeting is open to the public.

An unusual entertainment and one of much charm was the reading to a piano musical accompaniment, of the play "Madame Butterfly," by Miss Gertrude Jeanette Polk, of Valparaiso, before the society of the Temple Sisterhood of Achduth Veshalom temple and many other ladies of the city, at the Anthony hotel ballroom, on Thursday afternoon. The entertainment was for the purpose of raising funds towards the furnishings of the new temple the congregation is erecting at the corner of Wayne and Fairfield avenue and many tickets were sold. As an entertainment the result was altogether charming for Miss Polk has many qualifications for her work of which an innate sympathy and understanding of the story and an attractive presence and pleasing voice are the most striking. Mr. Harry Thornburgh Polk gave his sister a beautiful accompaniment of the Puccini musical score at the piano and the second act was especially well given, the "One Fine Day" and the second scene of the act being especially dramatic. Between the two acts Miss Muriel Larimore gave a short but very lovely dancing number and was followed by six of her pupils, the Watson twins, Ogeretta and Marguerite, who danced together, and four other young girls who appeared in a group dance. The dancing made a delightful diversion. After the program the guests were served a two course luncheon on small tables set on the mezzanine floor. While there was no formality about the affair, a committee of ladies who had arrangements in charge, looked after the pleasure of the company generally. Mrs. A. L. Weinstein, wife of the rabbi of the congregation of the Temple introduced Miss Polk and Mrs. Nate Rothschild, Mrs. Sam Kraus and Mrs. G. E. Meyer, the committee on arrangements, asked Mrs. Weinstein and Mrs. Joseph Freiburger to receive them, which they did.

BREAKING INTO THE MOVIES—BY BEVERLY BAYNE.

Beverly Bayne.

My experience in breaking into motion pictures was a commonplace sort of happening. There really isn't much for me to write about it. I had no heart-breaking interviews with managers nor long waits for something to turn up.

I attended the Hyde Park high school in Chicago, not a great distance from the Essanay studio. It was as familiar to me as the corner drug store or the butcher shop.

One day I went with a party of friends to visit the Essanay plant and right then my opportunity came. One of the directors asked me if I would take part in a short scene. He said he thought I possessed a "camera face."

"If you register well," he said, "I may be able to use you in this picture I am filming."

A "camera face" is one that photographs well from all angles. It is hard to find. Camera men and directors are forever on the alert for such a face. It seemed that I unconsciously possessed such an indispensable asset.

More as a lark than anything else, I submitted to the tryout and the next day learned the test was satisfactory. I was given a small part and continued with the Essanay. The work fascinated me from the start.

One day Francis X. Bushman, who had been watching my endeavor, asked that I be assigned to his company to alternate with Miss Ruth Stonehouse in playing leads. Thus, with little effort and no struggle, I became a leading lady, all because I had a "camera face."

I continued to play leads with Mr. Bushman until he went to the Metro company. In a short time an offer came to me from Metro, due to the fact that the public had learned to like our work on the screen and demanded more of it. I accepted and have played in support of Mr. Bushman ever since.

MORNING MUSICAL RECITAL.

Miss Jamieson, Pianist, Engaged for January 24, in Moose Hall.

Miss Margaret Jamieson, a young pianist who comes with many very complimentary notices, is to give a recital under the auspices of the Morning Musical society in Moose hall, on January 24, at 8:15 o'clock. Miss Jamieson comes from Grand Rapids, Mich., which is her native city, and she has played with the New York Symphony orchestra and has had other important engagements in eastern cities as well as having acquired fame in her own state. Miss Jamieson was graduated from the Oberlin conservatory in 1912 and after that studied a year with the famous teacher and pianist, Joseffy. While in Fort Wayne Miss Jamieson will be the guest of Mr. and Mrs. Henry Beadell, of West Woodland avenue, as Mr. Beasell and Miss Jamieson's father were at one time associated in business together and were partners in a firm that founded the Boston store here and in other cities. Miss Jamieson is said to be exceptionally talented, therefore the Morning Musical society takes pleasure in presenting her. The concert will be open to the public at the usual price of tickets the society sells for musical entertainments of this kind.

AT THE PALACE.

A MERRY MUSICAL HIT.

The Elopers is Featuring Snappy Bill at New Palace.

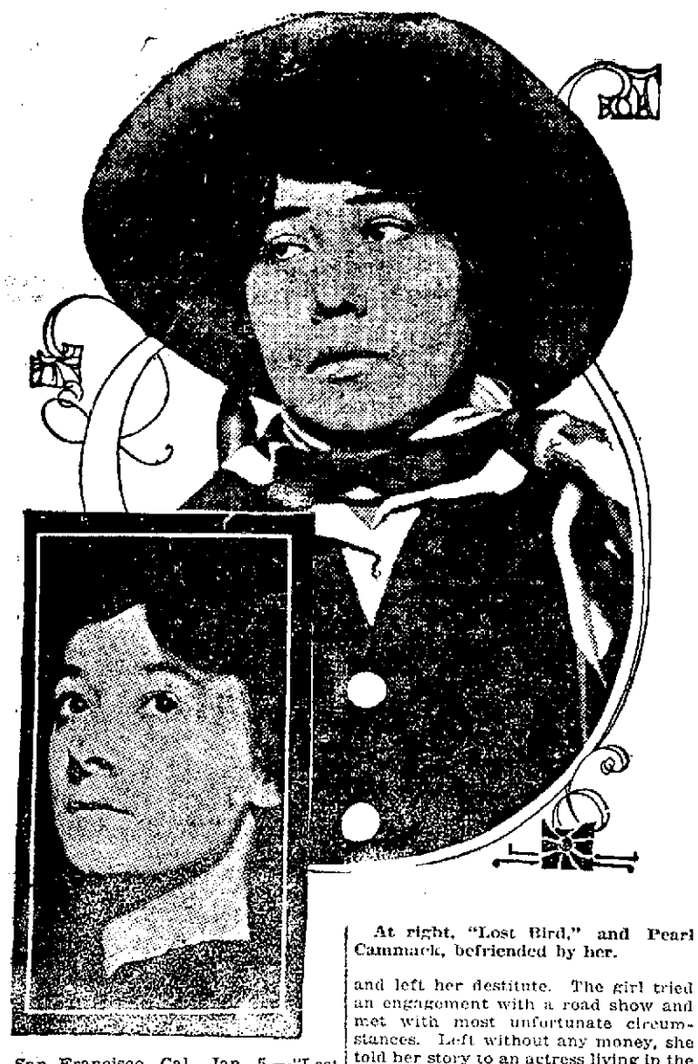
The lively little musical comedy miniature, The Elopers, with Jessie Maker and Teddy and Nellie McNamara in the principal roles, breezes to an easy first place in the New Palace's week-end scamper for popularity with six entrants. This condensed lyrical force crowds comedy, catchy music, pretty girls and exquisite costumes enough for a two hour show into a scant half hour. There isn't any time for encores. It is the prettiest, snappiest little offering of its kind that vaudeville affords and is presented with a sumptuous investiture of scenery and costumes.

Hope Vernon, the songstress, with the violin, possesses a remarkable voice and uses it in a novelty act supreme.

Her "violin playing" is an exquisite trick and her closing song about the violin her granddad made, last night stopped the show. She's a beautiful girl with a smart stage presence.

George Cooper and Chris Smith's black face comedy act is something. As the bell boy and the porter in the Hotel Gossip this pair spring some excruciatingly funny comedy and Cooper's singing of the son, "Never Let the Same Bee Sting You Twice," is a riot. Charles A. Mason and company would make a cigar store Indian laugh in their sketch, "Who's Who?" a farce pure and simple built for laughs only. The absurd comedy hinges on the resemblance of two married men for one another, causing their wives to confuse them. Lew and Mollie Hunting's singing and dancing comedy stuff is classy, while Scamp and Scamp, the Europe[illegible] comedians, open the bill with a lively bit of laugh stuff.

"LOST BIRD" GOING BACK WITH BIG FORTUNE LEFT BY INDIAN FIGHTER.



At right, "Lost Bird," and Pearl Cammack, befriended by her.

San Francisco, Cal., Jan. 5.—"Lost Bird" is going back to Dakota and the Sioux Indians. And she is going with gold to help them.

And the legacy comes in the nick of time to raise from destitution to affluence a young vaudeville girl. Miss Pearl Cammack, whom the young Indian woman, despite her own poverty, had befriended.

The Indian girl's name is Zintkella Anuni, which signifies "Lost Bird." She is a full-blooded Sioux of the Sitting Bull band. Her parents were killed and she herself nearly died when General Leonard Colby put down the uprising on the Wounded Knee reservation.

Three weeks ago all bade fair to end in tragedy. Today everything is bright. And as soon as the formalities are gone through with the Sioux heiress and her young girl friend are to journey to South Dakota, where "Lost Bird" will make a permanent home for Pearl Cammack, who nearly became a "lost bird" herself.

Pearl Cammack's parents died recently somewhere in the middle west and left her destitute. The girl tried an engagement with a road show and met with most unfortunate circumstances. Left without any money, she told her story to an actress living in the same hotel.

This girl told Zintkella Anuni and the Indian girl's heart was moved. She insisted that the lonely lass live with her and her husband. Zintkella's husband does a lariat-throwing specialty in the show business. She herself was the only Indian woman to be a delegate to the national woman suffrage convention here during the exposition.

"I am glad of the money, of course," she said. "But what I thought of first was the chance to do so much for my people I want to help.

"Just as a start, I am going to give poor Pearl a home with me. She shall come back to Dakota. She is young, bright and sensitive, and ought to have an education instead of facing the hardship of the vaudeville life.

"Then I hope to do something permanent on a large scale for the Sioux people. They are in need of help. I have visited the reservation several times and have seen my relatives. I have a twin sister who was found, like myself, strapped to the back of our dead mother."

KNICKERS FOR THE BOUDOIR.

Here is the latest in boudoir costumes—knickerbockers! Ann Murdock, McClure movie star, is shown wearing them.

The knickers are purple satin over a lingerie slip. The robe the actress wears over her shoulders is of printed silk in futurist colors.

The knickers may not be confined only to the boudoir, but can make a comfortable costume for housework, for they do not hamper the housewife, as skirts do.

FEDERAL PLACE FOR WOMAN.

Mrs. Axtell Is Tendered Compensation Board Job.

Tacoma, Wash., Jan. 5.—Mrs. Francis Axtell, of Bellingham, former member of the Washington legislature and unsuccessful democratic candidate for congress from the Second Washington district, announced today she had received from Secretary of Labor Wilson a telegraphic offer of appointment as one of the three members of the federal compensation board which is to administer government compensation of workers injured while engaged in interstate commerce.

The position carries a salary of $4,000 a year. Mrs. Axtell today said she had not decided whether to accept the offer.

TRIER'S MINUET

AEROPLANES TO BE USED IN POLE DASH FOR THE FIRST TIME IN HISTORY.

EXPLORERS CAPT. BARTLETT, AT LEFT, AND AMUNDSEN, AND A MAP OF THEIR COURSE.

Washington, D. C., Dec. 5.—Aeroplanes will be used for the first time in a dash to the north pole when the next expedition is made.

Capt. Robert A. Bartlett, Rear Admiral Peary's navigator to the north pole, plans to start from the Pacific coast to the pole, by way of Bering strait, and Capt. Roald Amundsen, discoverer of the south pole, will make his dash to the same spot from the north of Norway.

Both explorers will take along aeroplanes, although they will start out in ships. They are to leave at about the same time.

Although thousands of miles apart, the men are planning to make it a united expedition, which may cost them about $200,000.

The aeroplanes will help the explorers co-ordinate their observations and discoveries. Each party, in this way, will be ready to help the other in case of danger.

If one party is icebound, the aeroplane from the other group will be ready to rescue the men. The machines also will enable the two parties to make a complete exploration of the whole north polar region.

Both expeditions are endorsed by the National Geographic society. They expect to stay in the arctic zone from three to five years.

WOMEN CHAMPIONS OF HINDU CAUSE INTERNED

British Deny Liberty Without Trial, Says Hindu Editor.

BY RAM CHANDRA,
Editor of The Hindustan Gadar.

San Francisco, Cal., Jan. 5.—Women interested in the cause of Hindu revolutionists are being arrested and interned by British authorities.

The news that various prominent feminine workers have been interned has caused a great sensation in the educated and wealthy quarters of Calcutta and Bombay. Recent arrests of women are the first since the present revolutionary activities in India began.

Madame B. Cama, lower, and Mrs. Mehtab Kaur, two women who have been interned for activities in behalf of Hindu revolutionists.

Madame B. Cama, editor of the "Bandematram," a Hindu paper published in Paris, is one of the important women who have been denied their liberty. She was interned in Paris at the special request of the British government.

Madame Cama was first publishing her paper in London, but anticipating trouble with the authorities she fled to France, where she continued the publication of her paper for six years prior to the outbreak of the war.

It was she who designed a flag for free Hindustan, bearing Sanskrit words which mean: "I will die for my country." Her watchword is: "Resistance to tyranny is obedience to God."

Mrs. Mehtab Kaur endured imprisonment in South Africa for agitation against the exclusion of Hindus from that country. Later on her return to India she was interned without trial at Bombay.

Another educated woman, Mrs. Lila Mozambar, was interned without judicial procedure at Calcutta on her return from Japan.

J. G. Baral, who fell and sprained his wrist about ten days ago, is able to attend to his business. Mr. Baral suffered intensely with his wrist, but was very thankful that no bones were broken.

SUGGESTS THAT U. S. LAY DOWN PEACE TERMS

British Parliament Member in America Puts Forth the Idea.

BY GILSON GARDNER.

Washington, Jan. 5.—A member of the British parliament who has an excellent standing at home has been in Washington quietly sounding our public men on the proposition that the United States lay down terms of peace to the warring nations. It is suggested that these proposed terms be backed with an offer by this country to join an international, or at least an Anglo-American alliance for the future preservation of the world's peace. This member tells me that such proposals would be more welcome in England than most Americans suppose.

Little things like world wars play havoc with diplomatic conventionalities. There was a time when a foreign ambassador was a hard person to see and when seen he never permitted himself to be interviewed. The most see-able men today in Washington is the German ambassador, von Bernstorff. He is under orders from his home office to get publicity for Germany's peace proposals, and "copy" on this subject comes as easily as the press agent's dope about a movie actress.

On June 30 last, the supervising architect's office reported that it then had 269 public buildings still to build out of money already appropriated. To do this work would take, said the report, until late in 1919. The buildings to be authorized, therefore, in the current and pending "pork-barrel" (public buildings) bill will not be started until about 1920. Hence the insistence in appropriating $35,000,000 at a time when the secretary of the treasury reports a probable deficit of $185,000,000.

Official returns show that California gave the single tax amendment 260,332 yeas and 576,533 noes. The affirmative vote is 31 per cent of the total.

The researches of Professor Mead, of the University of California, show that 310 men own 4,000,000 acres of the best land on the continent and that one railroad owns 5,000,000 acres. The report of the secretary of agriculture shows that less than half of the arable land in the United States is under cultivation. Here is a suggestion for those seeking the cause of the high cost of living.

* * *

All records have been broken this year by the output of American mines. The Geological Survey becomes almost monotonous in telling of the increase in the quantity of copper, iron, zinc, lead and mercury taken from the earth. All were approximately a third greater, and sold at a third advance in price. Yes, it was due to the war.

If all the Christmas parcels going by mail had been evenly distributed there would have been two one-pound packages for every man, woman and child in the United States. The parcel post machinery carried 125,000,000 packages, averaging two pounds a piece, during the two weeks before Christmas.

The government's bureau of education finds that there are 23,500,000 persons attending school of some kind in the United States. At least they are enrolled. Actual attendance records show a much smaller figure. In some states the children are worked in mills for fear they will get into jail or go to school. This reduces the attendance.

Eight per cent of the cost of coal, wood, ice, milk and department store merchandise is added by the cost of delivery. An investigation in Washington showed that it cost $500,000 to deliver $6,000,000 worth of these goods. The New York department stores devote 4 per cent of their gross receipts to advertising in the daily newspapers. This accounts for 12 per cent of the high cost of living.

INDIANA DAILY QUITS.

High Cost of Print Paper Too Much for Newspaper at Hope.

Columbus, Ind., Jan. 5.—H. S. Dixon, editor and proprietor of the Evening Star-Journal published at Hope, Ind., has announced that as soon as a continued story now being published in the paper is completed the daily publication will cease, probably some time this week. High cost of print paper is given as the reason. The weekly edition of the paper will be published as usual.

SPECIAL FUNERAL CAR.

Arrives on Traction at 11 O'Clock Friday Morning.

A special funeral car arrived at the traction terminal station here Friday morning at 11 o'clock from Marion. The car carried the funeral party for the burial of John Smaltz, of Marion, and formerly of Fort Wayne. Among those who came from Marion were six old soldiers, inmates of the national soldiers' home at Marion, who acted as honorary pall-bearers. The funeral was held at 1:30 Friday afternoon.

Mr. and Mrs. Oscar Winte and Miss Rose Madden, of Chicago, have returned home after visiting over the holidays with Mr. and Mrs. Phillip Lordier, of Douglas avenue, and other relatives. During their visit here a number entertained in their honor.

POULTRY SHOW OPENS ON 17TH OF JANUARY

Entries for Big Event Will Close Saturday Night of This Week.

Poultry breeders who have not yet made formal application to place their birds on exhibition at the big Triangle Poultry show—January 17 to 21—will have to "get a move on" if they want to be sure of representation in the biggest and best show yet planned by the association. The entries will close at 10 o'clock Saturday night of this week.

Entries have been pouring in at a great rate this week, and every indication points to a record-breaking show this month.

Secretary J. C. Howenstein, of the poultry association, states that Fort Wayne is gaining a wide reputation as a poultry center.

"Entries are pouring in from many parts of Indiana, Illinois, Michigan and Kentucky," said Mr. Howenstein, "and the display is going to be something well worth the attention of every citizen of Fort Wayne and the surrounding country. We will not receive entries at my office after 10 o'clock Saturday night, but every mail application that bears Saturday's postmark, will be accepted. As soon as the entries close, we will make the final arrangements for caring for the big exhibit."

The poultry men have secured for this year's show, the big brick building at the northeast corner of Calhoun and Superior streets—two squares north of the transfer corner—formerly occupied by the Boss Manufacturing company. The announcement of the dates of the show—January 17 to 21—has caused widespread interest among breeders and others interested in perfection in Poultry.

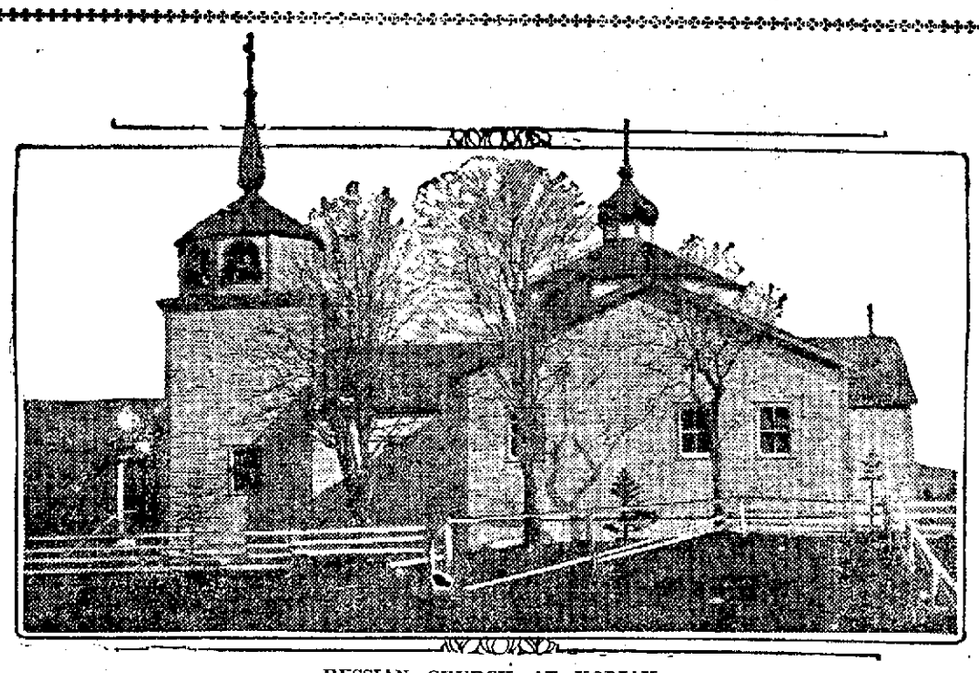
WOULD PENSION LEPER.

Watson's Bill Asks $100 Per Month for Indiana Victim.

Washington, Jan. 5.—Senator Watson introduced a bill to pay to David Byers, of Fort Branch, Ind., a pension of $100 a month. Byers is a leper. A surgeon sent recently by the United States public health service diagnosed his ailment as genuine leprosy. The community where he is quarantined is distressed over the prospect of having to care for him and Senator Watson introduced the bill for a pension as a means of solving the financial problem involved. Byers at one time served in the navy and the pension is asked on account of that service.

Miss Clara Reinkensmeier, the milliner of South Broadway, has returned from a business trip to Chicago. She left the city before the holidays and spent Christmas with relatives in Rock Island, Ill.

CZAR MAKING SUBJECTS OF AMERICANS.



RUSSIAN CHURCH AT KODIAK.

Kodiak, Alaska, Jan. 4.—For fifty years the czar has been complacently making Russian subjects of nominally American citizens on Alaskan soil right under the stars and stripes.

The Aleutian islands, together with Kodiak and Sitka, comprise our Alsace-Lorraine—a land under our flag but with loyalty elsewhere.

For years the federal and territorial schools have been trying to overcome this opposition and to turn the youngsters toward Americanism. But even today the native children speak English on the school grounds only when policed at their play by the teachers.

The moral influence of most Russian churches in this region has been negligible. Drunkenness, from which springs most of the woes of the Aleuts, has not been frowned upon.

Practically every white man in the islands agrees that the green turrets of the Russian church in western Alaska have been the symbol of the oppression, ignorance and misery that has made these people the most abject on this continent.

In many cases unprincipled churchmen have proven ready tools for the white men who have exploited and robbed the helpless native to a horrible degree.

There are, of course, some exceptions. But at best the Russian church in Alaska has been satisfied with a mere devotional teaching and made no effort to lift the Aleuts from that miserable estate in which the early Muscovite trappers and adventurers left them.

Slavic blood courses in most of these people.

Every home of hutch has its portrait of the czar—the "Little Father." Russian flags are treasured and displayed.

And if you ask them to what country they belong, of what nation Alaska is a part, nine out of ten will answer, "Russia."

SEEK LAW TO INCLUDE POLICE AND FIREMEN

Effort to Make Them Beneficiaries Under Compensation Law.

Indianapolis, Ind., Jan. 5.—Provision for a legal means for including police and firemen as beneficiaries under the Indiana workmen's compensation law seems probable from the support being given the movement having its origin in Richmond. The slaying of two patrolmen by a drunkard they were trying to arrest, followed by a decision of the state industrial board that their widows were not eligible to compensation under the law which excludes servants of the state has resulted in a state-wide effort to alter this situation. The city clerk of Richmond has enlisted the support of officials of cities included in the municipal league of Indiana, and there will be pressure brought to bear upon legislators from such communities to amend the compensation law or supplement it so as to protect the dependents of police and firemen who die in the discharge of their duties.

TURN TO "SINKERS" NOW.

Eggs Go to Ten Cents Each in Indianapolis Restaurants.

Indianapolis, Ind., Jan. 5.—Eggs are ten cents straight in Indianapolis today. No, that isn't the retail price, except where you may want "two on toast." Heretofore the dairy lunch houses, where thousands of the city's population take breakfast, were worrying along trying to make eggs profitable at two for fifteen cents. The advance was announced this morning and "sinkers" became a popular substitute.

SAYS GOD ANSWERED PRAYER WITH MIRACLE

Now Happy Woman Asked Heavenly Aid After Years of Suffering.

eSattle, Wash., Jan. 5.—Does God answer prayer?

"Yes," devoutly testifies Mrs. Anne E. Norton, of Seattle, with a body suddenly and "miraculously" freed of horrid disease and long drug slavery! Here's is one of the most remarkable cases of bodily restoration ever

Mrs. Anne E. Norton as she is today after her "miraculous" cure by prayer.

science all over the United States. recorded, say those who substantiate the story.

Mrs. Norton's strange malady baffled prominent men of medicine and Seven hundred physicians within the past four years had pronounced her incurable.

Twelve times she was on the operating table. Three times she was pronounced dead. One arm was amputated. Her body was covered with hideous eruptions. Morphine, the knife and ceaseless pain had distorted the body almost beyond human semblance.

"And then," said Mrs. Norton, detailing her "miraculous" experience today, "half an hour's prayer accomplished what 700 physicians said was impossible. It is a clear case of Divine intercession!"

White-haired from her agonies, though but 43, Mrs. Norton lives with her husband and invalid son in humble lodgings here.

"I believe," she said, "I am the happiest woman alive today.

"My afflictions began four years ago in Spokane, when I accidentally cut my hand with a knife. Partial paralysis, blood poisoning and mortification of the flesh succeeded one another rapidly and soon my whole body was affected.

"Amputation of my hand and arm brought no relief. I was like Job of old, and there seemed no deliverance. In this awful condition I was prevailed upon to use morphine and soon was its abject victim, using toward the last as much as five and six half-grain tablets every hour.

"The four years of this living death I spent mostly in the hospitals of Seattle, Spokane and Portland. For more than three months at a time I could not walk, and for months I was totally blind.

"That was my condition when I went to Olympia to die. Living in a shack near the Puget street Mission Assembly, the good Pentecostal people found me and offered prayer in my behalf.

"In a moment all pain was gone. I rose from my bed. A wonderful healing influence surged through my body, so that I shouted with relief and happiness. And from that hour on I have had no further desire for morphine, nor have I touched a grain since.

"I was to have had my other arm amputated next day. The doctor had given me but thirty-six hours to live unless that were done. When he came next morning he was amazed to find my transformation.

"I know the wonderful power of prayer!" concluded Mrs. Norton, who spends most of her time now caring for the sick and afflicted to whom she carries her message of prayer's efficacy.

CALLS PUBLICATION OF PEACE TERMS USELESS

Cites Attitude of British and French Press as Showing Fact.

London, Jan. 5.—Publication of German peace conditions would be useless in view of the attitude of the British and French press, according to the Berlin Lokal Anzeiger, as quoted in an Amsterdam dispatch to Reuter's. The Lokay Anzeiger bases its opinion on the resolution in the French senate that France could make no peace with an enemy who occupied French territory.

"Publication of our conditions," says this paper, "would now be undignified, and moreover would not be the least use. The evacuation of French territory is made a preliminary condition for peace negotiations. Though this condition is not contained in the entente note it still exists, and therefore it is the French senate and the French government who render impossible the publication of our peace conditions.

"We must show to the door any neutral who should dare to demand from us that we should regard as an invitation the words of the reply 'as a suggestion without conditions for opening negotiations is no peace offer.' We must refer such a neutral to the resolution of the French senate."

ON WAY TO FORT WAYNE.

According to word received Thursday, Claude A. Ott and family, who have resided in Panama for the past nine years where Mr. Ott has been in the employ of the government, have left for Fort Wayne. He will spend two weeks in this city with relatives and friends.

Gerald Leeper, clerk in the copper shop of the Pennsylvania tool room, will leave tomorrow for Chicago to spend the week-end.

Germ Murder Case Now Dropped After Seven Long Years

DR. AND MRS. HYDE.

Kansas City, Mo., Jan. 5.—Seven years of nerve-racking patience, during which suspicion for the murder of Col. Thomas H. Swope, millionaire and philanthropist, greyed his hair and wrinkled his features, have at last ended in vindication of Dr. B. Clark Hyde, and he and his wife, who refused money offers to leave him, are again happy.

Dr. Hyde was Swope's son-in-law and family physician. When the millionaire was found dead the physician was found guilty. Charges were that Dr. Hyde infected the drinking water of the Swope house with germs so he and his wife would inherit the $10,000,000 Swope estate.

Dr. Hydo was tried three times. The third trial has just ended with prosecution ordered dropped.

RECORDER ENTERTAINS SENTINEL EMPLOYES

E. H. Bookwalter Gives Sort of Farewell in Form of a Dinner.

As sort of a farewell upon his leaving the employ of The Sentinel to assume the duties of county recorder, to which office he was elected last November, Elias H. Bookwalter delightfully entertained The Sentinel employes Thursday evening from 5 to 7 o'clock at the Bookwalter tea room on East Wayne street.

Some days ago each employe of The Sentinel from garret to basement received an invitation sent out by Mrs. Stella A. Bookwalter and it goes without saying that the event was looked forward to by each man and woman on The Sentinel pay roll with great expectancy. Mr. Bookwalter had as his guests more than fifty, a few of whom were on The Sentinel staff way back there when Mr. Bookwalter first accepted employment with this paper. He came from the old Gazette, where he had been employed for years, about the time or soon after the Gazette and Journal were consolidated. And he has been connected with this paper since up to the very day he entered the recorder's office. He felt that he wanted to do something for the boys and the girls with whom he had so long been associated and a sumptuous dinner, enjoyed to the uttermost by all whose privilege it was to participate in it, was the result.

The serving began promptly at 5 o'clock and was kept up continuously until the last person had been served. The Sentinel's staff appreciate beyond words Mr. Bookwalter's hospitality and extend to him every good wish.

GIVES GUARANTEES TO THOSE UNDER ARREST

Queretaro, Jan. 5.—The constitutional assembly has adopted an article providing guarantees for persons arrested on criminal charges. The article abolishes the practice of holding prisoners incommunicado, permits the release on bail of prisoners accused of offenses punishable by less than five years' imprisonment and makes a preliminary hearing on all charges imperative within forty-eight hours after arrest.

A section of the article as reported by the committee in charge which provided for jury trial for offenses against the public peace or security of the nation committed through the press was rejected after a heated debate. As drawn the section would have affected foreign correspondents.

GETS PAROLE AFTER TWENTY-SEVEN YEARS

Allen County Man, Given Life Sentence for Murder, is Free.

Thomas Davidson, principal in one of the most stirring murder cases in the history of Allen county, was paroled from the state penitentiary by the state pardoning board Thursday. He has been in the big prison, where he was sent under life sentence, for twenty-seven years.

Davidson was charged with the killing of his uncle. It was alleged that he entered the little store, which his uncle kept at Arcola, and murdered the man in order to obtain money from the cash drawer. Change of venue was taken from Allen county courts after the preliminary hearing. Last stages of the stubborn legal fight were carried out at Columbia City, from which place Davidson was sentenced.

Judge Samuel M. Hench defended Davidson. The defendant refused to take the stand in his own behalf. He was sentenced on circumstantial evidence. For the past ten years his friends have tried to recure a pardon for him.

CAPTAINS CHAT TOO MUCH VIA WIRELESS

Gossiping Americans Incur Wrath of Australian Government.

Washington, Jan. 5.—Garrulous American sea captains, talking with each other by wireless, have brought down on their heads the wrath of Australian officials, it was learned today. Complaint has reached Washington that American ships, 2,000 miles apart in the south seas, discuss trivial subjects when the Australian wireless is trying to get into the air important messages. The American captains declare that antiquated wireless equipment in use in Australia is to blame for the situation. They deny that trivial messages have been exchanged.

The Australian charges are being investigated by American government officials and a curb will be put on the practice if it is found that the wireless is being used for a too free exchange of unimportant messages.

CRAVE RETURN TO FIELDS OF BATTLE

Real Homesickness for Trench Hits Invalid Soldiers.

Seattle, Wash., Jan. 5.—Homesickness for war's horrid realm!

It's a new disease affecting thousands of invalided European soldiers, craving return to the thrills of the battle line, says Lieut. Laurence Ward, British officer and "tank" charge hero.

Lieut. Laurence Ward.

Lieut. Ward is himself one of these strangely afflicted men.

"I'm positively eager to get back to the excitements of the war," he said during a visit to relatives here while recovering from serious wounds. Today he's hastening to his command again.

Ward's greatest adventure, for which he won the plaudits of friends and foe alike, was his experience as pilot of a British motor corps "tank" at the battle of Thiepval.

His great armored fort was overturned while crossing a German trench and was fought over for hours by opposing bombing parties and machine gun squads before the crew was rescued.

"It was a wonderful day," he said, "when 'His Majesty's Land Navy' went into action. I was in the fourth tank out, and as we scuttled into No Man's Land I'm not ashamed to say we prayed like good fellows!

"I'll never forget the long roar of our men as we passed out toward the Bosches' trenches—a shrill call to hunt the German rabbits out of their holes!

"Our tank reached the maze of barbed wire entanglements and we began bucking into them, backing when the engines stopped and ramming again until we were through.

"The patter of machine gun bullets on the tank armor was deafening. I noted Gunner Mitchell, Shropshire regiment machine gun sharpshooter. He was peppering away through out of the vents, almost suffocated with gases, but wearing the most contented expression.

"Time and again we changed our course to hunt the Germans out of their holes. I saw through a red haze in the gas-filled tank. Once we got entangled and hung over a shell crater at a precarious angle. We were all dizzy from smoke and pandemonium. And then disaster befell.

"A trench side caved under the tank weight and we tumbled over on our side. The Germans approached us from both sides, throwing bombs. Machine gun bullets drummed on the armored bottom of the tank. For more than an hour we lay there, returning their fire as best we could, believing the end near.

"Finally the German fire slackened and we knew that our men had come up to the rescue. At dusk our troops dug a trench about us and we crawled out.

"It was fated to be my last drive. During the night my legs went cold and became useless. The doctors discovered that I had injured my spine when the tank topples over; and partial paralysis had set in. I was then given an indefinite furlough.

"I have been in inferno and out again, but I am anxious to return.

"Yes, I am homesick for that border of No Man's Land!"

"INSURING FUTURE OF BUSINESS" IS TOPIC

H. Brooke Sale Addresses Members of Quest Club Friday Noon.

A successful business should have those basic qualities which, as they are used, automatically insure the future of a business, H. Brooke Sale, vice president of Hoffman Brothers company, told members of the Quest club Friday noon at a meeting of the Commercial club. His subject was: "Insuring the Future of a Business." J. B. Franke led in the discussion of the paper.

Mr. Sale's Paper.

Mr. Sale spoke in part as follows:

"I don't know that I can begin this paper better than to refer to the old receipt for rabbit pie.

"First Catch Your Rabbit."

"Unless the business is one of real true merit (that is, the rabbit is young and fat,) it is not worth insuring. But granted that the business has the necessary qualifications worthy of being insured, then the greatest problems facing it are to establish such basic policies that it will automatically insure its futurity.

"To outline the different department policies under the following subdivisions, seems to be my task: Organization, finance, selling, advertising, buying and manufacturing.

"There will, no doubt, be exception taken to the order in which I have named these. My reasons for naming them in the order given are as follows:

"If an organization is not first accomplished, there is little on which the various elements of successful business can be hung.

Must Be Properly Financed.

"If not properly financed, the organization will not have the confidence of its individuals, nor be able to command the respect of its customers or those from whom it purchases its raw material. These two I consider the basic foundation of a business. Brains (organization) and money (finance.) The rest of the classifications I have given are primarily sub-divisions of organization.

"I have named selling first—for the reason that, in these days of competition, if the best brains and energies of an organization are not directed to selling, then the product (unless it be one of a highly specialized article,) must drop down to a purely competitive basis, which means primarily—buying the raw material at the lowest possible cost and manufacturing by the most modern and approved methods."

"In advertising we find the partner of the salesman.

"Buying being the next most necessary adjunct of the manufacturing, I consider next in order, for, unless the raw material is properly bought—by which I mean with intelligence—then, no matter how much energy is exerted, the handicap of poor buying cannot be overcome by the manufacturing department.

"No doubt many of you have taken exception to placing manufacturing last, but isn't it, after all, just the plain problem of using the power in the very best way to accomplish the work and isn't this a tangible problem of which the many elements to be accomplished are before its head and can be readily changed when the method employed has been (or can be) superseded by a simpler and cheaper method which is developed by experience and more modern improvements of machinery?

"In considering this subject I have tried to look upon it as one who is about to embark in a new business, and not as applying primarily to my own business.

"Organization! This is the keystone to all successful business, and, when properly organized, is not the future of the business insured?

What Organization Means.

"By organization I mean such executives selected as will, in co-operation, formulate policies that are of such a character that a business must earn money. By this is implied that the head of the business has the knowledge of human nature and of those with whom he surrounds himself, that the work of the different departments will function much as the organs of the human body perform their various duties and produce what we are pleased to call 'man.' This executive can do, and must do, what no human anatomy has done; namely, establish a line of promotion and introduce—when such line of promotion is not flexible enough to accomplish—new blood into the business, so that old organs—or, to make our simile more apt—departments are completely renewed and thus capitalize energy and ambition. This line of promotion must be so definitely established that even the head of the organization must select his successor.

"I was much interested in an article I recently read in which the head of an organization capitalized hero-worship and flung aside his own modesty, making an able second self of his worshipper and, this, without detriment to his second self.

"Will there be any difficulty in financing a business when the organization has character, brains and personality? I say no.

Character Comes First.

"Ask the head of any financial organization today what they will loan on, with the least anxiety, and you will invariably find character, for character means integrity and integrity means pay when it agrees to.

"Capital today, as ever, is seeking investment in companies that are poorly organized and, therefore, making money.

"I do not propose to dwell upon selling, advertising, buying and manufacturing as I have in the foregoing, as, we have had, in the past year especially, so many good papers on each subdivided under the different phases. In the last number of 'Printers' Ink' I was especially taken with an article on advertising which referred to the use of superlatives and, which invariably lead a business into trouble.

"The advice given was that, in the long run, honest, modest statements of the truth preserve the dignity and integrity of a business and, isn't that, after all, insuring the future?"

TWO NEGROES BOUND OVER TO GRAND JURY

Charged With an Attack on Fourteen-Year-Old Girl.

Two negroes, charged with assault on a 14-year-old girl, were bound over to circuit court by Police Judge Kerr Friday morning.

Stewart Harrison, 40, one of the negroes, is father off the girl, who told police about the attack made upon her. Bishop Hughes, 28, who roomed in the Harrison home, 1704 Hoagland avenue, is the other man accused of the crime.

Harrison was in court on Tuesday morning when he was convicted of operating a disorderly house and was fined $15. He has never been married to the colored woman who is mother of four children, including the girl who made the assault charge against her father.

Preliminary hearing of the case was held in the little rear room to the north of the police court room. The two defendants did not testify. Judge Kerr bound the men to the higher court on testimony of the little girl.

Other Police Court Cases.

Police found Oscar Murphy and Ester Weaverly occupying the same room when the officers entered a rooming house on South Calhoun street Thursday night. The pair are charged with fornication. Their cases were continued until January 12. The woman wept bitterly after the court session. She told of having a sick mother in a town near Fort Wayne. She fears the shock, upon hearing of the escapade, will kill her mother, she says.

George Morris, who tried to enter a house on Taylor street while intoxicated, Thursday evening, was fined $5 and costs.

WORKS RAPS WILSON IN SENATE SWAN SONG

Retiring California Senator Turns Verbal Fire on President.

Washington, D. C., Jan. 5.—With an arraignment of President Wilson's administration and of what he called decadence in American society and government, Senator Works of California, who retires March 4, began a valedictory speech yesterday in the senate. He deplored a "tendency toward centralized, unchecked and unlimited" power on the part of President Wilson, denounced profligacy of wealth, recommended that the idle rich be compelled by law to work and urged formation of a new progressive political party, known as the "Liberty party."

Recess for the night interrupted the speech after two hours and the senator will conclude today.

Wilson Practical Dictator.

Senator Works declared usurpation of power by the president had amounted "practically to a dictatorship." Referring to executive pressure on legislation he said:

"If this kind of executive coercion is persisted in and submitted to by Congress, then our government is no longer a government of the people. It is not a democracy. It is not a republic. It is a despotism worse than any known monarchy."

He reviewed the Wilson administration in great detail. In urging repeal of the Panama free tolls clause, he said, the president had "descended to the level of a common lobbyist," and the submission of congress, he described as a "humiliating spectacle." Efforts to force the shipping bill, he said, were "shameful," adding that the reserve act was passed by "presidential dictation and caucus rule," and the child labor bill by "humiliating lobbying for political reasons, the president being a political candidate."

Calls Action Arrogant.

The president's insistence on passage of the Adamson act, Senator Works declared, was "deplorable," while the recent confirmation of a supreme court justice furnished a "shocking example of unwarranted influence."

"The course of the president in Mexico," he continued, "has been one of arrogant and arbitrary, if not unlawful, exercise of power. Twice has the president appointed commissioners, without lawful authority to negotiate with commissioners appointed by Carranza to settle our relations with Mexico."

The senator also denounced the President's appointment of personal representatives in Mexico, and said that the United States had twice gone to war with Mexico without the sanction of congress.

CASE OF TYPHOID FEVER.

Mrs. C. A. Roy, of 1221 Lillie street, was taken to the Lutheran hospital, Friday morning. She is suffering from an attack of typhoid fever. Dr. Morgan advised her removal to the hospital

We'll Be in It if War Continues, Says Lewis

Washington, Jan. 5.—Speaking in the senate today in support of the Hitchcock resolution to endorse President Wilson's peace note, Senator Lewis, democrat, declared the European war could not continue without the United States becoming involved in it.

Senator Lewis declared that the temper of the American people would brook no apology or excuse for further destruction of American life but "would resent and punish to the full extent of America's power."

By a strict party vote, 41 to 27, the senate today agreed to the motion of Senator Hitchcock to proceed with formal consideration of his resolution, endorsing President Wilson's peace note. The vote makes the resolution the regular business of the senate.

Senator Gallinger, minority leader, after conference with republican senators, submitted a substitute to say: "That the senate of the United States in the interest of humanity and civilization expresses the sincere hope that just and permanent peace between the warring nations of Europe may be consummated at an early date and approves all proper efforts to secure that end."

Senator Lewis, apparently referring to the submarine situation, declared: "Do you feel that the people of this nation are in such temper that they can ever again allow any commander of ships, any captains of army, any officer of diplomacy, to visit upon this country an injury to a citizen or property and escape on an excuse of misconception of orders or zeal of an officer?

"If these conditions again be repeated," he continued, "America will not again accept that form of apology and will resent and punish to the full extent of her power. No amount of logic of pacification would prevail.

"I say, continuance of war means war with the United States and in this I have never a doubt of the comprehension of the United States and faith in the sagacious foresight of the officials of the administration, in the effort looking to bring about peace with Europe that we might maintain peace in America."

KEEGAN GETS PLACE ON NEW COMMISSION

Washington, Jan. 5.—President Wilson today nominated the following members of the workmen's compensation commission to administer the federal employes' liability law

Dr. Riley McMillan Little, of Swarthmore, Pa., republican, for a term of six years.

Mrs. Frances C. Axtell, of Bellingham, Wash., a progressive, for a term of four years.

John J. Keegan, of Indianapolis, a democrat, for a term of two years.

THE DEATHS.

KRECKMAN.

Mrs. Bertha Kreckman, aged 35 years, wife of Otto Kreckman, 1131 Washington boulevard west, died at the home of her mother, Mrs. Lizzie Schumacher at Defiance, Ohio. She had been visiting there for the past two months. Death was due to acute dropsy and came suddenly. Mrs. Kreckman was a member of the Maccabees and besides the husband is survived by a son, Clifford. Funeral services Friday afternoon at 2 o'clock at Defiance.

EBY.

Mrs. Elizabeth Eby, wife of Rufus Eby, of 41 Carson avenue, died at the family home Thursday evening at 10:35 o'clock, following an illness of seven years. During these years she had been bedfast the greater part of the time. She was 78 years of age. Besides the husband she is survived by three sons—Mark, Robert and Edward, all of Fort Wayne.

WILL DECIDE CASE OF CIGAR SALESMAN

Special Judge Attorney Meyers called police court at 3 o'clock Friday afternoon to finish the hard-fought case of Leslie Nash, cigar salesman, charged with embezzlement. Four attorneys besides Deputy Prosecutor Hoffman, are engaged in the trial which Nash is charged with appropriating $200 of money belonging to the Arnold Cigar company.

Final arguments will be heard Friday afternoon and Meyers will pass judgment. Nash claims he is not guilty of irregularities, but that he used the money to gain business for the firm, while acting as their salesman.

OFFICERS INSTALLED.

By the Ladies Woodmen Circle No. 40, Wednesday Evening.

A record breaking meeting of the Ladies Woodmen circle, No. 40, marked the installation of officers in Vordermark hall, Wednesday evening. The officers installed were as follows: Post guardian, Della Dotson; guardian, Catherine Weikert; attendant, Minnie Benker; assistant attendant, Ella Wolfe; chaplain, Elizabeth Spanley; inner sentinel, Catherine Bixler; outer sentinel, Emma Beard; third manager, Bell Faudree; physician, Dr. Dancer. After the meeting a social session was enjoyed.

HOPE TO BUILD ROOF ON BASIN FOR $20,000

Works Board May Alter Plan to Obtain Lower Figure.

Slight change may be made in plan for the reservoir roof, in an effort to bring cost of building the steel structure to $20,000. By using oil filler for the wood coating instead of paint, in the first treatment, and installing a different form of durable roofing material the price can be brought down at least $2,000, it is thought. Body of the cornical steel covering will remain the same and will insure many years of service for the protector.

Contract for the roof will be let on Saturday morning. The Fort Wayne Engineering company submitted the lowest of the four bids considered by the board of works on Thursday afternoon. The bids for the covering were as follows: Engineering company, $22,251.25; Midland Engineering company, $25,686.62; John Hageman, $24,350, and Max Irmscher, $25,311.

LET CONTRACTS.

Anton Reig was granted contract to build six of the seven new sewers, ordered by the board of works, Thursday night. Moellering Construction company will lay the other sewer, which will complete the adding of another mile to the city sewer system.

Petition for consideration of cement sidewalks on the east side of Harrison street, from Darrow avenue to Rudisill boulevard, was placed on file. Plat for a new extension of the Driving park addition and Rousseau Truck Farm addition, were approved by the board.

The board of works confirmed assessment rolls for the construction of sewers in the alley between Piqua avenue and Barr street, from main sewer No. 37 to Wiebke street, and in the alley between John and Gay streets, from the alley north of Rudisill avenue to Oxford street.

A petition for permission to construct a sidetrack connecting with the Wabash railroad across McDonald street, signed by Charles Boerger, manufacturer of cement blocks, was favorably acted upon and referred to the city council for final approval.

Birth Record.

Born, to Mr. and Mrs. Clinton Schultz, 404 Elizabeth street—a girl.

To Mr. and Mrs. Frank Ross, 523 East Washington street—a boy.

To Mr. and Mrs. William Norton, 1126 Glasgow avenue—a girl.

To Mr. and Mrs. Albert Wanganian, 1433 Grant avenue—a boy.

To Mr. and Mrs. John C. Adair, 341 Melita street—a girl.

To Mr. and Mrs. Francis Miller, 2332 Lillie street—a girl.

To Mr. and Mrs. Orville DeLong, 1113 East Lewis street—a boy.

Go to Indianapolis.

Colonel D. N. Foster and Charles J. Steiss will go to Indianapolis on Saturday to confer with the legislative committee of the state park association on the subject of the new park law proposed for cities of Indiana. The law provides that the entire city be made a park district and that all taxpayers be assessed for park improvements with the bonding period extending over thirty years. Under this law the Fort Wayne board expects to buy eight tracks of land in and near Fort Wayne for future park use.

Building Permit.

Building permit was granted William Wiegman to build a new store front at 111 West Wayne street at a cost of $1,200.

TWO BROTHERS GONE; POLICE ARE BAFFLED

Disappearance of Candy Merchants is Puzzling Evansville.

Evansville, Ind., Jan. 5.—A mystery which so far has baffled the police in their efforts to solve the disappearance of George and Nicholas Christian, brothers, well known candy manufacturers and confectioners, here since Sunday, is no nearer solution.

The brothers, who started in business here ten years ago, have never closed their store for a day since its opening until last Sunday night, when they placed a notice on the front door announcing the store "closed on account of New Year's." The theory has been advanced that the brothers got into an argument which resulted in the death of one and the disappearance of the other because of reports on the night of the disappearance that shots were fired near their establishment, but this is denied by friends.

An employe of the store was given $55 on Sunday night and told to stay at home as the store would be closed. He claims the brothers owe him $300.

BULLETIN.

Washington, Jan. 5.—When Secretary Tumulty learned today that Representative Wood, of Indiana, had mentioned his name in the "leak" inquiry, he issued a formal statement demanding a public apology and denying flatly that he ever knew of the president's peace note before it was made public.

BULLETIN.

Washington, Jan. 5.—The state department late today authorized the statement that President Wilson was not contemplating sending another peace note.

EIGHT LIFE TERMERS ARE GIVEN CLEMENCY

Ralston Commutes Sentences as One of His Final Official Acts.

Indianapolis, Jan. 5.—Eight life prisoners were granted clemency by Governor Ralston yesterday, following recommendations of the boards of trustees of various state institutions. Six other prisoners were granted clemency also.

The sentence of Edward Taylor, sentenced January 28, 1896, to life imprisonment from Jefferson county, was commuted to two to twenty-one years' imprisonment.

Charles Sprong, sentenced May 3, 1905, from Wabash county to life imprisonment; sentence commuted to two to twenty-one years.

Henry Smith, sentenced January 24, 1900, to life imprisonment for murder in Marion county; sentence commuted to two to twenty-one years.

Thomas Davidson, sentenced from Whitley county, July 8, 1890, to life imprisonment for murder, was paroled.

Joseph Plew, sentenced from Kosciusko county, September 10, 1887, to life imprisonment for murder, was paroled.

Levi Kessler, sentenced from De Kalb county, February, 20, 1886, to life imprisonment for murder, was paroled.

Lewis Abbott, sentenced October 5, 1878, from DeKalb county for murder, was paroled.

Fred Cassell, sentenced April 22, 1909, from Marion county for murder, sentence commuted to two to twenty-one years.

Gotherd Brown, sentenced from Adams county, October 21, 1907, for burglary to ten to twenty years, was granted a commutation to two to fourteen years.

John W. White, sentenced from Madison county, September 26, 1914, to ten to twenty years' imprisonment for burglary, was granted a commutation to two to fourteen years.

William Taylor, sentenced from Floyd county, November 12, 1908, to ten to twenty years for burglary, got a commutation to two to fourteen years.

Fred Kinney, sentenced from Tippecanoe county, January 12, 1909, to ten to twenty years' imprisonment, was granted a commutation to two to fourteen years.

G. B. Thompson, sentenced from Madison county, April 26, 1909, to ten to twenty years for burglary, was granted a commutation to two to fourteen years.

Dan McKellar, sentenced from Lake county, December 15, 1910, for burglary, was granted a commutation to two to fourteen years.

"HAPPY JACK" IS IN THE CITY; WEIGHS 739

J. C. Eckert, known the country over as "Happy Jack," and familiarly known to Fort Wayne people as "Pud," is in the city visiting friends and relatives. He stated Friday afternoon to an interviewer that he only weighed 739 pounds.

It is needless to dwell on his size, but he states that regardless of belief of many people, he is very healthy and has not been sick a day since he left Fort Wayne the last time. This is his first visit here in some years. He resides in Mericus, Georgia.

He intends to remain in Fort Wayne another week, when he will leave for a trip through the east, stopping in Pennsylvania, where he will visit friends. March 1 he will begin his season. He has been playing in vaudeville during the past year.

Happy Jack is staying at the Baltes hotel while in the city.

TOTAL CONTINUES TO SWELL AND IS 404,398

Total sales of Red Cross Christmas seals continue to swell each day and with the receipts of Thursday afternoon and Friday morning they have reached a total of 404,398. A representative of the Anti-Tuberculosis league is still engaged in collecting the funds from the drug stores. When all these funds have been turned in it is probable that the number of seals sold will be near 425,000.

At the present time the seal sale per capita is 5.3. Last year with a sale of 4.6 seals per capita Fort Wayne was able to capture second place in the United States. Nothing has been heard about the standing of other contestants for first place.

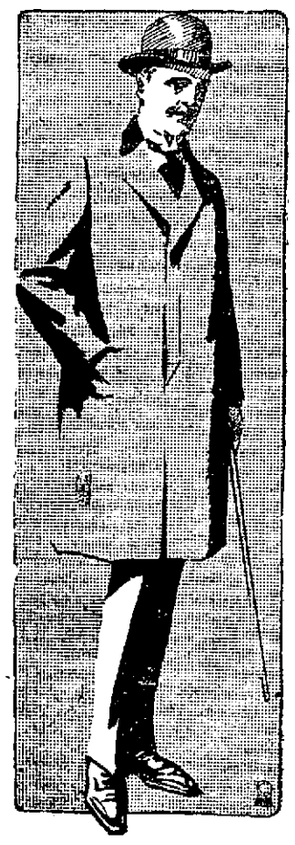
SOCIETY

Miss Caroline Weller, who had been spending the holidays here with relatives, has returned to National Kindergarten college, Chicago, to resume her studies.

The K. K. K.'s were entertained at the home of Mrs. G. G. Lortz of 2116 South Webster street, Wednesday afternoon. The afternoon was spent in playing games and electing officers for the ensuing year. At five o'clock a delicious luncheon was served by the hostess. Officers elected were: President, Mrs. C. R. Zeddis; secretary and treasurer, Mrs. F. P. Koester. Members present were Mrs. P. Porter, Mrs. C. F. Schwartz, Mrs. H. Ulch, Mrs. O. Alringer, Mrs. E. C. Hollenbacher, Mrs. R. J. Scott, Mrs. P. Staley and Miss Mae Zeddis.

If You See It in Our Windows, You'll Find It in Our Store!

Why A Latker Suit Or Overcoat? Just This, Men!



LATKER CLOTHES are an achievement. They are the result of a well defined policy to give you more—yea, MOST for your money and sell a GOOD suit of clothes at a price any man can afford.

You fellows who are in the race to set a pace know that business is swift these days—and you're in competition—man to man—with fellows of your own kind—who consider "dress" as a matter of importance. YOU can't afford to credit them a single point in the matter of appearance.

Latker Suits and Overcoats at $10 $15 $20

Are made to satisfy the "up-and-doing" class of men—those lively fellows full of red-blood with "pep" in every step. Latker Clothes have a fit and a finish that secures a man's confidence in his appearance and himself.

You can't find any better at either of the three prices on which we specialize. We can't!

At this season of the year when sales are heralded from every quarter, Latker's clothes values stand head and shoulders above them all, for our standardized values at $10, $15 and $20 are the same the year round. We do not mark a Suit or Overcoat $20 and reduce it to $12 or $15 at the season's end. Our regular every-day prices are 9 times less—much less than you are asked to pay in sale periods. Don't let any one "pull the wool over your eyes"—Buy by Comparison We do!

Come in and see what a good store this is to start the New Year with.

WHY WEST OPPOSES JAP IMMIGRATION

Francis J. Heney Writes in Defense of California's Position.

BY FRANCIS J. HENEY
Noted Progressive, Graft Prosecutor and One of the Framers of Anti-Alien Legislation in California.
(Copyright, 1916, Newspaper Enterprise Association.)

Los Angeles, Cal., Jan. 5.—Permitting any case to come to trial in our courts which may tend to nullify the present effectiveness of the California alien land law is, it seems to me, a grievous mistake on the part of California officials.

The people of the Pacific coast, of California in particular, are naturally opposed to wholesale Japanese immigration. If the natives of Japan, the working class especially, were permitted to emigrate to any particular section of the United States unrestricted, and if they were allowed to possess land on exactly the same terms as do the citizens of this country it would be a matter of grave concern to the entire nation.

I am not opposed to Japanese immigration in California through any fear that these people will not become good citizens, i. e., law abiding and industrious citizens. My objection rests on a conviction that the yellow races of the Orient can never be assimilated by the Caucasian race.

Should we permit these nationalities to come into our country unrestricted, giving them the privilege of purchasing land on the same basis as native Americans now hold it, we would only be loading ourselves down with the responsibility of another race problem, similar to the one we are confronting in the south today.

It was to avoid the possibility of any such contingency that the alien land law of 1913 was passed by the California legislature. This measure provides that no alien not eligible to citizenship has the right to own land in California.

The stability of our democracy rests on the elimination of class, cohesion of races, and a united purpose regarding ideals. If a race totally different from our own is allowed to gain a footing in this country, to own our land on equal terms, and is yet unable to meet us on equal terms socially and economically surely we are victimizing ourselves and fostering a condition in which lurks the direst peril to our nation as an institution. Such a condition would strike at the very foundation of the republic.

The gentlemen's agreement, by which it is understood that Japan will not give passports to its coolie or laboring class, has the effect of protecting us from an influx of cheap laborers and undesirable yellow men. And the California alien land law gives to Japanese already in this country exactly the same privileges which are extended to Americans in the empire of Japan. Americans are not permitted to own agricultural land in Japan, therefore why should the Japanese be given the right to possess farms here?

The American-born children of subjects of the Mikado in the United States, however, are entitled to land on exactly the same terms as are the children of American citizens. And no law can be drafted which will prohibit such American-born Japanese or other races from holding land just as other American citizens do. Such a measure would be unconstitutional. This matter is specifically covered by the fourteenth and fifteenth amendments to the constitution of the United States.

This would preclude the possibility of any other statute being enacted to take the place of the present alien land law. As the law now stands, it is not possible for foreign-born Japanese to own agricultural property in the state of California.

LIFE VERY CHEAP IN BRITISH INDIA

Over 28,000 Killed During Past Year by Snakes and Wild Animals.

Simla, India, Dec. 1.—(Correspondence of The Associated Press.)—More than 28,000 people were killed by snakes and wild animals in British India last year. The government reports show that 1,923 persons were slain by tigers and other beasts, and 26,385 perished through being bitten by reptiles, an increase over the previous year of 3,700 deaths met in this manner. No figures are available for the native states with their population of some 90,000,000.

During the past five years elephants, tigers and other animals have killed 9,192 people in British India, and, of these, tigers have claimed a toll of 3,682. In the same period 116,828 persons have died as the result of snake bites.

Last year the highest total of deaths due to animals in any one province was in Bihar and Orissa, where 684 people lost their lives, tigers alone accounting for 376. In the United Provinces one man-eating tiger in the Almora district killed ten persons out of the provincial total of twenty.

In order to effect the destruction of as many wild animals and snakes as possible the government pays bounties. The number of animals destroyed in 1915 was 25,626, including 1,582 tigers, 6,623 leopards, 2,775 bear and 2,191 wolves. The total number of snakes killed was 184,663.

Cadomene Tablets Lift You Over The Wall to Happiness

Physician Says Weak, Nervous People Gain by Leaps and Bounds When Cadomene Takes Hold.

Tablets Contain Vital Elements for Nerves, Brain and Body.

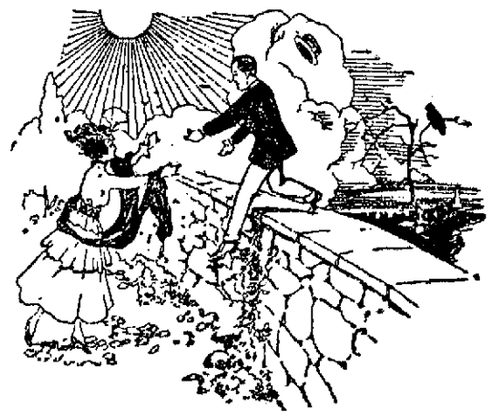
A nationally known physician, in speaking of the benefits to be expected from Cadomene, the iron, phosphorous, vegetable tonic, said:

"When the structures and functions of the body are in perfect health, they work without attracting attention. The moment that any part of the system becomes inefficient in functioning, the cry of pain, or distress, tells us all too quickly that we are being attacked by nerve and cellular weakness.

Proper tonic and reconstructive means must then be resorted to as an aid to nature, and it is well known that iron, phosphorous and certain vegetable extracts yield prompt and permanent aid." And when Cadomene Tablets are directed to the nervous system, the origin of disturbance is reached, so that the grievous symptoms and distress may be quickly vanquished.

When you become conscious of an unnatural condition, these symptoms are usually manifested. Extreme nervousness, irritability, despondency, sick-nervous-headache, with pains at the base of the brain and along the spinal column, sleeplessness, a coldness of extremities, with a listless, unambitious attitude toward life and its successes, and an ever-present but natural desire that all things desirable should be yours.

Careless, indifferent, or thoughtless expenditure of your vital forces may be the cause, or prolonged illness, or overwork, with dissipation and excesses, but whatever the cause, you are like an engine with insufficient fuel—your full supply of nervous energy and strength is not forthcoming and therefore the tonic, alterative and nutritive action of Cadomene Tablets, on the nerves and cells of every muscle and structure of the system are essential to your recovery and complete renewal of nerve-energy and strength.



Cadomene Tablets are prepared in convenient form and may accompany you anywhere in pocket or purse, and taken with due regularity to produce satisfactory and happy results.

They are sold by all wide-awake druggists in sealed tubes with full directions for self-administration. They also bear a guarantee of satisfaction or money back.

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prominent Physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances or refund the money. It can be obtained from any good druggist and is one of the very few preparations I feel should be kept on hand for regular use almost every family." It is sold in Ft. Wayne by Dreier Drug Co., Meyer Bros. and other druggists.

SECOND BANQUET IN OBSERVANCE OF GROWTH

Citizen's Trust Stockholders Celebrate Passing of $2,000,000 Mark.

On the occasion when the assets of the Citizen's Trust company had passed the two million dollar mark, the stockholders, directors, officers and a few invited friends enjoyed a banquet at the Anthony hotel Thursday night. Sixty sat down to the tables and enjoyed the evening's program.

This is the second time in the history of the trust company that a banquet was given in observance of the growth of the organization. Sixteen years ago the trust company was organized with a capital stock of $200,000. Nine years later the passing of the one million dollar mark in assets was observed. In the next seven years and before the close of the year 1916, the assets had reached $2,010,000.

An orchestra furnished music for the occasion Thursday evening and Judge O. N. Heaton, president of the trust company, presided as toastmaster. The particular guest of honor was Judge Nelson G. Hunter, of the Wabash circuit bench, and also president of the Wabash County Trust company. He is also president of the trust company section of the Indiana Bankers' association.

Following the introduction by Judge Heaton, the addresses were given. Judge Hunter, who is an eminent authority on trust companies, their administration, and on the trust company branch of fiduciary enterprise, based hisremarks on these subjects.

Judge John W. Eggeman, of the Allen circuit bench, was the next speaker and he spoke briefly on matters of interest to the men gathered for the gala occasion.

"Appella" made her debut in Fort Wayne Thursday evening at this banquet. Her presence was the source of much comment. Everyone present believed that she was the best ever. The drink is manufactured by the Lafayette National Fruit Juice company, and is guaranteed under the W. J. B. grape juice act.

The guests who were present at the two-million dollar banquet were: Judge Nelson G. Hunter, of Wabash; Judge Owen N. Heaton, Judge John W. Eggeman, Judge Sol A. Wood, Judge James H. Rose, John Ferguson, Edward F. Yarnelle, Ernest W. Cook, Edward J. Ehrman, John P. Evans, S. S. Fisher, Max B. Fisher, E. E. Griest, Gottlieb Haller, Al Hazzard, Benjamin F. Heaton, W. D. Henderson, W. J. Hess, Fred Lambert, W. M. Leedy, Abe Levy, George H. Loesch, James McKay, R. L. Magee, Herman Michael, H. J. Miller, W. L. Moellering, E. E. Morgan, William L. Morris, David L. Pettit, Howell C. Rockhill, William C. Schwier, Adam A. Serva, Fred J. Thieme, A. O. Waterman, Henry Wehrenberg, Abe Weil, Ike Weil, E. M. Wilson, John B. Harris.

Several vocal numbers were rendered by Miss Ethel Doud and Earl Thompson during the evening. Miss Emel Verweire presided at the piano. The selections were well received, encores being demanded after each number. Their singing was one of the features of the evening's program.

COURT DESIGNS BRAND NEW LID FOR MUNCIE

Raid on Gamblers Follows Order for Strictest Law Enforcement.

Muncie, Ind., Jan. 5.—Muncie will be a closed town in the full sense of the word if the county grand jury and Horace G. Murphy, the new prosecuting attorney, follow out the suggestions given yesterday by Judge William A. Thompson, who was elected judge of the Delaware circuit court last fall on a strict law enforcement platform. In his instructions to the grand jury, which covered several typewritten pages, Judge Thompson directed that the grand jury conduct an investigation as to the operation of motion picture shows on Sunday, the opening of cigar and candy stores on the Sabbath and the operation of gambling rooms and "blind tigers."

The court mentioned in his instructions that "gambling is the vice most prevalent in the city." According to general information, Muncie has been an oasis for eastern Indiana gamblers in the last two years.

Indianapolis gamblers have been quick to take advantage of the lax law enforcement and games in which several thousand dollars changed hands have been played here almost nightly. It is said that all kinds of gambling devices have been in operation, from plain poker to the biggest of "big bank" games.

As Prosecutor Murphy has been one of the leaders in the law-enforcement movement here, it is believed that a general crusade will start against all forms of lawlessness. It is understood that an effort will be made to stop the playing of all card games and the operation of punch boards in cigar stands and hotels.

Judge Thompson also recommended that the grand jury investigate as to the dodging of taxes, suggesting that if some of the wealthy tax dodgers were indicted the taxes of the common people would be lowered by the growing tax duplicate.

Immediately following Judge Thompson's instructions to the grand jury the police conducted a raid on a gaming house in the uptown district and arrested three men, who gave their names as Emory Nichols, George Cosgrove and Ralph Baker. All were released under $50 bonds. This was the first raid of the kind made by the police in months.

BILLIK, FREED, SAYS HE BEARS NO MALICE

Pardoned Man Smiles on Romance of Daughter and His Accuser.

Chicago, Jan. 5.—Herman Billik stepped from Joliet penitentiary yesterday afternoon, after eight years of penal servitude, bowed in stature, broken in health, but not crushed in spirit.

He bore no malice, he said, toward the man who perjured and brought him victed him of murder and brought him near to the scaffold, to be saved only by a last minute reprieve which changed the penalty to life imprisonment.

Billik was met at the penitentiary by his son, Herman, jr., a Chicago machinist, and a newspaper man active in the fight for Billik's pardon, which was granted by Governor Dunne as one of the last acts of his administration.

Driven with his son in an automobile to Chicago, Billik was met here by his attorney, Francis E. Hinckley, who with the newspaper man and Father Peter J. O'Callaghan, formerly of St. Mary's church, has fought ceaselessly for Billik's pardon.

Of Jerry Vrzal, admittedly whose perjured testimony was a big factor in convicting him, and of others, Billik said:

"Every day of the eight years I was in the penitentiary I have struggled to forgive those whose falsehoods sent me here. I have conquered. I forgive them all. I hate no man."

It was Vrzal's admission that he had perjured himself to convict Billik of the murder of one of the five members of the Vrzal family, who died by poison, that won Billik his first reprieve and finally his pardon.

The bitterness he at first held against Jerry has so changed that Billik is commenting on the report that Jerry and his daughter, Edna Billik, 19 years old, were engaged. "If she loves him I shall be satisfied to see them married."

"My wife and daughter have stuck to me all this time and they will not desert me now," he continued, answering reports from Cleveland that his family would not be glad to see him.

It was to join these two and his sister that Billik was to leave early today for Cleveland, where, with the financial assistance of his sister, he hopes to establish himself in the grocery business.

GIRL SAYS PREACHER TAUGHT HER TO STEAL

Arrests Follow Thefts in Stores at South Bend and Goshen.

South Bend, Ind., Jan. 5.—Miss Emma Miller, an 18-year-old country girl, who declares she was taught the tricks of the shoplifter by a former Presbyterian missionary; Esther Miller, 20 years old, her sister, and Ralph Janness, 21 years old, the missionary, are under arrest here as a result of extensive thefts in stores in Goshen, South Bend and other cities.

The girl confessed yesterday after Sheriff Sanford, of Elkhart county, recovered stolen goods valued at $500 from the homes of Samuel Miller, her father, and Jacob Miller, her grandfather, near Nappanee.

The Miller girl told the old, old story of the girl who tires of a country home. Her father, a well-to-do farmer, recently was committed to the northern Indiana hospital for the insane. Leaving her home, the girl came to South Bend to seek employment.

There she met Janness, who conducted religious meetings in the street and in some churches. Janness taught her how to become a shoplifter, according to the girl's confession to the police. The couple operated extensively in Detroit, Mich.; Toledo, O., and other cities, she declared.

According to the Miller girl's confession Janness never stole anything himself, but directed her operations. The couple posed as man and wife, she said, when they were in other cities.

During the Christmas rush the girl is said to have stolen a $75 coat from the Hudson company dry goods store in Goshen, which was found in the girl's trunk at her grandfather's home. The coat was identified by Robert Hudson, president of the company, who accompanied Sheriff Sanford.

The arrests resulted from the attempt of Miss Esther Miller to pawn a ring at a South Bend pawnshop, which is alleged to have been stolen.

Janness and the Miller girls probably will be taken to Goshen for trial.

DAILEY AT WASHINGTON.

Washington, Jan. 5.—Frank C. Dailey, of Indianapolis, prosecutor in charge of election fraud investigations in Ohio, Indiana and Illinois, arrived in Washington for a conference with officials at the department of justice yesterday afternoon. It is understood he submitted a full report of the evidence in his possession and asked for further instructions. It was intimated the department may abandon its purpose to institute prosecution and instead may suggest to congress legislation to strengthen the federal election laws.

Assistant Attorney General Wallace denied, however, that the department may abandon prosecutions. Another conference will be held. The officials' care in blocking out a form of indictment indicates that indictments are expected.

BEAUTIFUL HAIR, THICK, WAVY, FREE FROM DANDRUFF

Draw a moist cloth through hair and double its beauty at once.

Save your hair! Dandruff disappears and hair stops coming out.

Immediate?—Yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after an application of Danderine. Also try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, charming, lustrous hair, and lots of it, if you will just get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed. —Advertisement.

COUNT BANISHED ON POLITICAL PRETEXT

Love Affair of Princess Louise Has Interesting Aftermath.

Budapest, Hungary, Dec. 20.—(Correspondence of The Associated Press.)—The love affair of Princess Louise, of Belgium, and her former riding master, Count von Matassich, a Hungarian subject and first lieutenant in the Austro-Hungarian cavalry, had an interesting aftermath recently when the count was ordered to leave Budapest for "political reasons." He was ordered to remove to his native town in Croatia, but eleventh-hour intercession by Dr. Visontal, the legal adviser of Princess Louise, influenced the police to permit Matassich to remain in the capital under surveillance.

Back of the action lies the continued endeavor of the family of the princess to separate her from Matassich, who eloped with her when she was the wife of Prince Philip of Saxe-Coburg in 1896. Some time ago the family suggested that the princess place herself voluntarily under guardianship but the princess has not yet consented to this. She was not permitted to live in either Vienna or Budapest, but finally obtained permission to reside in Munich, where she now is. It is considered unlikely that Count Matassich will be given permission to go to Munich, so that for the duration of the war, at least, the couple will be separated.

Princess Louise is the oldest daughter of the late King Leopold of Belgium. In 1875 she married Prince Philip of Saxe-Coburg, who was fourteen years her senior, when she was 17. She was 35 when she met Count Matassich, who was employed as her riding master, and soon their relations became the scandal of Europe. Shortly after the elopement Count Matassich was arrested, charged with forgery in aiding Princess Louise to swindle Vienna moneylenders by cashing notes with the forged signature of Princess Stephanie. He spent a term in prison, while the princess was confined for several years in a sanitarium, from which she escaped in a sensational manner and returned to her lover, while Prince Philip brought suit for and obtained absolute divorce.

THE HABIT OF TAKING COLD.

With many people taking cold is a habit, but fortunately one that is easily broken. Take a cold sponge bath every morning when you first get out of bed—not ice cold, but a temperature of about 90 degrees F. Also sleep with your window up. Do this and you will seldom take cold. When you do take cold take Chamberlain's Cough Remedy and get rid of it as quickly as possible. Obtainable everywhere.—Advertisement.

Hurrah! How's This

Cincinnati authority says corns dry up and lift out with fingers.

Hospital records show that every time you cut a corn you invite lockjaw or blood poison, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called freezone can be obtained at little cost from the drug store out is sufficient to rid one's feet of every hard or soft corn or callus.

You simply apply a few drops of freezone on a tender, aching corn and soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain.

This drug is sticky but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this.—Advertisement.

Announcing A Sale of Men's Clothes Truthfully and Straightforwardly

Let us tell the story quietly, quickly, simply. No boastfulness, no noisy, circus methods. Just the plain truth, unadorned by the usual sale rhetoric.

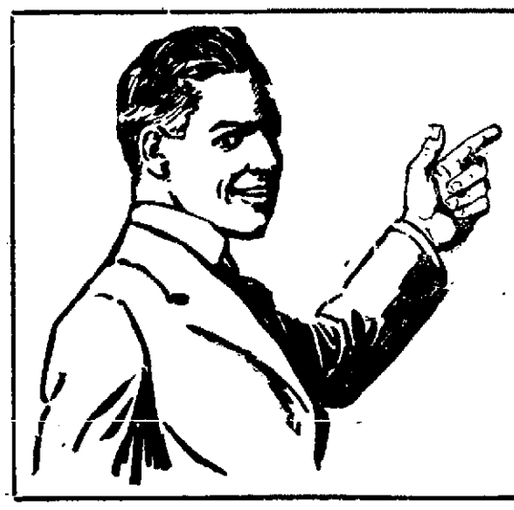
Clothing that is worth from 15 to 25 per cent. more than it was three months ago is offered you at a reduction of 20 per cent.

Not the usual sale merchandise, with a showy outside and cheating makeshifts inside. But standard merchandise, guaranteed by the signature of such makers as A. B. Kirschbaum Co., genuine through and through.

There is but one Kirschbaum standard in fabrics—100 per cent. all-wool. There is but one Kirschbaum standard in canvases, linings, thread, etc.—the very best obtainable. There is but one Kirschbaum standard in workmanship—the most painstaking.

You know sale prices have been a common bait held out to the credulous in unscrupulous advertisements. So much so that the word "sale" is largely discredited. But when you see a reduced price upon a standard article—a Kirschbaum suit—you may buy with full confidence that it represents a genuine bargain value.

Then, too, our reputation—our pledged word to be straightforward and frank, always protects you. We guarantee a suit which you buy at $19.95 as fully as if you paid the regular price, $25 for it. Your money is always here for you to get if you want it back—for any reason whatever.



That is the Spirit that Governs this Sale and Here are the Prices

$25 SUITS AND OVERCOATS REDUCED TO $19.95

$20 SUITS AND OVERCOATS REDUCED TO $15.95

$18 SUITS AND OVERCOATS REDUCED TO $14.40

$15 SUITS AND OVERCOATS REDUCED TO $11.95

A last Word: Our selections are limited and there is no box of "sale merchandise" in our shipping room from which to fill up the gaps. So only those will be sure of the best plums who do their picking early.

KRATZSCH & SCHROEDER 618 CALHOUN STREET

FRENCH TONGUE HAS REPLACED ALSATIAN

German Signs Torn Down at Approach of Ally Soldiers.

With the French Army in Alsace, Dec. 20.—(Correspondence of the Associated Press.)—French has replaced Alsatian dialect and German as the language in that portion of Alsace restored to French as the result of French military successes. So soon as the blue-clad soldiers occupied the villages and towns German signs were torn down from the fronts of the stores and replaced by French. Finger posts along the roads were altered and directions at grade crossings over the railroad tracks were changed. Restaurant bills of fare were written in French instead of German. The titles of public offices were painted over and new designations put in their place. Prices also were transformed into francs and centimes from marks and pfennings.

Most of the municipal officials under German rule were of Prussian origin and fled with the German troops. The other male inhabitants—most of them very old or very young, as all those of military age had been either taken into the German army or had fled to France—had never had experience of local government and were incapable of undertaking the public utilities or caring for the health or sanitary condition of the people. It was found necessary to appoint French administrators and these were chosen from among officers who had been wounded in the war or who had fallen sick during the campaign. In one locality a military mayor was nominated. He was a captain who had lost his right arm in battle. For two years he has carried out the functions of his office so successfully that the citizens governed by him declare they have never been more wisely ruled.

One of the first tasks undertaken was to set again in motion the educational system which had been interrupted by the hostilities. Classes were formed for the children of both sexes and these were placed in charge of sisters of a religious order which devotes itself to education. There was some difficulty at first owing to the pupils knowing no other language than their local dialect. They showed such zeal, however, in acquiring French that within a few weeks the teachers were able to carry on the lessons. When Prince Arthur, of Connaught, recently visited the classes he was amazed at the change brought about in so short a time.

French officials and the people of Alsace themselves ascribe the readiness of the Alsatians to adopt French ideas and education to the fact that they have in part realized their dream of being rejoined to France. At any rate, it is patent fact that, although they are still within sound of the German guns, everybody in the reconquered territory at present speaks French. The children at their games on the streets use nothing but French expressions. Workmen and workwomen going to and from the factories and while engaged there rarely—and then only in case of elderly people who cannot change their lifelong habits—utter a word in anything except French. In the cafes and hotels and in the stores French is everywhere used, while in the churches the sermons are now preached in French.

URGES EVERYONE TO QUICKLY GET ON WATER WAGON

Drink glass of hot water before breakfast to wash out the Poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside-bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside bathing will have them both looking and feeling better in every way.—Advertisement.

FOOD SUPPLY AROUSES QUEEN MARY'S INTEREST

Also Devotes Herself to Subject of Food Economy.

London, Dec. 25.—(Correspondence of The Associated Press.)—Queen Mary in view of her interest in the question of food supply recently summoned Walter Runciman, president of the board of trade, to an audience at Buckingham palace. It is very unusual for the queen to send for a cabinet minister.

The conference was a long one, the queen being particularly interested in definite details as to how the proposed new food regulations would affect the poor, especially the working women and women belonging to the so-called professional classes. From the very beginning of the war, the queen has shown particular interest in the position of middle-class women, women of education and breeding, who have moved for years in one groove, and who were no longer young enough to be able to benefit by new openings when their old occupation or income gradually became insufficient.

The subject of food economy, also, is one that has engaged the heartiest attention of the queen. "The queen is herself a remarkably good housekeeper," writes one of the newspapers in commenting on the audience with Mr. Runciman, "and if she belonged to the middle classes she would be extolled as a wonder among her peers. Years ago, before war with Germany was thought of, she used to be quoted as an example of thrifty management and sound common sense. In those days, thrifty management and sound common sense were neither popular nor fashionable, and it was considered the smart thing to be wasteful and frivolous, and completely ignorant of what went on in the kitchen and the store room. Even yet, not everybody has come around to the queen's point of view, although they will in time, even if they have to be forced into it. A vast deal of unnecessary spending still goes on, especially among the so-called smart set, which is still lunching and dining and going to the theater and buying expensive furs, and going in for extremes in evening dress. Only an act of parliament will stop them."

Poisoned by Thousands!

(By L. H. Smith, M. D.)

The victims of auto-intoxication are many thousand every day. By reason of the toxins, or poisons, bred in the intestines, these poisonous bacteria are sent all through the blood channels and the victim feels tired, sleepy and headachy, or the brain doesn't work as usual. The best treatment for this is to drink hot water before breakfast—plenty of water all day and procure a supply of Dr. Pierce's Pleasant Pellets, made of Mayapple, leaves of aloes, etc., with no calomel, entirely vegetable, which can be obtained at drug stores for 25 cents.

Equally important it is to cleanse kidneys and bladder, and drinking plentifully of pure water will cleanse them to a certain extent. Then obtain at the drug store a little Anuric. This is to be had in 50-cent packages. Anuric should be taken before meals. It is many times more potent than lithia, dissolving uric acid as water does sugar.

Dr. Weir Mitchell once said: "What we call diseases are only symptoms of conditions. Allow the man's vitality to be reduced to a certain point, and he is ripe for any of these weaknesses, or certain conditions which we call disease."

Through failure of kidneys to act, through congestion, inflammation, any person's condition is ripe for disease to fasten its hold upon the system.

Anuric has been tested for the past few years for kidney, bladder, uric acid troubles, rheumatism, gout and such ailments as follow, and so many cases, both acute and stubborn, have yielded to this wonderful remedy that I do not hesitate to recommend it.—Advertisement.

ORVILLE C. WRIGHT IS PROMOTED

Succeeds O. P. Reese as Assistant Engineer of Motive Power at Pittsburg.

A bulletin issued from the office of P. F. Smith, jr., general superintendent of motive power of the Pennsylvania lines west of Pittsburg, received at the local offices this morning, announces the appointment of Orville C. Wright assistant engineer of motive power in the office of Mr. Smith, effective January 1. The announcement was not a very great surprise, as Mr. Wright has been considered one of the two or three eligible men on whom the appointment was likely to fall. The appointment became effective January 1 and Mr. Wright succeeds O. P. Reese, who was promoted to superintendent of motive power of the Central system, with headquarters in Toledo, succeeding Mr. Smith, last Monday. The promotion of Mr. Wright leaves a gap in the motive power ranks which will attract interest and cause much speculation until it has been filled. T. W. Demarest, superintendent of motive power of the Northwest system, said this morning that the matter would not be settled and the name of the appointee announced until next week. He also said, that so far as he knew, this change would close up the list in the motive power department of the Pennsylvania lines west.

Mr. Wright is a native of Marion, Ind., and a graduate of the common schools of that city. Later he attended Purdue university and graduated therefrom in 1905. Beginning his railway career as an assistant in the Panhandle engineering corps at Columbus, Ohio, immediately following his university term, he made rapid progress and early in his career was promoted several times. From the engineering corps, he became a special apprentice in the Columbus shops and was called to Fort Wayne in that capacity in June, 1906. He was appointed night assistant foreman at the round house in 1908. A year later, Mr. Wright became motive power inspector, and on June 1, 1910, he was appointed electrical engineer of the Pennsylvania Northwest system. On April 1, 1912, he became assistant engineer of motive power of the Northwest system, which office he now relinquishes to take up the duties of the higher one. Mr. Wright has been engaged in special work at various points on the Northwest system for some time and for the past six months has been in his office in this city but very little.

DUDLO CLUB MEETING.

First Open Event Occurs Saturday Night.

Saturday evening marks the first open meeting of the recently organized Dudlo club. At this meeting, which will be held in the C. B. L. of L. hall, on East Main street, all of the young ladies employed by the Dudlo Manufacturing Co., will be invited to attend, together with the wives of club members.

The regular business meeting will be held in the lodge room, and will start at 7:30 o'clock. Several matters of importance will be taken up, but will be disposed of as quickly as possible and the meeting turned over to the entertainment committee.

An enjoyable program has been prepared which consists of dancing, instrumental and vocal selections, and card playing. During the evening light refreshments will be served.

Tuesday evening, Jan. 23, 1917, this club will hold another of its popular public dances at the Moose auditorium, on Webster street. The Mrs. F. O. Kuckuck orchestra will furnish the latest dance music. Ample provision has been made for the entertainment of a large gathering and an even more elaborate program has been prepared than the one given at the last dance, held in November.

TWO DIVISIONS ARE A TIE.

Logansport and Columbus Each Put Four Men on Honor Roll.

Logansport and Columbus are "tied" in the contribution to the Pennsylvania roll of honor for the month of December, each having four veterans, out of the total of sixteen on the lines west of Pittsburg. The combined years of service of these eight men is 312, Columbus leading with 168 years to the credit of its veterans. The Western division had one to enter the pension system in December, Lafayette C. Wiltshire, of Winona Lake, a telegraph editor who worked for the company thirty-two years. There were sixty-eight to enter the roll of honor. Thirty-seven were in the employ of the company over forty years and forty had worked more than half a century. Pensions are now being paid to 4,773 retired employes and the total disbursements have reached the enormous figure of $13,636,347.22.

USING ELEVATED TRACK.

Nickel Plate Sends Trains Over South Line.

The J. C. Carland company, of Toledo, the contractors engaged in elevating the Nickel Plate tracks at Coombs street and building another main line from Clay street to Glasgow avenue, have completed the south tracks and yesterday turned it over to the company and took up the work of elevating the north track. Trains are now running over the elevated portion of the road from Glassgow avenue into the city. The cold and stormy weather is holding back the work, but it continues, however, and the track at Coombs street will soon be up to the required elevation for the subway. The first train over the new elevated track yesterday was in charge of Conductor John McVey, one of the old employes in point of service on the road.

GETTING NEW MACHINERY.

Equipment for the Big Buildings at Electric Works Arriving.

New machinery for the enlarged plant of the General Electric works, which commenced arriving here a year ago, is now coming in more rapidly as the day of completion of the new buildings approaches. Henry Stahlhut has charge of unloading and installing the machinery and his gang is one of the busiest at the big plant at present. Yesterday two mammoth motor generator sets, weighing 30,000 pounds, arrived at the works and were unloaded by Mr. Stahlhut and his men in building No. 26, the one on the north side of Wall street, which is practically completed. These generator sets came from Schenectady, N. Y., and are of the most recent and perfect pattern.

HAD A NICE MEETING.

Nickel Plate Division, No. 513, Installed Last Night.

Mrs. T. E. Short, the past president, acted as installing officer and Mrs. John O. Hood as marshal of the day at the installation of the officers of Nickel Plate division, No. 513, Grand International Auxiliary to the Brotherhood of Locomotive Engineers, at Vordermark's hall last night. The attendance was good and the meeting one of the best of the season. One new member was taken in by transfer. There were visitors from Elkhart and North Dakota, besides visitors of the other auxiliary.

TESTING TELEPHONE LINES.

Supt. Otto Schroll, of the Pennsylvania, and the greater portion of his staff are out on the road today, inspecting and testing the new telephone system now nearly complete between Middlepoint and Crestline. They will stop over night in Lima today and resume and complete the work tomorrow. With Mr. Schroll are Division Operator H. B. Reynolds, Division Engineer Guy Scott, Assistant Division Engineer Sympson, Trainmaster C. L. Hamilton, Master Carpenter D. C. Zook and two or three of the road supervisors. Mr. Miller, a telephone man from Pittsburg, is also with the party.

WABASH DEFENDANT IN DAMAGE SUIT.

Mrs. Lillian Porter, administratrix of the estate of Acie A. Porter, has begun suit in the Miami court in the sum of $10,000 against the Wabash company, alleging that her husband was struck and killed by a train which was traveling at the rate of forty miles an hour within the city limits, in violation of the law. Mr. Porter was riding on a truck when it was struck by the train and his leg was cut off and head crushed so badly that he died a few hours after the accident.

TWENTY-FIVE YEARS AT SHOPS.

James McLaughlin has started on the second lap of a half-century at the Pennsylvania planing mills, having just completed twenty-five years at work there. He operates the big planer, at which he is said to be an expert. It is said of Mr. Laughlin that he wastes no time in getting a rule to measure a piece of lumber needed, but "sizes it up" with his eyes, so accurate is his ability in that line, and he never makes a mistake. Mr. Laughlin is very popular with his associates at the shops and elsewhere.

BRADLEY QUITS PENNSY.

C. E. Bradley, for six years employed a. the Pennsylvania machine shop and considered one of the finest, has resigned. He has taken employment at the works of the American Steel Dredge company, out in the southwestern part of the city, going to work there this morning.

NICK SMITH RECOVERING.

Nick Smith, who had the bone of one of his thighs broken in two places six weeks ago, when he fell a distance of twelve feet from a ladder, and a hoist weighing thirty-five pounds fell upon him, is making good progress towards recovery. Dr. F. J. Schulz says Mr. Smith will be able to leave the hospital in a week or ten days.

INDUSTRIAL NOTES.

Machinist Joseph Schallenbarger, of the Pennsylvania shops, is sick.

B. W. Wren is a new laborer in the Pennsylvania power plant.

Walter C. Bibbler is a new man in the shipping department of the Pennsylvania store room.

H. Rohrbach, of the Pennsylvania erecting shop, is off duty on account of sickness. Machinist William Farnan, of the lathe department, is also off duty on that account.

J. C. Vachon was taken sick while at work in the Pennsylvania boiler shop this morning and had to return home. E. Dunfee, a flue setter, and E. J. Elliott, a flue welder, are also sick and off duty.

After working only a part of a day following an absence on account of sickness, E. C. Rehling is again on the sick list and may be absent from the Pennsylvania shops several days.

C. B. Moore, C. G. Beck and Robert Penfold, of the Pennsylvania tool room, the two first named being machinists, have arranged for an over-Sunday visit in Chicago.

A. J. Bobay, a Pennsylvania cabbuilder, is off duty on account of sickness, and A. H. Nasbaum, a cabinetmaker, is off duty on account of private business.

Conductor Charles N. Gibson, of the Cleveland division of the Nickel Plate, was buried in the Bellevue cemetery yesterday afternoon by the Order of Railway Conductors, of which he was an old and prominent member. Several Fort Wayne people who knew the deceased attended the funeral.

C. B. Hoyt, Nickel Plate superintendent of track maintenance and construction work, with headquarters in Bellevue, was in the city on business for the department yesterday. Mr. Hoyt was trainmaster of the Western division of the road several years ago, when the officers were in the Odd Fellow building at Wayne and Calhoun streets.

Mr. and Mrs. J. A. Phillins, of Owanka S. D., who had been visiting her brother, William Mason, of the Pennsylvania tool room, and his family for two or three weeks left today for Urbana, O., where they expect to visit relatives two or three weeks before leaving for their western home. Mr. Phillins had not been in Fort Wayne for twenty years before he made the present visit.

Otto Aimoller, late of the Indiana Engineering and Construction company, took employment in the Pennsylvania shops this morning. W. J. Johnson, of the American Pipe and Construction company of Amsterdam, N. Y., also took employment at the boiler shop of the Pennsylvania and James Hughes is a new laborer at that shop. He is colored.

Robert E. Penfold, who went to Alliance to fire on a passenger locomotive on the Eastern division of the Pennsylvania, had to give up on account of the work being beyond his strength. He returned here and has taken a position as a helper in the tool room. Before going to Alliance, Mr. Penfield was clerk for Foreman Harry Zimmerman, of the lathe department of the shops.

A party of United States sailors from the naval training station at Great Lakes, near Chicago, passed through the city on the Nickel Plate at 3:05 o'clock yesterday afternoon. During the time the train was standing at the station the bluejackets raced up and down the platform for exercise and attracted considerable attention. They were bound for Boston, to be assigned to duty on board Uncle Sam's battleship.

IN THE CHURCHES

SIMPSON M. E. CHURCH TO HAVE BUSY QUARTER

Plan Special Services Which Will Last Until Conference Time.

Activities in the Simpson M. E. church will be more numerous than ever for the remainder of the conference year, and the time between the present and the Northern Indiana conference will be strenuous for those who are actively engaged in the church work.

A campaign which will be introduced next Sunday is the "Go to Church Twice Sunday" movement. Special sermons and music have been arranged to make these services especially interesting and all members and friends of the church are being urged to attend two services every Sunday.

February 4 will be Sunday school day in the church and Dr. W. S. Bovard, of the Chicago Sunday school board, will be present and give an address. The fifth anniversary of the dedication of the new church will be celebrated February 11 and a fine program has been arranged for this event. Dr. W. W. Martin, superintendent of the district, will preach both the morning and evening sermons on this day.

Beginning February 18 evangelistic services will be held in the Simpson church conducted by Rev. Wentworth F. Stewart, of Boston. These services will finish up the conference year.

SUNDAY SCHOOL CONTEST.

Will Be Waged by M. E. Schools of Leo and Huntertown.

The Sunday schools of the Methodist churches of Leo and Huntertown have decided to enter a contest for the greatest attendance and largest collections. The contest is to begin the first Sunday in January, 1917, and continue for ten weeks. Every Sunday during the contest each school will count the points it makes, counting one point for each person present and one point more for each ten cents of collection. Each week, both schools will report to the newspapers the number of points made. The winner will receive a United States flag, which has been secured by the two schools. However, the object of the contest will not be merely to defeat the other school and get the flag, but to increase interest in the Sunday school and in this manner build up the churches.

* * *

Will Give Concert.

A fifty-piece orchestra composed of local musicians and directed by W. R. Barr will give concerts at the Third Presbyterian church January 18 and 19. The concerts will be given for the benefit of the Y. M. C. A. fund of the Adroit Bible class. All sorts of instruments are included in the orchestra, from the piano to a ukulele, and the concert promises to be a very pleasing event.

Pennsylvania Takes Lead in Industrial League

Pennsylvania Quintet Winners and Tops Industrial League

Bowsers Have Easy Time With Dudlo Five and Tie With Electrics.

THE STANDINGS.

	W.	L.	Pct.
Pennsylvania	2	0	1.000
Electric Works	1	1	.500
Bowsers	1	1	.500
Dudlos	0	2	.000

The Pennsylvania representatives in the Industrial league pulled out of last night's engagement toting a perfect percentage, winning over the Electric Works by one basket in a game that had all the thrills. The Bowser five won from the Dudlo team in a walk and tied with the Electric Works in the middle of the list.

The Pennsy-Electrician Game.

Pennsy (10).		Electric Works (8).
Doriot	R. F.	Diffendorfer
Hoffman	L. F.	Ehrman-Kepl'ger
Cramer	C.	Kelly-Miller
Daley	R. G.	Rulo
Henry	L. G.	Hueber

Field goals—Doriot, 3; Cramer, 2; Daley, 1; Diffendorfer, 2; Miller, 2.

Referee—Island.

The contest between the Railroaders and the Electricians had all the known thrills in it and was close all the way. The playing was hard and many times rough, but it was free from dirty work. Louis Island, referee, wasn't going to interfere as long as the players remembered the rules and as a result the game was mighty interesting and still clean. At the end of the first half the score stood 4 to 2, long end to the Pennsy gang. As the score indicates, strong defensive work on the part of both pairs of guards featured the game.

In the second half, Miller and Keplinger were introduced into the Electricians' line-up and threatened to win the game by themselves, but Cramer, playing center for the winners, came across with two baskets which did the work. Daley and Henry, for the winners, and Rulo and Hueber, for the losers, did the feature work of the game in their guarding. Miller and Keplinger put up some good exhibition stuff, but it did not last as long as the work of the guards.

The Bowser-Dudlo Game.

Bowsers (34).		Dudlos (16).
Freistroffer-Dietrich	Right forward.	Wyss-Voss
Weberuss-Brunner	Left Forward.	Herring
Kahrman-Herring	Center.	Mensing
Dietrich-Slatter	Right Guard.	Kierspe
Kennedy-Freistroffer	Left Guard.	Reddin

Field goals—Freistroffer, 7; Weberuss, 6; Mensing, 2; Kennedy, 2; Wyss, 1; Herring, 4; Kohrman, 1; Voss, 2.

Referee—Island.

A good, big first half gave the game between the Tanks and the Dudlo five to the former in the opening game of the double-header of the shop league. The winners ran up 20 points against 6 in the first twenty minutes of play and there was little chance of their opponents getting a comeback on this.

Freistroffer and Weberuss made goals regularly and stacked up a lead that the Dudlo crew could not make up, although the last half was a great deal better than the first. Herring starred for the losers. The Dudlo team is working out under the direction of Russel, former Friar football player, and Turner, basketball and track man. He is putting them through some real paces and should have a league leading outfit before the season is over.

The League a Success.

Any conjecture that the league might not take or might fall through has been sent to the junk heap by now for the project is a proven success. The idea is popular with the employes of the companies represented and with the basketball fans of the city. If the league was patronized only by the employes it would be a financial success, but the games are attended by all of the regular basketball fans. There is some good basketball handed out at these games.

WALTHER LEAGUERS WIN.

The Concordia Walther league five scored a win over the Exendas at the Concordia gym last night, the final count being 25 to 12. At the end of the first half, the score was 14 to 1, with the Concordians celebrating. Becker and Oberwitte starred for the winners. Snyder refereed the game.

HIGH SCHOOL SQUAD MEETS BERNE TONIGHT

Girls Play Hartford City Sextette at James Smart Gymnasium.

The same squad which has made up the high school team nearly the entire season so far left for Berne at 12:25 today to play the high school team of that city. The members who made the trip are as follows: Kendricks, Lindemuth, Berghoff, Wilkins, Figel, Dannecker and Morris. The latter is a recent addition and is showing up in great style. Shoup, who has been on the squad, injured a foot while skating and was not able to play.

The girls' team meets the sextet of the Hartford City high school at the James Smart gym, and according to Miss Wingert, the coach, they will put over a win. The girls' team is one of the most dependable organizations in the local school and they can be trusted to put across the win if they say they will.

By going at 12:25 the members of the boys' team lose several recitation periods, but Coach Wright holds that basketball is as much a part of the school curriculum as history and claims that those who make the trip to play basketball are losing nothing in the long run. This view coincides with the views generally taken by the students.

FAMOUS BOWLING STAR TELLS IN THE SENTINEL HOW TO MAKE SPARES!

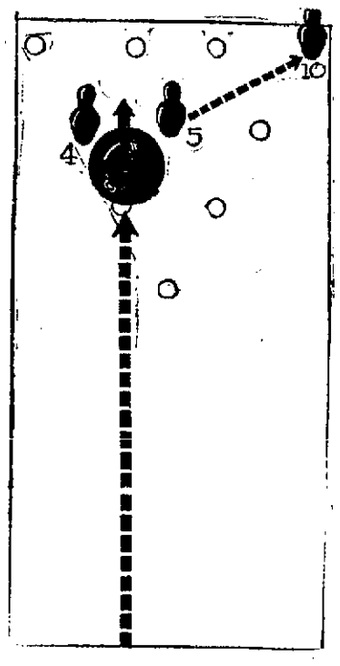
"Count" John Gengler of Belgium, one of the greatest bowlers in the world, and perhaps the world's greatest expert on "picking up" spares, has prepared a series of lessons on spare bowling which should be of the greatest value to The Sentinel readers interested in the tenpin game.

Failure of the average bowler to make big scores does not lie in failure to hit the one-three crotch and get strikes, so much as in failure to "pick up" the pins on a split and complete spares.

In the lessons in The Sentinel "Count" Gengler explains how to pick up the pins on the splits which occur most commonly and makes his explanations easy to understand by diagrams showing just how the ball should hit.

The first three lessons are presented today. There will be one lesson each day in The Sentinel for five more days.

THE 4-5-10 SPLIT.

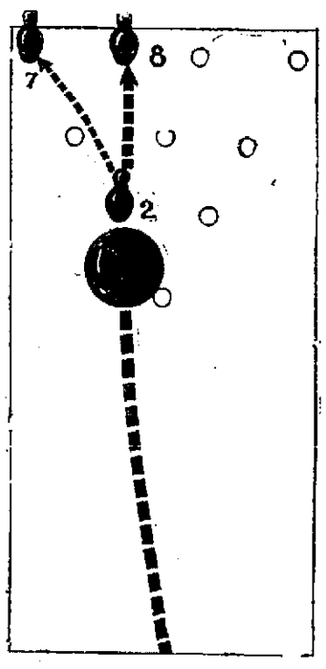


First of eight lessons in spare bowling by "Count" John Gengler, the Belgian star, now bowling in the United States and ranked next to Jimmie Smith, the world champion.

By "Count" John Gengler.

Roll a straight ball, striking No. 4 a trifle heavier than No. 5. The 5 pin will be shot to the corner of the alley, getting the 10 pin.

THE 2-7-8 SPLIT.

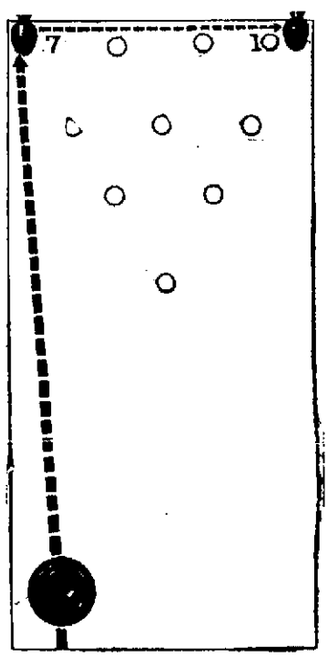


Second of eight lessons in spare bowling by "Count" John Gengler, the Belgian star, now bowling in the United States and ranked next to Jimmie Smith, the world champion.

By "Count" John Gengler.

Start the ball with a spin from the right corner of the alley, striking No. 2 one-quarter full, shooting it to the left corner against No. 7. The ball will follow through and get the 8 pin.

THE 7-10 SPLIT.



Third of eight lessons in spare bowling by "Count" John Gengler, the Belgian star, now bowling in the United States and ranked next to Jimmie Smith, the world champion.

By "Count" John Gengler.

This split is almost impossible to make, even by the best of bowlers. At times it is made by a pin bouncing back from the pad against the other pin. The only way the split can be made by design is to spin the ball down the side of the alley, striking the 7 pin lightly on the extreme outside. If hit exactly right the pin will slide across the alleys and get No. 10.

CARRIGAN DECLINES TO MANAGE IN 1917

Gives Final Decision to New Red Sox Boss After Reconsidering.

Boston, Mass., Jan. 5.—William F. Carrigan, manager of the Boston Red Sox, which won the world's championship in the last two years, Thursday gave a final refusal to the request of the new owners that he reconsider his decision to quit the game.

In declining the management Carrigan promised to give his services to the club in any way possible to aid the new manager and owners, President H. H. Frazee stated. Carrigan will come here some time this month to confer with President Frazee. The new leader may be named at that time.

Frazee would not discuss the probable identity of Carrigan's successor. Jack Barry, captain and second baseman, and Heinie Wagner, former shortstop and new coach, have been most prominently mentioned.

BOTTLERS HOLD MEETING.

There Is Much Waste in the Handling of Bottles, It Is Decided.

A deposit will be required on the bottles of every shipment of pop and soda water unless dealers take better care of the bottles, it is announced, by the soda bottlers of Fort Wayne. A meeting of the organization was held Thursday afternoon at the Hotel Anthony.

Negligent action of the retailers, it was said, had brought about a waste. It was the habit of many dealers to throw the bottles away, it was shown. The bottlers also decided that they would not sell soda water without a profit and it was decided to advance the price to sixty cents a case. Clifford Bornshein was made chairman of the organization and Paul Scheele, secretary. E. P. Severns, special representative of the Indiana State Bottlers' Protective association, of Indianapolis, was present and spoke at the meeting.

TWO CITIES TRY FOR BERTHS IN CIRCUIT

Rumor That Deveraux Will Refuse Race Presidency This Year.

Peoria, Ill., Jan. 5.—Peoria and Jacksonville, Fla., are making strong bids for admittance to the Grand Circuit which will hold its annual meeting in Atlanta, Ga., January 22 and 23. There is a strong possibility, it is said, that both cities will be taken into the organization.

Rumors have been current that H. K. Devereux, of Cleveland, who has guided the destinies of the Grand Circuit for several years, will decline to accept the renomination. Horsemen believe there will be a storm of protests if he declines the presidency and that pressure will be brought in an attempt to get him to reconsider. Mr. Devereux for years has been one of the biggest figures in the horse world.

Besides voting on the applications of Peoria and Jacksonville, the Grand Circuit stewards will adopt a 1917 schedule and map out other plans for the coming season at the Atlanta meeting.

Minneapolis, Jan. 5.—Few, if any, changes will be made in the football rules for 1917 in the opinion of Dr. Henry L. Williams, coach of the University of Minnesota eleven, and a member of the rules committee at the recent meeting of the National Collegiate Athletic association.

"It is not too much to say that the present rules have given us the best game of football we have ever had," Dr. Williams said.

"It is to be hoped that the rules will be allowed to remain as they are. The public is well satisfied with the present rules, and the coaches and players have something staple to work upon. The past season has been a marked development in science and strategy of play."

Chicago, Jan. 5.—Oscar "Happy" Felsch, of Milwaukee, who played center field for the Chicago Americans last season, is expected to top the outfielders of the league in fielding during the coming season. Felsch, who finished the season in the select "300" class in batting, also is likely to be the runner-up on Cobb and Speaker, according to admirers. Felsch, who was tutored by Clarence Rowland, manager of the club, showed that he was one of the best fielding outfielders in the league last season, and also possesses a powerful arm which has nipped many a runner at the plate. He has promised to do better in 1917. In 141 games, he fielded .981, while Shanks, of Washington, in 143 games fielded .978. Speaker, of Cleveland, who by many was considered the best outfielder in the league, finished the season with an average of .974 for 150 games.

Detroit, Jan. 5.—Bill Byron, the Detroiter, who has had many interesting experiences during the years he has served the baseball world as an umpire, declares that he had at least as much trouble with players in the International league as he has had in the National. Byron claims that the worst threat made against him was by an International league player. The latter, disputing a close decision, said:

"Bill, I hope that chimney falls on you and hits you one brick at a time."

The smokestack referred to loomed above the diamond like the Eiffel tower looms above Paris.

Chicago, Jan. 4.—Packey McFarland, the former lightweight wizard, now insists that he's done with the ring. Packey asserts that he set $25,000 as his price for his returning to the sport, knowing that no promoter would give him that amount of money for a ten round contest. McFarland is engaged in business in Joliet and is reported to be comfortably fixed in a financial way.

Des Moines, Ia., Jan. 5.—Efforts are to be made to have a boxing bill passed in the Iowa state legislature. It is proposed to have the sport controlled by a commission and that 10 per cent of the gross receipts of all boxing shows shall go to the support of the state tuberculosis home.

Chicago, Jan. 5.—Letters congratulating Clarence Rowland on his reappointment as manager of the Chicago club of the American league have been received by the White Sox leader from all parts of the country. Every player on the club joined Rowland's admirers in wishing him success and promised him a winning team.

Owosso, Mich., Jan. 5.—Owosso, the home of indoor baseball, may be without a league this season. Most of the players who were stars when the local team won the world's title three successive years are now dead, married or too fat to get in or out of the way of the ball.

FORT WAYNE FIGHTERS ON GRAND RAPIDS CARD

Stewart, Mason and Hess Will Perform Before Furniture Buyers.

Hal Stewart, Frankie Mason and Battling Hess of this city left this morning under the wing of George Biemer on their way to Grand Rapids, where they will feature a card given in that city in connection with the furniture dealers' convention. They are a part of a clever plot to sell buyers more furniture than they want.

Stewart will meet Kid Hogan of Flint, Mich., a ten round bout being scheduled. Mason will meet Benny Vogel of Milwaukee, and Hess will meet a young Detroit hopeful. E. W. Dickerson, head of the central circuit, will officiate for the three bouts, and his name assures a square deal.

Stewart and Mason are well known and popular in Grand Rapids, having shown there before. Hess will be new to the fans in the furniture city, but he is sure to please fans anywhere by his fighting methods.

TRAINING SCHEDULE.

Philadelphia Americans Will Play Boston Nationals Five Games.

Philadelphia, Jan. 5.—The Philadelphia American baseball club will play five games with the Boston Nationals on the spring training trip. Connie Mack today announced a partial schedule for the trip, which includes games with Boston at Miami, March 21, 22 and 23. At Palm Beach, March 24, and at Jacksonville, March 29. Other games with southern teams will be arranged later.

MYSTERY AT GENEVA REMAINS UNSOLVED

C. M. Chrisman Is Found Bound and Gagged in Front of His Home Sunday.

Geneva, Ind., Jan. 5.—Last Sunday evening about 9 o'clock something occurred in Geneva which was the subject of much speculation, and the mystery of which is unsolved. C. M. Chrisman was found lying on the sidewalk in front of his home on Butcher street with his hands and feet securely tied and his daughter's apron tied over his head. Mr. Chrisman says he was lying on the couch reading when someone entered the house, but thinking it was his daughter coming in, paid no attention until he suddenly found himself held by a couple of men who covered up his head so quickly he could not see their faces. They carried him out on the sidewalk and left him lie, making their escape with his pocketbook and about $3.00. No one seems to know who the guilty parties are and robbery surely was not their main object, as no one suspected him of carrying a great amount of money.

BUGGY UPSETS.

Mark Watson, Well Known Wells County Farmer, Is Seriously Injured.

Bluffton, Ind., Jan. 5.—Frank Hinchman, a young farmer of Nottingham township, who is employed at the surveyor's office a few days assisting in compiling a ditch report, was on his way to Bluffton yesterday morning, accompanied by Mark Watson, in a buggy, when his horse became frightened at a hay baler outfit and swerving to one side of the highway, upset the buggy, at a point east of Domestic. Both occupants of the buggy were thrown out. Mr. Hinchman escaped without injury, but Mr. Watson, who is an elderly gentleman, was severely injured, sustaining bad scratches and lacerations about his face, and also a fracture of the collar bone. He was taken back to his home by a friend and Mr. Hinchman continued his journey to Bluffton. His buggy was little damaged in the accident, but the horse sustained some severe cuts. Mr. Watson is an elderly gentleman, and there is some fear of serious complications from his injury.

BAD FIRE AT AUBURN.

Flour Mills Are Damaged to the Extent of $5,000.

Auburn, Ind., Jan. 5.—Fire startling in the third story of the building of the Auburn Roller mills, in South Auburn, some time Wednesday night, came very near destroying the mills.

A few minutes before 1 o'clock one of the men connected with the building of the elevated track on the F. C. C. & St. L. for the Indiana Light and Fuel company, at Auburn Junction, staying in their work car near mills, ran over to the city power plant and gave the alarm.

Several other people had seen the light in the sky but no one seemed to know just what was on fire. The fire bell and whistle called the firemen from their slumbers and they made a quick run to the mills.

The machinery on the top floor is completely ruined and the conveyors, etc., are damaged, it seems, beyond repair. There was scarcely any blaze in the second story and the greatest damage there is from the water.

MAY REACH $40,000.

Kendallville Has Chance of Becoming First Class Office.

Kendallville, Ind., Jan. 5.—The receipts of the postoffice for the year 1916 were the largest in the history of Kendallville, according to the annual report just compiled by Guy C. Hart, postmaster.

If the increase during this year of 1917 is as great as it was in 1916, Kendallville will be eligible to be in the list of first class postoffices.

During the year just closed the receipts of the local office on stamps and stamp paper only aggregated $35,270.04, as against $31,118.43 in 1915. When the receipts of a postoffice aggregate $40,000 annually the office becomes first class. At present the Kendallville office is in the second class.

DIES ON TRAIN.

Kendallville Woman Fatally Stricken on Way to Fort Wayne.

Kendallville, Ind., Jan. 5.—Mrs. Alonzo F. Strong, 55, a resident of this city for the last fifteen years, died very suddenly at the union station yesterday morning shortly after 11 o'clock, death resulting from an attack of heart trouble.

In company with Mr. Strong, she had boarded the southbound G. R. & I. train when she was attacked with a fainting spell shortly after the train left the station. The conductor was asked to stop the train and it was backed up to the station and the sick woman was carried inside the waiting room. A physician was summoned, but upon arrival found life extinct.

MARKLE RESIDENT DEAD.

Markle, Ind., Jan. 5.—Josiah Roush, aged 75, a long-time resident of Markle, passed away at his home in Markle Wednesday afternoon at 4:30. Mr. Roush had been sick almost a year, but had been able to be about the town, until a week ago, when he became worse and was confined to his bed until his death. Mr. Roush had been one of Markle's leading citizens for a number of years, working several years as a contractor and builder, later becoming the proprietor of Markle's first tile-barn. He was a civil war veteran and a member of the Markle G. A. R.

BIG DAMAGE SUIT.

Auburn, Ind., Jan. 5.—Suit for $25,000 damages was filed in the DeKalb circuit court yesterday on change of venue from Allen county. The case is brought by George Middleton against Charles and Frank Hilker, lumber dealers of Fort Wayne, for alleged injuries received when, as a driver for the Berghoff Brewing company, he was caught between the ceiling of one of the defendants' buildings and the driver's seat and permanently injured. When the case was tried in the Allen circuit court the jury disagreed.

BREAKS ANKLE IN FALL.

Auburn, Ind., Jan. 5.—Mrs. Anna Purviance, of North Van Buren street, who fell down cellar late Wednesday afternoon and broke her ankle, was resting somewhat easier Thursday. About 5 o'clock Wednesday afternoon Mrs. Purviance, who is past seventy, started down cellar to get some canned fruit for supper. The entrance to the cellar is outside the house and her daughter, Miss Rena, had cautioned her mother not to go down, especially since the cold and icy weather has been here.

NEARS COMPLETION.

Warsaw, Ind., Jan. 5.—Warsaw's new Carnegie library building is now nearly completed. Such is the information gleaned from the notice given by the library board today, to the effect that beginning next Saturday the basement of the new building will be open to the public, and on each succeeding Saturday, until the completion of the building, which will be in a few weeks.

NEW SCHOOL HOUSE SITE.

Pierceton, Ind., Jan. 5.—At a meeting of the township advisory board negotiations were finally completed for the purchase of the McNamara tract just east of the present school site. This tract consists of ten lots and extends to First street. The price paid was $1,000. This, with the present school ground, will make about four acres now included in the school site.

TWO PNEUMONIA DEATHS.

Columbia City, Ind., Jan. 5.—Pneumonia caused the deaths of two residents of Whitley county yesterday. Mrs. George Steel, of Richland township, passed away after an illness of eight days. Mrs. Lavina (Pence) Richey, of Churubusco, died yesterday afternoon after an illness of only a few days. Samuel Curtis, of Fort Wayne, was a brother of Mrs. Steel.

SEEKS DIVORCE AFTER 20 YEARS

Warsaw, Ind., Jan. 5.—After twenty years of married life, Mrs. Louisa A. Middleton has filed suit asking for a divorce from Jonas Middleton. Extreme cruelty is charged. Mr. and Mrs. Middleton are the parents of seven children ranging in age from 2 to 18 years.

FEWER PRISONERS IN 1916.

Auburn, Ind., Jan. 5.—The number of persons received as prisoners at the county jail during the year 1916 was much less than the number for the year 1915. The total number received for 1916 was 122; for 1915, 208, a falling off for last year of 86.

RECEIPTS TOTAL $16,957.

Hartford City, Ind., Jan. 5.—The annual report of the Hartford City postoffice shows a gain in receipts amounting to $167.88 for the year 1916, over the year previous. A total amount of $16,957.35 was taken in through the local office during the year.

NEW HAVEN NEWS.

New Haven, Ind., Jan. 5.—The ladies of the Renaissance club were entertained Thursday afternoon at the home of Mrs. M. Sheridan, west of town.

Misses Hattie and Leona Wolf are visiting friends and relatives in Kalamazoo, Mich.

Miss Aileen Ashley has issued invitations to a party she will give this evening in honor of Miss Elizabeth Powell, who will leave soon for California to spend the winter.

Miss Blanch Forsythe has returned to Dunfee, after a few days' visit with Miss Mabel Robinette.

R. J. Blackwell has been called to Fowler, Ind., by the death of his sister.

Mrs. Malinda Cameron was given a pleasant surprise New Year's, when her children came to spend the day with her. Those present were: Mr. and Mrs. Bert Akey and daughter, Bertha, of Huntertown; Mrs. Winona Hazelet and sons, Paul, John and Robert; Mr. and Mrs. Roy Timbrook, of Fort Wayne; Mr. and Mrs. Eben Bell and Mr. and Mrs. Ross Cameron and children.

No More Constipation, Biliousness, Headaches

In Half an Hour a Wineglassful of Tollo Water Flushes the System, Makes You Feel Fine.

You live indoors and don't get enough exercise. Nature must have some help to keep the bowels regular and the liver active. Tollo Water from Dawson Springs, Kentucky, is Nature's own laxative and liver aid. It expels the waste from the stomach and bowels quickly and gently and makes you feel fine right away.

Bilious attacks, headaches, dizziness, bad breath, coated tongue, pimply, sallow complexion, indigestion and most cases of nervousness come from decaying waste in the bowels.

Get a 15-cent bottle of Tollo Water from the drug store and take a third of a tumblerful in a glass of plain water before breakfast. Its quick and gentle action will surprise and delight you. Take it regularly for a few days to thoroughly cleanse the system. After that an occasional wineglassful will keep the bowels regular, the liver active and your head as clear as a bell.—Advertisement.

OWINGS DECLARED INSANE.

Chicago, Jan. 5.—Francis P. Owings, once known as the "sky scraper king," was declared insane yesterday and was ordered sent to the hospital for the insane at Kankakee. Brooding over business reverses, his friends say, has unbalanced his mind. In 1901 Mr. Owings was thrown into bankruptcy, his liabilities being scheduled at $5,000,000. Owings built the first sky scraper in Chicago.

MERCHANT HELPING BOYS TO MAKE GOOD

Los Angeles Man Opens Hundreds of Bank Accounts at New Year.

Los Angeles, Cal., Jan. 4.—What's better than to start the new year with a bank account? F. B. Silverwood, a merchant prince of this city, opens savings accounts each holiday season with a dollar apiece for 500 deserving boys. Indeed, the number most always exceeds 500; sometimes it runs as high as 800.

The accounts are opened in the names of boys who work as newsies

F. B. Silverwood.

on the various daily papers, or who are recommended by reputable charity organizations of the city.

The only stipulations that go with their bankbooks are that the dollar deposited by Silverwood must remain for a period of five years, that the sum must be added to during the course of each year, that Silverwood may be privileged to add to it also if he sees fit, and that only in case of sickness or death is the money to be withdrawn.

"Under the urge of my system," says the merchant, "a sum totaling $50,000 has been saved by energetic Los Angeles boys. In many cases, the starting of accounts for these boys has laid the cornerstone of their prosperity."

Silverwood takes great interest in "his boys," and once a lad has become his protege he is well launched on the highway of success, providing, of course, that he is ambitious and makes an effort to advance himself.

Once a boy has saved several hundred dollars and desires to invest it to better advantage, Silverwood often acts in an advisory capacity, and initiates the potential capitalist into the intricacies of business.

As an incentive to the youngsters whom he has launched in the world of finance, the merchant keeps an honor list which he calls his "blue ribbon roll." The twenty-five boys who make the largest individual savings during the year are packed on the "blue ribbon roll." The sum saved by the honor roll during 1916 aggregated over $4,000. One boy put away over $400, while the smallest saving amounted to over $50.

Frequently misfortune befalls the lads who have been taken under the Silverwood wing. The gaunt spectre of poverty is ever stalking on their trail and if sickness enters their households, poverty is quick to pounce down.

Thus the Good Samaritan amongst merchants takes advantage of the proviso which permits him to add further to the afflicted one's bank account whenever he sees fit. If the case is deserving there is always a strange inflation of the needy person's bank deposits. This procedure prevents many a worthy boy from toppling into the abyss of poverty-stricken oblivion.

It was five years ago that F. B. Silverwood began his practice of starting accounts for deserving boys. The book, with a box of candy, is handed to the youthful holder of the account as a Christmas present. This gives him opportunity to complete necessary formalities at the bank and to be in a position to begin increasing the initial dollar by New Year's day.

During the course of the five-year term that the original dollar is on deposit, Silverwood adds another dollar to each account every Christmas. And each depositor is also given a box of candy. It took 7,800 pounds of candy to go 'round this season.

If the holder of the account has increased his savings during the year, he receives a letter of commendation from the merchant prince, and if he has failed to add to the original dollar, and there is no good reason why he should not have done so, the depositor receives a letter setting forth the benefactor's disappointment and expressing the hope that greater endeavor will be indicated the coming year.

MOVES TO GAUNTT BUILDING.

Wilwood Companies Find Present Quarters Are Too Small.

Because of their rapid growth and the need of more adequate quarters, the Wildwood companies have leased the ground floor of the Gauntt building at Berry and Webster streets, and will move to the same by the fifteenth of this month. The various Wildwood companies comprise the Wildwood Magazine company, the Wildwood Sales company, the Wildwood Builders' company and the Wildwood Engineering and Construction company. They are now located on the seventh floor of the Shoaff building.

CONVENTION CLOSES.

There was a program Thursday afternoon of an informal nature, including discussions by the farmers of betterment of the hog raising industry. Thursday night a theater party was given at the Palace theater for the salesmen, managers and farmers attending

White Women Conquer Inca Tribes With Kindness as Only Ammunition

American Mother and Brave Daughter Dangers of the Southern Jungles on Gold Hunting Expedition.

Oakland, Cal., Jan. 5.—Three years afoot in the wilds of South American jungles on a gold-hunting expedition that brought no gold, but ended in a conquest of the last tribes of the Inca Indians, forms the unusual adventure of an American mother and daughter.

Safe once more in their home here, Mrs. D. E. Young and her daughter, Helen, 16, are recounting to friends their astonished experiences in a region where white women had never before dared to venture.

Braving the danger of deadly tropical fevers; being lost in swamps infested with poisonous snakes and living alone for a year in a mountain-walled camp, surrounded by Indians, are some of the features of their interesting journey.

Pizarro, mad with a desire for gold, ruled the Incas with a terrible hand. These two—the mother and girl—did not attempt to repeat the history of the Spanish conqueror. They replaced cruelty with kindness in their dealings with the Indians and came out of the land alive.

Mrs. Young and Helen went along with D. E. Young, husband and father, veteran mining man, who was prospecting for gold. Young and his wife decided the trip would be a liberal education for their daughter.

"Once we were established in our camp at the head waters of the Amazon, we realized that our lives depended on the good will of the Incas," said Mrs. Young. "We were nearly a thousand miles from the coast and a difficult walk of weeks lay between us and civilization.

"We were nervous at first. Only a few of the bolder Inca men came near our tambos or huts. They carried sharp-bladed machetes which looked startling to us. Later we learned they were used to cut paths through the tangled jungles and for defense against vicious animals.

"We learned one day that the old chieftain of the tribe had been bitten by a snake. Wishing to show our friendliness, Mr. Young sent him some permanganate of potash and chemicals to treat the wound. We realized then that if the chief recovered he would be our friend. BUT IF HE DIED his tribesmen would consider that we had killed him with 'bad magic.'

MISS HELEN YOUNG riding a llama in the Peruvian wilds camp where the Youngs stayed for three years. The llama is used as a beast of burden on the mountain trails leading into the interior. This one is a pet, a gift to the girl from an Inca chieftain.

"No word came from the chief. But a week or two later Helen discovered nearly thirty families of Indians winding down a trail to our camp. It was a trying time, for we did not know wether their errand was one of peace or war. All we could do was to wait. We noticed that each Indian carried something in his arms, but we didn't know.

"As they came silently at our feet we sighed with relief. They had come as friends. They brought pineapples, sugar cane, camotes or sweet potatoes, a multitude of things to eat and baskets and utensils of native make. They had declared a fiesta in our honor.

"After the line of Indians had filed past, the chief, cured of his snake bite, stepped forward and made a short speech.

"'A little regala (present) for the Gringos,' he said. 'You come with good magic. It pleases us.'

"Then they danced—danced for nearly three hours to the tune of weird flutes and drums. After the dance the women and children inspected Helen and me, making remarks about us and our clothing that we could not understand. But we seemed to astonish them, for they appeared awed as they felt of our dresses. We were the first white women they had ever seen.

"That was the beginning of our conquest in which we used only kindness for ammunition. Many times during our stay in their country the Indians showed us they appreciated our policy of friendliness and the simple presents we scattered among them."

JANUARY RAIN PUTS BLINK ON MARKETS

Receipts at City Scales Total One Load for Friday Morning.

January rains usually have lasting effects on possibly every phase of business and Friday morning the Fort Wayne markets suffered. Grain dealers state that the receipts stood at zero, while the city scalemaster went one better and said he weighed one load of corn for his morning's salary. This one load of corn sold for 91 cents a bushel.

Grain markets locally as a result were quiet and inactive. Wheat showed no life and prices were allowed to remain at the same level of the day before. The top price remains at $1.80 a bushel, while a few of the millers offered $1.78.

All other markets were very quiet. The hog market is holding steady with the price at 10 cents a pound. High prices have failed to bring the receipts in hogs up to normal. It is said that the farmers are keeping the hogs for their own use.

CHICAGO GRAIN AND PROVISIONS.

Chicago, Jan. 5.—Likelihood of moves for a peace parley had a dominating bearish influence today on the wheat market. Opening prices, which ranged from 1c decline to ⅜c advance, with May at $1.83¼@1.84 and July at $1.50@1.50½, were followed by a slight general hardening of values and then a descent all around to well below yesterday's finish.

Increasing export call gave strength to corn. After opening ⅛c to ⅝c higher, the market continued firm despite the weakness of wheat.

Oats traders took their cue from the wheat pit rather than from the action of corn.

Provisions rose with hogs.

THE DAY ON WALL STREET.

New York, Jan. 5.—Further pressure was brought to bear against active stocks at today's opening, presumably as a result of the various peace negotiations now under discussion. United States Steel added 1½ points to yesterday's more severe setback, with losses of 1 to 2 points in other industrials, equipments and munitions. Coppers, motors, Atlantic Gulf and West Indies and other less prominent issues also proved susceptible to moderate offerings with the sugar group, Industrial Alcohol, Central Leather and International Paper. Rails were dull at fractional declines.

The extremely professional character of the early trading was indicated by the erratic movement. Initial declines soon gave way to general recoveries and some material gains, notably in Reading, Mexican Petroleum and beet sugar, but these were speedily sacrificed in another setback. Steel had the second rebound toward midday, more than retrieving its opening loss, but Bethlehem Steel fell 15 points. Rails came forward on a fair inquiry for standard issues, including transcontinentals and grangers, but coppers lagged. Bonds were irregular.

POLAND'S REGENT VERY DEMOCRATIC

Archduke Charles Stephen Demonstrates This Side of His Character.

Warsaw, Dec. 15.—(Correspondence of the Associated Press.)—By those who know him, Archduke Charles Stephen, cousin of the late Emperor Francis Joseph, who has been selected as regent of Poland, is considered a most democratic sovereign, gifted with common sense, ability and personal charm. Conditions under which the Associated Press correspondent recently made his acquaintance illustrates the democratic side of his character. The correspondent was calling upon a friend at one of the lesser hotels in Vienna when a knock at the door was heard and without further formality a tall officer entered, shook hands, shed his overcoat, which he threw on a bed, and embarked in informal conversation. It was Poland's future sovereign who had thus made his way to the hotel room without even calling the services of an attendant when he learned that a correspondent of an American news agency was there.

The archduke conversed with the greatest cordiality, displaying an intimate knowledge and keen interest concerning conditions of American life, and volunteered his assistance to facilitate the newspaper man's work. He was particularly impressed with the importance of the press in America and lamented the fact that the newspapers did not play such a role in Austria-Hungary. He voiced as well as manifested his belief in democratic customs and declared that he had deliberately urged two of his youngest sons, who had graduated from the Austrian Military academy the day before, to take commissions in ordinary line regiments instead of in one of the favorite guard organizations. In the thick of the fighting in the Carpathians the archduke has been living as simply as his subalterns, learning at first hand the environment of the officers and soldiers from the ranks of his people. His two sons have followed his suggestion, like their older brother, Charles Albert, and have entered line regiments, the Thirteenth Uhlans.

OFFICIAL FORECASTS

For Fort Wayne and vicinity (radius 20 miles): Fair tonight and Saturday, colder with a cold wave tonight; colder Saturday.

For Indiana: Fair tonight and Saturday, colder with a cold wave tonight; colder in east and south portions Saturday.

For Ohio: Rain this afternoon; fair and much colder tonight and Saturday with a cold wave.

For Lower Michigan: Snow this afternoon; clearing and much colder with a cold wave tonight; Saturday fair and colder.

Shippers' Forecast (radius 300 miles): Protect shipments during the next 24 to 36 hours from temperatures as follows: North and east, 10 degrees; south, 14 to 25 degrees; west, 10 to 0 degrees.

WEATHER CONDITIONS.

During the last 24 hours the southwestern depression moved northeastward and this morning it is centered over the Ohio valley and lower lake region. Another depression is moving southeastward over British Columbia. A fair weather condition occupies the southern Rocky mountain region. Since Thursday morning rain has occurred quite generally in the Mississippi and Ohio valleys, and lower lake region, and also in northwestern sections, with heavy falls in the lower Ohio valley. The weather is somewhat warmer in the upper Ohio valley and in the far northwest, but in the west Gul states and thence northwestward over the Plains region the temperature has fallen decidedly.

Automobiles and Sundries

A $361 car, plus $15 freight, plus $20 for electric starter, plus $9.70 for changing from 3-inch to 3½ inch tires, and, if you want demountable rims add about $20 more. Shock absorbers would cost another $10 to $20; a mohair top costs $25 to $30. Oh, yes, a ventilating wind shield is $10. Change your lamps for lamps with dimmers is another outlay of $6 or more. Now you have parted with about $550 and still have a $361 car, without a speedometer. So, why not buy a

CHEVROLET

The Chevrolet has electric lights, electric starter, all 30x3½ non-skid tires; has a mohair top and ventilating wind shield. Yes, it has dimmers in the headlights. The Chevrolet, too, has a long wheel base and costs only $515, with a speedometer, delivered in your city—a saving of $35 over the $361 car. The Chevrolet has four cantilever springs and does not need shock absorbers.

CHEMISTRY AIDS IN BOYS' SCHOOL PRANK

Limburger Cheese Not in It With Ammonium Valerate.

Strategy of the European war has given new impetus to the ancient boyish prank of breaking up school. Powerful gases, which drive helmeted defenders of trenches from their stronghold, can be employed to send teacher and pupils hurrying out of doors. A chemical has been found by the modern boy, which beats limburger cheese, rubber and other crude methods of our long, lost youth all to pieces.

The Hoagland school, Hoagland and Butler, was the victim Thursday afternoon. Two former pupils, who graduated from school last year, were the aggressors. One of the lads is now in high school and his companion in business college.

The high school youth had learned about the nature of gases used in the European war. He had copied down the name of one of the chemicals employed in evolving the stifling gas.

It was amonium valerate. He bought a nickel's worth at a drug store. It is in crystal form. When the pair made a brief call at their alma mater, Thursday afternoon, they sprinkled the chemical behind a radiator. Then they left.

Heat of the radiator melted the mineral. What followed caused pupils to leave their seats. Teachers dismissed school for remainder of the day.

But the boys told somebody. Principal Price told police. Detective Sergeant Junk located the boys and they confessed, Friday.

They were engaged Friday afternoon in scrubbing the floor in the region of the radiator in an effort to remove all traces of the chemical. They will not repeat the act.

Police have sent out the order that no druggists shall sell ammonium valerate to school pupils. Business men disregarding the order will be prosecuted, Lenz said. Boys who try to buy the chemical will be arrested.

Limburger cheese is still on the market, but it is not nearly so effective.

WILL PASS PIE IN HOUSE.

Committee Named o Report Complete List of Employes.

Indianapolis, Jan. 5.—The house patronage question today was taken care of by the appointment of a patronage commitee, composed of McClaskey, of Lagrange, McGonagle, of Muncie; Southard, of Michigan City; Houghton, of Shoals, and Kessler, of Peru, which will report a complete list of employes Monday morning.

STEPS FROM BOX CAR TO FLAT CAR IN DARK

Harry Clements, Brakeman on Nickel Plate, is a Patient at Hospital.

Thursday evening about 8:30 o'clock when the darkness was nearly impenetrable, Harry Clements, a brakeman on the Nickle Plate railroad, stepped from a box car and fell to a flat car, a distance of eight feet. He was taken to St. Joseph's hospital, where it was discovered that he was suffering from a badly sprained ankle and back.

The freight train had started west on a trip and Clements was on his way back to the caboose. He was walking along while the train was in motion. He was aware that there were several flat cars in the make-up of the train, but did not think that he was near them.

He states that he was watching for the flat cars. He came to the end of a box car and the outline of another box car appeared before him in the darkness. However, when he made the step across the gap between the cars, he felt himself going through space and he fell on his back on the flat car.

The accident occurred just as the train was crossing the St. Mary's river and Mr. Clements had a narrow escape from falling from the car to the river below. His condition is not regarded as serious.

WANTED—Boy to work from 3:30 to 5:30. Apply to circulation manager, The Sentinel.

Eiderdown Set for Skating

Dame Fashion has given Miss Winter Girl the mitten! Snuggled her hands right into soft, warm mittens of eiderdown. There is a scarf to match, also a hat. Little girls wear these "sets" of eiderdown to school, bigger girls wear them to the skating rink.

The "sets" come in orange, blue, Celtic green and many other gay tints.
